## The Earths in Our Solar System, which are Called Planets and the Earths in the Starry Heavens

The exciting conclusion of the Dark Space Universe Series  
DEATH IS THE ONLY WAY OUT  
Australis is

surrounded. The lost Etherian fleet has arrived with old friends at the helm, but the Faros are there, too, and they're demanding we give them the lost fleet, or else. Lucien Ortane is determined to fight, while everyone else fears defeat and wants to negotiate. The future of humanity and countless other species hangs in the balance, but they are badly outnumbered--a million to one. If war breaks out, the Faros will win, and trillions of people will be killed or enslaved. There is only one path to victory, but will Lucien have the courage to take it?

### **The Convoluted Universe: Book 1**

A gateway to another world. A lucky contest winner. An adventure across the cosmos! Dwayne "Glitch" Mitchell has always been obsessed with space. When he learns that NASA has discovered an alien gateway, he's the first to enter a contest to see the incredible phenomenon. Glitch wins and he travels deep within the Colorado Rockies to get a peek. He's in awe, but he's also in danger. As project head Dr. Zheng discusses the gateway, an armed man calling himself John Smith takes Zheng hostage and causes an explosion. When the rubble clears, Glitch is alive but trapped with Air Force Captain Scarlett Anderson on the other side of the gateway! Far from home on an alien world, Glitch and Anderson must find Zheng before the planet's inhabitants can eat, crush, drown, or execute them. Even if they can escape in one piece, will they still have a home to come back to? Glitch Mitchell and the Unseen Planet is a sci-fi adventure that features exotic alien worlds and fast-

paced suspense. If you liked the wild adventures of Flash Gordon, you'll love this thrill-ride throughout the universe! Buy Glitch Mitchell to follow a new hero's adventures through space today!

### **There Was a Black Hole that Swallowed the Universe**

Welcome to the Symmetrical Universe Spaceship and Steampunk coloring book! I hope you enjoy contemplating and coloring these complex images inspired by science fiction. I drew every image in this book with pen and ink on 14x17 paper. My drawings are all done by hand, using fine tipped Rapidograph pens. The way my process works is first I use a ruler and a compass to generate a pencil line grid. Once the grid is in place I then draw the designs in ink. The images are randomly generated and sometimes change significantly during the process of creating them. The drawings are created by drawing one symmetrical feature at a time, much like growing a crystal. These drawings are inspired by my interest in science fiction and machinery. My drawings are also expressions of the inherent beauty found in symmetrical structures. I began drawing mandalas while attending Indian Springs School in Helena, Alabama in the 1970s. My first mandala drawings began as simple experiments requiring a few hours to design. This eventually led to the more complex designs which required 80 to 100 hours to complete. Some drawings are abstract geometrical designs. In others, I have tried to incorporate archetypal symbols and shapes similar to Rorschach patterns

which may invoke a variety of conceptualizations to viewers of my artwork. In this book, each section includes an original drawing which may be too detailed to color. The following pages are all more detailed images of sections of each drawing for you to enjoy and color. If you are interested in coloring an original drawing in the original size, order a print from [www.symmetricaluniverse.com](http://www.symmetricaluniverse.com). To get the most out of this book, I recommend using colored pencils, fine-point markers, or gel pens. Before you color on one of the drawings, use the test page on the very last page of this book to test your coloring pencils, pens, and erasers. Check to see if your pencils or pens look nice on the paper and make sure they don't bleed through to the back. To see more of my drawings, visit my webpage at [www.symmetricaluniverse.com](http://www.symmetricaluniverse.com). You may order prints of any of my drawings in a variety of sizes. You may also order my other coloring book on mandalas and symmetrical designs. Sign up for my newsletter to get updates about new drawings, new coloring books, and a schedule of my art shows. Thank you for ordering this book. I hope you enjoy it!

