The Legend of Decimus Croome

A New York Times bestseller with an "engaging narrative and array of detail" (The Wall Street Journal), the "intimate and sweeping" (Raleigh News & Observer) untold, true story behind the Biltmore Estate—the largest, grandest private residence in North America, which has seen more than 120 years of history pass by its front door. The story of Biltmore spans World Wars, the Jazz Age, the Depression, and generations of the famous Vanderbilt family, and features a captivating cast of real-life characters including F. Scott Fitzgerald, Thomas Wolfe, Teddy Roosevelt, John Singer Sargent, James Whistler, Henry James, and Edith Wharton. Orphaned at a young age, Edith Stuyvesant Dresser claimed lineage from one of New York's best known families. She grew up in Newport and Paris, and her engagement and marriage to George Vanderbilt was one of the most watched events of Gilded Age society. But none of this prepared her to be mistress of Biltmore House. Before their marriage, the wealthy and bookish Vanderbilt had dedicated his life to creating a spectacular European-style estate on 125,000 acres of North Carolina wilderness. He summoned the famous landscape architect Frederick Law Olmsted to tame the grounds, collaborated with celebrated architect Richard Morris Hunt to build a 175,000-square-foot chateau, filled it with priceless art and antiques, and erected a charming village beyond the gates. Newlywed Edith was now mistress of an estate nearly three times the size of Washington, DC and benefactress of the village and surrounding rural area. When fortunes shifted and changing times threatened her family, her home, and her community, it was up to Edith to save Biltmore—and secure the future of the region and her husband's legacy. This is the fascinating, "soaring and gorgeous" (Karen Abbott) story of how the largest house in America flourished, faltered, and ultimately endured to this day.

Anna, Duchess of Cleves

From Jennifer Weiner, the #1 New York Times bestselling author of *Who Do You Love* and *In Her Shoes* comes a smart, thoughtful, and timely exploration of two sisters' lives from the 1950s to the present as they struggle to find their places—and be true to themselves—in a rapidly evolving world. *Mrs. Everything* is an ambitious, richly textured journey through history—and herstory—as these two sisters navigate a changing America over the course of their lives. Do we change or does the world change us? Jo and Bethie Kaufman were born into a world full of promise. Growing up in 1950s Detroit, they live in a perfect "Dick and Jane" house, where their roles in the family are clearly defined. Jo is the tomboy, the bookish rebel with a passion to make the world more fair; Bethie is the pretty, feminine good girl, a would-be star who enjoys the power her beauty confers and dreams of a traditional life. But the truth ends up looking different from what the

girls imagined. Jo and Bethie survive traumas and tragedies. As their lives unfold against the background of free love and Vietnam, Woodstock and women's lib, Bethie becomes an adventure-loving wild child who dives headlong into the counterculture and is up for anything (except settling down). Meanwhile, Jo becomes a proper young mother in Connecticut, a witness to the changing world instead of a participant. Neither woman inhabits the world she dreams of, nor has a life that feels authentic or brings her joy. Is it too late for the women to finally stake a claim on happily ever after? In her most ambitious novel yet, Jennifer Weiner tells a story of two sisters who, with their different dreams and different paths, offer answers to the question: How should a woman be in the world?

1,000 Places to See Before You Die

Flying Aircraft Carriers of the Usaf: Wing Tip Coupling

At the height of their power in the late eleventh century, the Chaco Anasazi dominated a territory in the American Southwest larger than any European principality of the time. A vast and powerful alliance of thousands of farming hamlets and nearly 100 spectacular towns integrated the region through economic and religious ties, and the whole system was interconnected with hundreds of miles of roads. It took these Anasazi farmers more than seven centuries to lay the agricultural, organizational, and technological groundwork for the creation of classic Chacoan civilization, which lasted about 200 years--only to collapse spectacularly in a mere 40. Why did such a great society collapse? Who survived? Why? In this lively book anthropologist/archaeologist David Stuart presents answers to these questions that offer useful lessons to modern societies. His account of the rise and fall of the Chaco Anasazi brings to life the people known to us today as the architects of Chaco Canyon, the spectacular national park in New Mexico that thousands of tourists visit every year.

