### **Writing Instruction and Assessment for English Language Learners K-8**

This practical booklet can help you write a compare and contrast essay by showing you the complete process of writing this type of paper. This systematic method will start with your assignment and end with a final proofreading. In between that first and last step, this writing method relies upon templates to help you build a well-organized compare-and-contrast paper. These templates show you exactly what to include in different places within the paper. You will no longer need to guess what to write and where to write it. By using the templates, the various pieces of the paper will work together to create a coherent draft. Follow the steps in order, from the first to the last, and do not skip any along the way. Each step builds on the previous steps. Assignment analysis turns into a table of factors, the table of factors turns into a working outline and topic sentences, and so on. By completing each step before moving on to the next, the next step will be easier. And so will the one after that. This booklet not only helps you write a complete paper, but it shows you a method to apply in any similar paper that relies on the compare-and-contrast model. Working the steps carefully the first time will teach you the method. Then, when you must write another compare-and-contrast essay, use this booklet as a reference to refresh your memory on the steps and templates. The more you use the method, the easier it will be.

Chosen by John Updike as a Today Show Book Club Pick. Already an award-winning writer, ZZ Packer now shares with us her debut, *Drinking Coffee Elsewhere*. Her impressive range and talent are abundantly evident: Packer dazzles with her command of language, surprising and delighting us with unexpected turns and indelible images, as she takes us into the lives of characters on the periphery, unsure of where they belong. We meet a Brownie troop of black girls who are confronted with a troop of white girls; a young man who goes with his father to the Million Man March and must decide where his allegiance lies; an international group of drifters in Japan, who are starving, unable to find work; a girl in a Baltimore ghetto who has dreams of the larger world she has seen only on the screens in the television store nearby, where the Lithuanian shopkeeper holds out hope for attaining his own American Dream. With penetrating insight that belies her youth—she was only nineteen years old when *Seventeen* magazine printed her first published story—ZZ Packer helps us see the world with a clearer vision. *Drinking Coffee Elsewhere* is a striking performance—fresh, versatile, and captivating. It introduces us to an arresting and unforgettable new voice.

### **My Antonia**

This is the first text for those seeking appropriate statistical approaches to research data that is devoted entirely to the topic of contrasts. Contrast analysis permits us to ask more focused questions of our data. In return for a small amount of simple computation, we get very much greater statistical power, and can make very much clearer substantive interpretations of our research results. Contrast analysis should be employed in the context of the analysis of variance whenever the numerator degrees of freedom are greater than one (which is probably most of the time). Unfortunately, it is employed relatively rarely by behavioural and social scientists. This book makes it possible for non-mathematical data analysts to avail themselves of contrasts, and thereby simply and efficiently to address the focused questions posed by their theories, hypotheses, and hunches.