### **Dark Space Universe**

In this brilliant exploration of our cosmic environment, the renowned particle physicist and New York Times bestselling author of *Warped Passages* and *Knocking on Heaven's Door* uses her research into dark matter to illuminate the startling connections between the furthest reaches of space and life here on Earth. Sixty-six million years ago, an object the size of a city descended from space to crash into Earth, creating a devastating cataclysm that killed off the dinosaurs, along with three-quarters of the other species on the planet. What was its origin? In *Dark Matter and the Dinosaurs*, Lisa Randall proposes it was a comet that was dislodged from its orbit as the Solar System passed through a disk of dark matter embedded in the Milky Way. In a sense, it might have been dark matter that killed the dinosaurs. Working through the background and consequences of this proposal, Randall shares with us the latest findings—established and speculative—regarding the nature and role of dark matter and the origin of the Universe, our galaxy, our Solar System, and life, along with the process by which scientists explore new concepts. In *Dark Matter and the Dinosaurs*, Randall tells a breathtaking story that weaves together the cosmos' history and our own, illuminating the deep

relationships that are critical to our world and the astonishing beauty inherent in the most familiar things.

### **The Rise of the Kingdom of Heaven, Volume 1 (Paperback)**

\* Is it possible that you are living in other universes simultaneously with this one? \* Do you travel back and forth between other dimensions without your conscious knowledge? \* Could it be possible that you are only a splinter or fragment of a much larger soul? \* Do parallel universes exist side-by-side with this one? \* Are you living all your past and future lives at the same time? \* What is the God Source? These questions and many more are explored in this long-awaited sequel to *The Custodians*. This information proceeded beyond abduction into complicated metaphysics, creating the need to explore more mind-expanding

might be even more disturbing than the dreams. Dreams which may hold the key to her survival in the hidden world of the Supernatural

### **Whitby After Dark**

### **Beyond the Universe - Volume 1 (Black and White)**

Human beings have always wanted to know what comes after death. Some people, who can voluntarily get out of their body, went to "the other side." The testimonies of these explorers of the Beyond revealed that there are countless Worlds on other vibratory planes, in other Dimensions, where live the souls of the deceased living beings! But the author of this book went even further and discovered that these countless Worlds are, in reality, countless planets belonging to other Cosmic Universes located in other Spaces and other Times, on other vibratory planes, in other Dimensions! The Beyond is not nebulous but Cosmic!!! The famous "Gate of Heaven" which allows the souls to pass into the Beyond is in reality a Vortex, a Tunnel of Light which crosses the Space and Time, a "StarGate" which leads the soul on another planet, in another world, in another Cosmic Universe, in another Space, in another Time, in another vibratory plane, in another Dimension!

### **Hubble Space Telescope Identifies Dark Energy**

The authoritative story of the headline-making discovery of gravitational waves—by an eminent theoretical astrophysicist and award-winning writer. From the author of *How the Universe Got Its Spots* and *A Madman Dreams of Turing Machines*, the epic story of the scientific campaign to record the soundtrack of our universe. Black holes are dark. That is their essence. When black holes collide, they will do so unilluminated. Yet the black hole collision is an event more powerful than any since the origin of the universe. The profusion of energy will emanate as waves in the shape of spacetime: gravitational waves. No telescope will ever record the event; instead, the only evidence would be the sound of spacetime ringing. In 1916, Einstein predicted the existence of gravitational waves, his top priority after he proposed his theory of curved spacetime. One century later, we are recording the first sounds from space, the soundtrack to accompany astronomy's silent movie. In *Black Hole Blues and Other Songs from Outer Space*, Janna Levin recounts the fascinating story of the obsessions, the aspirations, and the trials of the scientists who embarked on an arduous, fifty-year endeavor to capture these elusive waves. An experimental ambition that began as an amusing thought experiment, a mad idea, became the object of fixation for the original architects—Rai Weiss, Kip Thorne, and Ron Drever. Striving to make the ambition a reality, the original three gradually accumulated an international team of hundreds. As this book was written, two massive instruments of remarkably delicate sensitivity were brought to advanced capability. As the book draws to a close, five decades after the experimental ambition began,

the team races to intercept a wisp of a sound with two colossal machines, hoping to succeed in time for the centenary of Einstein's most radical idea. Janna Levin's absorbing account of the surprises, disappointments, achievements, and risks in this unfolding story offers a portrait of modern science that is unlike anything we've seen before. From the Hardcover edition.