Downton Abbey

"What if what you did mattered more because life happened again and again, consequences unfolding across decades and continents? A relentlessly paced page-turner and a profound meditation on the meaning of life." —Christina Baker Kline, #1 New York Times bestselling author of *The Orphan Train* What happens to us after we die? What happens before we are born? At once a riveting mystery and a testament to the profound connection between a child and parent, *The Forgetting Time* will lead you to reevaluate everything you believe What would you do if your four-year-old son claimed he had lived another life and that he wants to go back to it? That he wants his other mother? Single mom Janie is trying to figure out what is going on with her beloved son Noah. Noah has never been ordinary. He loves to make up stories, and he is constantly surprising her with random trivia someone his age has no right knowing. She always chalked it up to the fact that

Noah was precocious—mature beyond his years. But Noah's eccentricities are starting to become worrisome. One afternoon, Noah's preschool teacher calls Janie: Noah has been talking about shooting guns and being held under water until he can't breathe. Suddenly, Janie can't pretend anymore. The school orders him to get a psychiatric evaluation. And life as she knows it stops for herself and her darling boy. For Jerome Anderson, life as he knows it has already stopped. Diagnosed with aphasia, his first thought as he approaches the end of his life is, I'm not finished yet. Once an academic star, a graduate of Yale and Harvard, a professor of psychology, he threw everything away to pursue an obsession: the stories of children who remembered past lives. Anderson became the laughing stock of his peers, but he never stopped believing that there was something beyond what anyone could see or comprehend. He spent his life searching for a case that would finally prove it. And with Noah, he thinks he may have found it. Soon, Noah, Janie, and Anderson will find themselves knocking on the door of a mother whose son has been missing for eight years. When that door opens, all of their questions will be answered. Gorgeously written and fearlessly provocative, Sharon Guskin's debut explores the lengths we will go for our children. It examines what we regret in the end of our lives and hope for in the beginning, and everything in between.

The 55ers

The Man Who Thought He Owned Water is author Tershia d'Elgin's fresh take on the gravest challenge of our time—how to support urbanization without killing ourselves in the process. The gritty story of her family's experience with water rights on its Colorado farm provides essential background about American farms, food, and water administration in the West in the context of growing cities and climate change. Enchanting and informative, The Man Who Thought He Owned Water is an appeal for urban-rural cooperation over water and resiliency. When her father bought his farm—Big Bend Station—he also bought the ample water rights associated with the land and the South Platte River, confident that he had secured the necessary resources for a successful endeavor. Yet water immediately proved fickle, hard to defend, and sometimes dangerous. Eventually those rights were curtailed without compensation. Through her family's story, d'Elgin dramatically frames the personal-scale implications of water competition, revealing how water deals, infrastructure, transport, and management create economic growth but also sever human connections to Earth's most vital resource. She shows how water flows to cities at the expense of American-grown food, as rural land turns to desert, wildlife starves, the environment degrades, and climate change intensifies. Depicting deep love, obsession, and breathtaking landscape, The Man Who Thought He Owned Water is an impassioned call to rebalance our relationship with water. It will be of great interest to anyone seeking to understand the complex forces affecting water resources, food supply, food security, and biodiversity in America.

Prophet's Prey

From the private investigator who cracked open the case that led to the conviction of Warren Jeffs, the maniacal prophet of the polygamous Fundamentalist Church of Latter Day Saints (FLDS), comes the page-turning, horrifying story of how a rogue sect used sex, money, and power disguised under a façade of religion to further criminal activities and a madman's vision. In Prophet's Prey, Brower implicates Jeffs in his own words, bringing to light the contents of Jeffs's personal priesthood journal, discovered in a hidden underground vault, and revealing to readers the shocking inside world of FLDS members whose trust he earned and who showed him the staggering truth of their lives.

The Unsettlers

This volume explores the complex relations of texts and their contextualising elements, drawing particularly on the notions

of paratext, metadiscourse and framing. It aims at developing a more comprehensive historical understanding of these phenomena, covering a wide time span, from Old English to the 20th century, in a range of historical genres and contexts of text production, mediation and consumption. However, more fundamentally, it also seeks to expand our conception of text and the communicative 'spaces' surrounding them, and probe the explanatory potential of the concepts under investigation. Though essentially rooted in historical linguistics and philology, the twelve contributions of this volume are also open to insights from other disciplines (such as medieval manuscript studies and bibliography, but also information studies, marketing studies, and even digital electronics), and thus tackle opportunities and challenges in researching the dynamics of text and framing phenomena in a historical perspective.

