The federal government wastes your tax dollars worse than a drunken sailor on shore leave. The 1984 Grace Commission uncovered that the Department of Defense spent \$640 for a toilet seat and \$436 for a hammer. Twenty years later things weren't much better. In 2004, Congress spent a record-breaking \$22.9 billion dollars of your money on 10,656 of their pork-barrel projects. The war on terror has a lot to do with the record \$413 billion in deficit spending, but it's also the result of pork over the last 18 years the likes of: - \$50 million for an indoor rain forest in Iowa - \$102 million to study screwworms which were long ago eradicated

from American soil - \$273,000 to combat goth culture in Missouri - \$2.2 million to renovate the North Pole (Lucky for Santa!) - \$50,000 for a tattoo removal program in California - \$1 million for ornamental fish research Funny in some instances and jaw-droppingly stupid and wasteful in others, The Pig Book proves one thing about Capitol Hill: pork is king!

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration.

Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

This is NOT your father's home repair book! And it's not your husband's, your brother's, your boyfriend's, or the guy's next door. Dare to Repair is a do-it-yourself book for every woman who would rather be self-reliant than rely on a super or contractor. No matter the depth of your pockets or the size of your home, a toilet will get clogged, a circuit breaker will trip, and a smoke detector will stop working. Dare to Repair demystifies these home repairs by providing information that other books leave out. In Dare to Repair, you'll learn how to: Take the plunge -- from fixing a leaky faucet to cleaning the gutters. Lighten up -- from removing a broken light bulb to installing a dimmer switch. Keep your cool -- from maintaining a refrigerator's gasket to changing the rotation of a ceiling fan. Get a handle on it -- from replacing a doorknob to repairing a broken window. Play it safe -- from planning a fire escape route to installing a smoke detector. Filled with detailed illustrations, Dare to Repair provides even the most repair-challenged woman with the ability to successfully fix things around the home. Once you start, you won't want to stop.

Operation Money

"From investing in education and affording a home to choosing the right credit products and adequately saving for retirement, Operation Money offers military-specific advice to achieving financial stability." --Michael E. O'Neill, Chairman, Citigroup Inc., First Lieutenant, U.S. Marine Corps, 1969-1971

When it comes to money, military service members and their families face financial challenges that civilians simply don't. While serving on active duty, members of the military are typically asked to move every few years and must learn how to manage money during multiple deployments. And managing the finances means figuring out a way to maintain a balanced budget while communication is limited. Meanwhile, the spouse at home is essentially functioning as a single parent without the necessary skills and tools to make serving as the family's Chief Financial Officer as easy as possible. That is, until now. Jean Chatzky, financial editor for NBC's Today show, is here to help with Operation Money, a mission-based guide that provides detailed resources to prevent money problems before they happen; gives you the tools to manage through a tough situation if you're already facing one; and empowers you to figure out how best to plan for your future—either in or out of the military—and then assists you in doing so. The chapters throughout focus on saving, debt, credit, buying and financing a home, buying and financing a car, paying for college, protecting the ones you love with insurance and an estate plan, dealing with a relocation, managing money through a deployment, handling a furlough,

retirement, divorce, and the financial aspects of caregiving. With contributions from Blue Star Families, MSCNN, and other military related organizations, Operation Money is a must-read for those who serve that are looking to take charge of their financial present and future. The enhanced edition includes video tips and advice from Jean Chatzky, as well as a bonus section featuring interviews with military spouses and veterans who share their personal financial stories with Jean. Operation Money is published and available free-of-charge thanks to the generous support of Citi. For more information on Citi's support for military veterans and their families, visit www.citisalutes.com.
