The New Politics of North Carolina

The Thomas Wolfe Review

Robert Henry is a character more suited for fiction than nonfiction. While just a boy, he fought with the Overmountain Men at Kings Mountain and battled British troops along the Catawba River. As a surveyor, he helped mark the boundary line between Tennessee and North Carolina. He had a long career as a prominent attorney and owned the famous Sulphur Springs resort. Yet while Henry is one of western North Carolina's most accomplished ancestors, he is also one of the most eccentric. He preferred to dress in moccasins and traveled with a walking stick nearly as tall as he. Some said he had the gift of foresight and was able to predict his own death. Join author Richard Russell as he navigates the unusual, contradictory and fascinating life of Robert Henry.

Gator Tales

George Jackson was born 9 January 1757 in Cecil County, Maryland. His parents were John Jackson and Elizabeth Cummins. He married Elizabeth Brake (1757-1812), daughter of Jacob Brake and Elizabeth Cooper, 13 November 1776 near Moorefield, Hardy, West Virginia. Focuses on two of their grandsons, William Lowther Jackson (1798-1836) and John Jay Jackson (1800-1877), and their families. Descendants and relatives lived mainly in West Virginia.

'Drawing on more than thirty years of reporting experience, Rob Christensen combines firsthand analysis of modern politics with a well-researched look at the past. Beginning at the turn of the twentieth century, when North Carolina was a racially charged one-party state, *The Paradox of Tar Heel Politics* profiles an electorate that has embraced both center-left progressives and Bible Belt conservatives, while never fully swearing off the divisive politics of the past.'--Adam Hochberg, correspondent, National Public Radio.. "Rob Christensen's study of North

Read Book Buncombe Bob The Life And Times Of Robert Rice Reynolds

Carolina politics provides all the necessary reference points for those who wish to understand the political forces that shaped the state in the twentieth century. This book is more than issues and events, however. It is an encyclopedic biographical reference of the people whose electoral success, achievements, and misadventures have long confounded those seeking to properly place North Carolina on the political spectrum."-- Howard E. Covington Jr., coeditor of *The North Carolina Century: Tar Heels Who Made a Difference, 1900-2000*.. "Rob Christensen takes readers on a colorful journey through the familiar and forgotten byways of North Carolina politics. Combining astute analysis with sharp character portraits, Christensen lays claim to the mantle of V.O. Key Jr. as the chief interpreter of North Carolina's modern political system."-- Jeffrey J. Crow, Deputy Secretary of Archives and History, North Carolina Department of Cultural Resources.. "This is a sweeping narrative of 100 years of North Carolina politics, filled with fascinating characters and stories and told by an experienced journalist. Even if you think you know the story of the state's twentieth-century politics, you'll be pulled in by Christensen's engaging narrative."-- Ferrel Guillory, University of North Carolina at Chapel Hill

Political scientist V. O. Key in 1949 described North Carolina as a "progressive plutocracy." He argued that in the areas of industrial development, public education, and race relations, North Carolina

Read Book Buncombe Bob The Life And Times Of Robert Rice Reynolds

appeared progressive when compared to other southern states. Reconsidering Key's evaluation nearly sixty years later, contributors to this volume find North Carolina losing ground as a progressive leader in the South. The "new politics" of the state involves a combination of new and old: new opportunities and challenges have forced the state to change, but the old culture still remains a powerful force. In the eleven essays collected here, leading scholars of North Carolina politics offer a systematic analysis of North Carolina's politics and policy, placed in the context of its own history as well as the politics and policies of other states. Topics discussed include the evolution of politics and political institutions; the roles of governors, the judicial branch, interest groups, and party systems; and the part played by economic development and environmental policy. Contributors also address how geography affects politics within the state, region, and nation. Designed with students and interested citizens in mind, this collection provides an excellent introduction to contemporary North Carolina politics and government. James Sprunt Studies in History and Political Science

When Buncombe County was formed in 1792, firefighting efforts were left up to individual landowners and helpful neighbors using buckets and a nearby well or body of water. Not until 1882 was an organized, community-sponsored fire department established; this was the Asheville Fire Department. Other fire departments followed, and no two were the same. Stations appeared in the towns of Weaverville and Black Mountain, while others sprang up in the residential communities of Kenilworth, Biltmore Forest, and George Vanderbilt's Biltmore Village. In September 1953, county commissioners formally passed a resolution for county aid and supervision for rural volunteer fire departments. Through photographs that illustrate firefighting in many of its forms—rescue squads, wildland firefighting units, ladies auxiliaries, and ambulance services—Firefighting in Buncombe County showcases and honors the firefighters of this mountainous area who have always worked to keep their communities safe.

Unceasing Militant

They Walked the Streets of Fame

The Works of Robert G. Ingersoll: Discussions

This engaging and objective biography gives us a comprehensive account of Ervin's life and career, tracing his development from a shy romantic youth into the complex and mature man. The author tells of the boyhood years in North Carolina, the influences of family, friends, and history, the college years, World War I, and Harvard, as well as Ervin's frequently colorful apprenticeship as country lawyer, judge, state legislator, congressman, and senator. Clancy brings to his task a thorough knowledge of Ervin developed while covering his activities prior to and during Watergate. He has had many exclusive private interviews with the Senator, his wife, family, friends,

and staff during which Ervin in particular shared many reminiscences, anecdotes, and stories which have not appeared before.

The Political Career of W. Kerr Scott

Born into slavery during the Civil War, Mary Church Terrell (1863–1954) would become one of the most prominent activists of her time, with a career bridging the late nineteenth century to the civil rights movement of the 1950s. The first president of the National Association of Colored Women and a founding member of the NAACP, Terrell collaborated closely with the likes of Frederick Douglass, Ida B. Wells, and W. E. B. Du Bois. *Unceasing Militant* is the first full-length biography of Terrell, bringing her vibrant voice and personality to life. Though most accounts of Terrell focus almost exclusively on her public activism, Alison M. Parker also looks at the often turbulent, unexplored moments in her life to provide a more complete account of a woman dedicated to changing the culture and institutions that perpetuated inequality throughout the United States. Drawing on newly discovered letters and diaries, Parker weaves together the joys and struggles of Terrell's personal, private life with the challenges and achievements of her public, political career, producing a stunning portrait of an often-under-recognized political leader.

Buncombe Bob

From the earliest days in Gainesville, to milestones in

Read Book Buncombe Bob The Life And Times Of Robert Rice Reynolds

campus expansion and institutional growth, to the infamous Johns Committee, the Vietnam War, and civil rights protests, to Gator athletics, this lively, anecdotal history provides an intimate look at the university's last 100 years. Of the many people who made the university, UF's 13 presidents, with their talents and initiatives, provide a colorful introduction to a remarkable century's progress. Beyond the administrative history of the first 100 years, Gator Tales features extended interviews with nine notable individuals whose influences extend from within UF to the broader worlds of business, law, and sports including Ray Graves, Otis Boggs, Tracy Caulkins, Steve O'Connell, John Lombardi, Manny Fernandez, and Stephan Mickle. Each interview opens a window onto a particular time and set of challenges in the history of UF, while reflecting the personal qualities that enabled each individual to have a substantial impact on both colleagues and the institution itself. administrators, athletes, and students, Gator Tales is a tapestry of personalities and participants in the evolution of UF from a small provincial campus to a major university - an entertaining, fascinating centennial read for Gators everywhere.

Hometown Memorieslife in the Good Old Days in Buncombe and Henderson Counties

The tank revolutionized the battlefield in World War II. In the years since, additional technological developments--including nuclear weapons, ballistic missiles, computer assisted firing, and satellite