Subsequent editions have been updated regularly to include biographical and liturgical material for new commemorations authorized for permanent or trial observance by the General Convention of the Episcopal Church. This newest edition will contain material approved for trial use by the 2006 General Convention. Now for the first time you can get to know these fascinating personalities in "The 55ers: The Pioneers Who Settled Disneyland" by David Koenig. You'll meet close to 700 Year One cast members from every department in the park, including: ÷ Disneyland's notorious first general manager C.V. Wood and his "Texas mafia" ÷ Vesey Walker, the bristly conductor of the Disneyland Band and the 16 often-crazy musicians who followed him, ÷ The always-too-serious Marshal Lucky and his never-serious-enough nemesis, the villainous Black Bart, ÷ The adorable sweeper Trinidad, ÷ K7 the Kaiser Spaceman, ÷ The original Jungle Cruise skippers, ÷ The Merlin's Magic Shop magicians, ÷ The Puffin's bakers, ÷ The Hobbyland model airplane flyers ÷ The Golden Horseshoe can-can dancers, ÷ Plus the very first nurses, security officers, firemen, wranglers, ticket sellers, newsboys, switchboard operators, ride operators, and many, many more. The book features hundreds of never-before-published images, most of them provided by the original Disneylanders themselves. The candid photos provide peeks inside a number of long-vanished areas of the park, including the Sunny-View Jams & Jellies shop, the Plantation House chicken

restaurant, and the Adventureland Bazaar.

The Man Who Thought He Owned Water

During and after World War II, aircraft designers were faced with the problem of increasing the range of strategic bombers. Dr. Richard Vogt, a German immigrant to the United States, proposed that floating wing panels carrying fuel tanks could be attached to the wing tips of an airplane with hinges to extend its range. The floating wing panels would support their own weight, without increasing the load on the airplane's wings. The Air Force initiated a project to simulate floating wing panels with a piloted light plane that coupled to a larger airplane in flight. Soon the scope of the project expanded to explore the possibility of towing fighters coupled to the wing tips of bombers.

A Song Of Ice And Fire 2021 Calendar

This book gives a counterpoint history – wry, keen-eyed, sometimes disgruntled – of the hard-fought, brilliant campaign that won World War II in the Southwest Pacific. It draws on the diary of an officer who knew its airfields and scarred beachheads, and its narrative is wrapped around a scandal and two battles. During 1944, Douglas MacArthur's army fought its way from New Guinea to the Philippines. In New Guinea, discarding pre-war doctrine, Allied air commander George Kenney planned and ran an "air blitz" offensive. Kenney's Fifth Air Force drove forward like a tank army, crash-landing in open country, seizing terrain, bulldozing new airfields, winning air control, and moving forward. At airfields on the front line, First Lieutenant Roscoe A. Boyer – Rocky Boyer – kept the radios working for the 71st Tactical Reconnaissance Group, a fighter-bomber unit. This book draws on his diary. Diaries were forbidden, but Rocky kept one – full of casualties, accidents, off-duty shenanigans, and rear-area snafus. He had friends killed when they shot it out with Japanese anti-aircraft gunners, or when their bombers vanished in bad weather. He wrote about wartime camp life – at Nadzab, New Guinea, the largest air base in the world, part Scout camp and part frontier boomtown. He knew characters worthy of Catch-22: combat flyers who played contract bridge, officers who played office politics, black quartermasters, and chaplains who stood up to colonels,

when a promotion party ended with drunken gunplay and dynamite. His group stepped in against Japanese counterstrikes, sharp, sudden fights against enemy warships. • Off the island of Biak, in June 1944, the 17th Tactical Reconnaissance Squadron, flying B-25's, attacked Japanese destroyers carrying enemy reinforcements. In 90 seconds, the squadron won 60 Distinguished Flying Crosses, 19 of them posthumous. • On the beachhead at Mindoro, south of Manila in December 1944, Rocky fought in what Kenney called "the wildest scramble of the war": a grim evening when the airfield was hit by Japanese bombers and shelled by a Japanese war fleet. This is a narrative of the war as airmen lived it, not a day-by-day, blow-by-blow verbatim transcript of a wartime diary. Rocky's experience of life on the front line gives from-the-bottom-up detail to the framework of Kenney's air blitz.

Danny's Big Adventure

Evoking Krakauer's Into the Wild, Dan Schultz tells the extraordinary true story of desperado survivalists, a brutal murder, and vigilante justice set against the harsh backdrop of the Colorado wilderness On a sunny May morning in 1998 in Cortez, Colorado, three desperados in a stolen truck opened fire on the town cop, shooting him twenty times; then they blasted their way past dozens of police cars and disappeared into 10,000 square miles of the harshest wilderness terrain on the North American continent. Self-trained survivalists, the outlaws eluded the most sophisticated law enforcement technology on the planet and a pursuit force that represented more than seventy-five local, state, and federal police agencies with dozens of swat teams, U.S. Army Special Forces, and more than five hundred officers from across the country. Dead Run is the first in-depth account of this sensational case, replete with overbearing local sheriffs, Native American trackers, posses on horseback, suspicion of vigilante justice and police cover-ups, and the blunders of the nation's most exalted crime-fighters pursuing outlaws into territory in which only they could survive.
