Ways of the World

The Significance of the Frontier in American History

The American Pageant

How an obscure Puritan sermon came to be seen as a founding document of American identity and exceptionalism “For we must consider that we shall be as a city upon a hill,” John Winthrop warned his fellow Puritans at New England’s founding in 1630. More than three centuries later, Ronald Reagan remade that passage into a timeless celebration of American promise. How were Winthrop’s long-forgotten words reinvented as a central statement of American identity and exceptionalism? In *As a City on a Hill*, leading American intellectual historian Daniel Rodgers tells the surprising story of one of the most celebrated documents in the canon of the American idea. In doing so, he brings to life the ideas Winthrop’s text carried in its own time and the sharply different yearnings that have been attributed to it since. *As a City on a Hill* shows how much more malleable, more saturated with vulnerability, and less distinctly American Winthrop’s “Model of Christian

Charity” was than the document that twentieth-century Americans invented. Across almost four centuries, Rodgers traces striking shifts in the meaning of Winthrop’s words—from Winthrop’s own anxious reckoning with the scrutiny of the world, through Abraham Lincoln’s haunting reference to this “almost chosen people,” to the “city on a hill” that African Americans hoped to construct in Liberia, to the era of Donald Trump. As a City on a Hill reveals the circuitous, unexpected ways Winthrop’s words came to lodge in American consciousness. At the same time, the book offers a probing reflection on how nationalism encourages the invention of “timeless” texts to straighten out the crooked realities of the past.

The Commanding Heights

Anti-imperialism in the United States

Cracking the AP World History Exam

A People's History of the United States

Covering a period of about four centuries, this book demonstrates the economic and political components of the opium problem. As a mass product, opium was introduced in India and Indonesia by the Dutch in the 17th century. China suffered the most, but was also the first to get rid of the opium problem around 1950.

Imperialism

Comparisons, Connections, & Change-contexts for the particulars Ways of the World is the textbook preferred by AP World History teachers and students across North America. Like the AP course it supports, Ways of the World focuses on significant historical trends, themes, and developments in world history. Author Robert W. Strayer provides a thoughtful and insightful synthesis that helps students see the big picture. Each chapter then culminates with collections of primary sources (written and visual) organized around a particular theme, issue, or question, thus allowing students to consider the evidence the way historians do. The second edition includes a wealth of supporting resources and supplements for the AP course, including an AP Skills Primer and AP Chapter Wrap-Ups, and rolls out Bedford/St. Martin's new digital history tools, including LearningCurve, an adaptive quizzing engine that garners over a 90% student satisfaction rate, and LaunchPad, the all new interactive e-book and course space that puts high quality easy-to-use assessment at your fingertips. Featuring

video, additional primary sources, a wealth of adaptive and summative quizzing, and more, LaunchPad cements student understanding of the text while helping them make progress toward learning outcomes. It's the best content joined up with the best technology.

World History Modern Era

Introduction to Sociology

Last Among Equals is the first detailed account of Hawaii's quest for statehood. It is a story of struggle and accommodation, of how Hawaii was gradually absorbed into the political, economic, and ideological structures of American life. It also recounts the complex process that came into play when the states of the Union were confronted with the difficulty of granting admission to a non-contiguous territory with an overwhelmingly non-Caucasian population. More than any previous study of modern Hawaii, this book explains why Hawaii's legitimate claims to equality and autonomy as a state were frustrated for more than half a century. Last Among Equals is sure to remain a standard reference for modern Hawaiian and American political historians. As important, it will require a reevaluation of two commonly held myths: that of racial harmony in Hawaii and that of automatic equality under the Constitution of the United States.

Western Civilizations

Ancient World History

This book examines in a basically chronological context the interesting issues, events, ideas, and organizations that were a part of American anti-imperialism and stresses the thought of the leading anti-imperialists in relation to changing incidents and circumstances.

Progress and Poverty

History of the Opium Problem

"An enthralling story . . . A work of history that reads like a novel." — Christian Science Monitor "As Hochschild's brilliant book demonstrates, the great Congo scandal prefigured our own times . . . This book must be read and reread." — Los Angeles Times Book Review In the late nineteenth century, as the European powers were carving up Africa, King Leopold II of Belgium carried out a brutal plundering of the territory surrounding the Congo River. Ultimately slashing the area's population by ten million, he still managed to shrewdly cultivate his reputation as a great humanitarian. A tale far richer than any novelist could invent, King Leopold's Ghost is the horrifying account of a megalomaniac of monstrous proportions. It is also the deeply moving portrait of those who defied Leopold: African rebel leaders who fought against hopeless odds and a brave handful of missionaries, travelers, and young idealists who went to Africa for work or adventure but unexpectedly found themselves witnesses to a holocaust and participants in the twentieth century's first great human rights movement. The Black Man's Burden

