Rehabilitation Medicine for Elderly Patients

Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert, George Sand, Robyn Davidson, and Sara Wheeler.

Artificial Intelligence in Education

All common engine, chassis and electrical systems fully explained and illustrated. Topics covered include engine cycles and layouts, carburetors and fuel injection, ignition systems, clutches, gearbox, engine lubrication and cooling, wheels, tires, braking systems, suspension, steering, handling, design and electrical systems.

MX & Off-Road Performance Handbook -3rd Edition

In this adventure motorsports memoir, the first Canadian motorcycle racer to complete the infamous Paris-Dakar Rally recounts his incredible journey. The Paris-Dakar Rally is without question the most arduous and notorious off-road motorsports event on the planet. Since its inception in 1979, it has attracted more than three thousand adventurers from all walks of life. The men and women who have taken up the "Dakar challenge" have at least one thing in common: a desire to measure themselves against the desolate sands of the Sahara. In 2001, Canadian adventure racer Lawrence Hacking entered what would be the last rally on the iconic route from Paris to Dakar. In *To Dakar and Back*, Hacking, in collaboration with motorsport journalist Wil De Clercq, recounts the three weeks of blood, sweat, and tears that took him on that ten thousand kilometer journey in the heat of competition from the glitzy streets of the French capital through the hinterland of North Western Africa and the triumph of self-realization.

Mercury Outboards, 4 Stroke 2005-2011

Athletes and their support personnel are constantly seeking evidence-informed recommendations to enhance athletic performance during competition and to optimize training-induced adaptations. Accordingly, nutritional and supplementation strategies are commonplace when seeking to achieve these aims, with such practices being implemented before, during, or after competition and/or training in a periodized manner. Performance nutrition is becoming increasingly specialized and needs to consider the diversity of athletes and the nature of the competitions. This Special Issue, *Nutrition Support for Athletic Performance*, describes recent advances in these areas.

This book clearly explains when and how different rehabilitation techniques should be applied in the aging patient, thereby enabling readers to identify and apply those rehabilitation strategies that will maximize quality of life and functional independence in individual cases. It is specifically designed for ease of consultation and rapid retrieval of the information most relevant to clinical practice. Prominence is given to the benefits of a multidisciplinary approach to rehabilitation, with discussion of a very wide range of aspects of rehabilitation in different disease settings. The breadth of coverage is illustrated by the attention paid to less commonly addressed topics such as visual and hearing rehabilitation, the role of robotics and 3D imaging techniques, variations in approach among health care systems, and rehabilitation in end-of-life care. The authors are international academic experts in their fields, guaranteeing a high scientific standard throughout. This manual will be an invaluable tool and source of knowledge for geriatricians and physiatrists but will also appeal to a wider range of clinicians, practitioners, and students.

GRABBING A GOLDEN DREAM WITH GOLDEN GLOVES Does boxing teach anything besides how to club someone into submission? Can it transcend its sordid reputation and instill love, compassion and honor in Americas most troubled kids? In this raw yet uplifting memoir about amateur boxing, author Peter Wood tells of his begrudging return to a world he thought hed left behind. He steps back into the mud of boxing, coaching two troubled teens who dreamas he once didof becoming Golden Gloves champions.His compelling story moves far beyond the grunt and sweat of the local gym. It explores the classrooms of a suburban high school and digs through the remains of unhappy childhoods. Its a story about how boxing is a way out, and how it cleanses the soul.This book brings the subculture of amateur boxing up close and weaves a powerful story of redemption, beating demons and battling for glory.

Just a Spoon Full of Laughter is a great read for anyone that's been to a doctor's office and made it out alive. Written by an actual physician, it will keep you in stitches (no pun intended) from one story to the next. See for yourself what could be so funny about the physician office visit. Whether it's recalling his first sigmoidoscopy or performing an autopsy, you'll keep this riveting series of short humorous stories right there in the bathroom for pleasurable reading. You may even find yourself somewhere between the pages. From an author who will never be a New York Times Best Seller, it's a great book for young or old, male or female, professional or not. It's especially ideal for that person in your life who has everything except a sense of humor. It's ideal as a stocking stuffer, white elephant gift or for future yard sales. "The funniest book I ever read." Says Dr. Zhivago "Yes! Yes! Yes!" Says Dr. No

Ideal for shoulder surgeons who want to upgrade their skills to the next level, this practical, step-by-step text presents the latest cutting-edge management strategies and science aimed at shoulder preservation surgery. Highlighting four main areas - the overhead athlete, shoulder instability, glenohumeral arthritis, and the rotator cuff - these innovative techniques focus on the maintenance of the native shoulder joint. Chapters open with an introduction to the clinical problem, followed by misgivings related to open surgery or arthroplasty as treatment strategies. A rationale for the arthroscopic treatment is then presented, along with an in-depth description of the technique itself as well as preliminary results. Techniques presented include posterior capsule release for the overhead athlete, arthroscopic Latarjet for instability, the CAM procedure for glenohumeral arthritis, biological augmentation for rotator cuff repair. A fifth section covers post-operative care and return-to-play considerations. With contributions from many of the top thinkers and surgeons of the shoulder, Elite Techniques in Shoulder Arthroscopy brings these exciting new management strategies to the fore with the aim of

elevating them to more common practice for orthopedic surgeons and sports medicine specialists.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

The Four Stroke Dirt Bike Engine Building Handbook

This book, published in cooperation with ESSKA, is an exceptionally comprehensive guide to arthroscopy that covers all major joints and all potential arthroscopic procedures. Sections on the knee, shoulder, elbow, hip, wrist, and ankle provide in-depth descriptions of each procedure, including indications, technique, complications, and results, as well as essential information on diagnostic work-up and classification systems/rating scales. The text is supported by a wealth of color illustrations, and clear treatment algorithms are included for most sports injuries. An introductory section describes the history of arthroscopy, explains general principles, and provides information on instrumentation, electronic equipment, anesthesia, pain control, and prevention of complications. A special chapter focuses on the operative report, with description of an electronic form that can be used by every surgeon to store operative records or participate in European

multicenter ESSKA studies. The authors include the most renowned arthroscopic surgeons in Europe. Arthroscopy will be an invaluable textbook and reference for orthopaedic surgeons, general orthopaedic physicians, sports traumatologists, residents, and physical therapists.

John Haynes

Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry's most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music's heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company's president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of "Sexual Healing"—share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff's clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You'll Never Eat Lunch in this Town Again* of the music industry.

With the continued application of gaming for training and education, which has seen exponential growth over the past two decades, this book offers an insightful

introduction to the current developments and applications of game technologies within educational settings, with cutting-edge academic research and industry insights, providing a greater understanding into current and future developments and advances within this field. Following on from the success of the first volume in 2011, researchers from around the world presents up-to-date research on a broad range of new and emerging topics such as serious games and emotion, games for music education and games for medical training, to gamification, bespoke serious games, and adaptation of commercial off-the shelf games for education and narrative design, giving readers a thorough understanding of the advances and current issues facing developers and designers regarding games for training and education. This second volume of Serious Games and Edutainment Applications offers further insights for researchers, designers and educators who are interested in using serious games for training and educational purposes, and gives game developers with detailed information on current topics and developments within this growing area.