This Fourth Edition of George Ritzer's Introduction to Sociology shows students the relevance of sociology to their lives. While providing a rock-solid foundation, Ritzer illuminates traditional sociological concepts and theories, as well as some of the most compelling contemporary social phenomena: globalization, consumer culture, the digital world, and the "McDonaldization" of society. With examples on every page from current events and contemporary research, and stories about "public" sociologists who are engaging with the critical issues of today, the text demonstrates the power of sociology to explain the world, and the diversity of questions that sociologists seek to answer. New to this Edition New "Trending" boxes focus on influential books written by sociologists that have become part of the public conversation about important issues. Replacing "Public Sociology" boxes, these boxes demonstrate the diversity of sociology's practitioners, methods, and subject matter, and feature such authors as: Michelle Alexander (The New Jim Crow) Elizabeth Armstrong and Laura Hamilton (Paying for the Party) Randol Contreras (The Stick-Up Kids) Matthew Desmond (Evicted) Kimberly Hoang (Dealing in Desire) Arlie Hochschild (Strangers in Their Own Land) Eric Klinenberg (Going Solo) C.J. Pascoe (Dude, You're a Fag) Lori

Peek and Alice Fothergill (Children of Katrina) Allison Pugh (The Tumbleweed Society) Updated examples in the text and "Digital Living" boxes keep pace with changes in digital technology and online practices, including Uber, bitcoin, net neutrality, digital privacy, WikiLeaks, and cyberactivism. New or updated subjects apply sociological thinking to the latest issues including: the 2016 U.S. election Brexit the global growth of ISIS climate change President Trump's proposed Mexican border wall further segmentation of wealthy Americans in the "super rich" transgender people in the U.S. armed forces charter schools the legalization of marijuana the Flint water crisis fourth-wave feminism

Things Fall Apart

The "Word of God" emerged and evolved as divine responses to changing human needs in biblical history. By tracing the historical trajectories of six paradigms of salvation, such as ex-odus, kingship and sacrifice, through a millennium of biblical history, Nurnberger reveals a vibrant current of meaning underlying the texts which expresses growing insight into God's redeptive intentions and which can be extrapolated in to the present predicaments of humankind. Klaus Nurnberger is professor emeritus for Systematic Theology and Theological Ethics at the University of Natal in Pietermaritzburg, South Africa. His carreer has been devoted mainly to the underlying causes of world-wide socio-economic discrepancies and the relevance of the Christian faith in this regard.Ã?Â?

World History: Connections to Today 4th Edition Guided Reading and Review, English Student Edition 2003c

World History: Connections to Today

The most powerful force in the world economy today is the redefinition of the relationship between state and marketplace - a process that goes by the name of privatization though this term is inadequate to express its far-reaching changes. We are moving from an era in which governments sought to seize and control the 'commanding heights' of the economy to an era in which the idea of free markets is capturing the commanding heights of world economic thinking. Basic views of how society ought to be organized are undergoing rapid change, trillions of dollars are changing hands and so is fundamental political power. Great new wealth is being created - as are huge opportunities and huge risks. Taking a worldwide perspective, including Britain, where the process began with Mrs Thatcher, Europe and the former USSR, China, Latin America and the US, THE COMMANDING HEIGHTS shows how a revolution in ideas is transforming the world economy - why it is happening, how it can go wrong and what it will mean for the global economy going into the twenty-first century.

The Bookseller

This hugely influential work marked a turning point in US history and culture, arguing that the nation's expansion into the Great West was directly linked to its unique spirit: a rugged individualism forged at the juncture between civilization and wilderness, which - for better or worse - lies at the heart of American identity today. Throughout history, some books have

changed the world. They have transformed the way we see ourselves – and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives – and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

King Leopold's Ghost

For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

Shame the Stars

One of the BBC's '100 Novels That Shaped Our World' A worldwide bestseller and the first part of Achebe's African Trilogy, Things Fall Apart is the compelling story of one man's battle to protect his community against the forces of change Okonkwo is the greatest wrestler and warrior alive, and his fame spreads throughout West Africa like a bush-fire in the harmattan. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. First published in 1958, Chinua Achebe's stark, coolly ironic novel reshaped both African and world literature, and has sold over ten million copies in forty-five languages. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in Arrow of God and No Longer at Ease. 'His courage and generosity are made manifest in the work' Toni Morrison 'The writer in whose company the prison walls fell down' Nelson Mandela 'A great book, that bespeaks a great, brave, kind, human spirit' John Updike With an Introduction by Biyi Bandele

The Complete Idiot's Guide to European History, 2e

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

World History & Geography

America

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).