### **Dark Space Universe (Book 3): the Last Stand**

In the 4th book of the Space Detective series, Skip Brown, the Chief of Police for the Crab Nebula sector, gets pulled into the sensitive negotiations on the planet Casey. Someone is trying to disrupt the negotiations between the Humanoid and Sinozian Snake Federations. As usual, Lt. Judy Hill, Skip's sidekick, gets pulled into the action in this intergalactic crime thriller.

### **And the Universe So Big**

HUMANITY IS DEFEATED Ten years ago the Sythians invaded the galaxy with one goal: to wipe out the human race. THEY ARE HIDING Now the survivors are hiding in the last human sector of the galaxy: Dark Space—once a place of exile for criminals, now the last refuge of mankind. THEY ARE ISOLATED The once galaxy-spanning Imperium of Star Systems is left guarding the gate which is the only way in or out of Dark Space—but not everyone is satisfied with their governance. AND THEY ARE KILLING EACH OTHER

Freelancer and ex-convict Ethan Ortane is on the run. He owes crime lord Alec Brondi 10,000 sols, and his ship is badly damaged. When Brondi catches up with him, he makes an offer Ethan can't refuse. Ethan must infiltrate and sabotage the Valiant, the Imperial Star Systems Fleet carrier which stands guarding the entrance of Dark Space, and then his debt will be cleared. While Ethan is still undecided about what he will do, he realizes that the Imperium has been lying and putting all of Dark Space at risk. Now Brondi's plan is starting to look like a necessary evil, but before Ethan can act on it, he discovers that the real plan was much more sinister than what he was told, and he will be lucky to escape the Valiant alive. . . .

### **Darklight Redemption**

From a sentient space ship lost in deep space to a man whose hatred of robots risks tearing his family apart, the characters in this collection of short stories will stay with you long after you've turned the last page. Discover the future face of human trafficking through the eyes of a little girl, follow an ancient tribe's shaman as he embarks on a journey to save his people, or share in an astronaut's final moments as an alien growth takes over his body; these are just some of the thrilling adventures packed into Infinite Science Fiction One. Infinite Science Fiction is intended to be a long-running series of anthologies. We aim to collect some of the best science fiction stories from all over the world. We will be back. #

## **Dark Space**

Two kids from the streets are adopted by the President of an MC. Bad guys are after them. Their Uncles step up to protect them. Meet the family and the Grandfather that founded the club. These kids are treated like royalty. The Royals of The Horsemen M.C.

## **Snare (The Waiting Dark Book 1)**

Brady Garrett needs to go home. He's a conscripted recruit on Defender Three, one of a network of stations designed to protect the Earth from alien attack. He's also angry, homesick, and afraid. If he doesn't get home he'll lose his family, but there's no way back except in a body bag. Cameron Rushton needs a heartbeat. Four years ago Cam was taken by the Faceless--the alien race that almost destroyed Earth. Now he's back, and when the doctors make a mess of getting him out of stasis, Brady becomes his temporary human pacemaker. Except they're sharing

more than a heartbeat: they're sharing thoughts, memories, and some very vivid dreams. Not that Brady's got time to worry about his growing attraction to another guy, especially the one guy in the universe who can read his mind. It doesn't mean anything. It's just biochemistry and electrical impulses. It doesn't change the truth: Brady's alone in the universe. Now the Faceless are coming and there's nothing anyone can do. You can't stop your nightmares. Cam says everyone will live, but Cam's probably a traitor and a liar like the military thinks. But that's okay. Guys like Brady don't expect happy endings.

## **Symmetrical Universe Adult Coloring Book #2**

Govert Schilling explores the mysteries of space that lie beyond our solar system on this mind-bending trip to nebulae, galaxies, black holes, and the edge of the observable universe. Join Govert Schilling on a journey across the universe that will ignite the imagination. The trip begins inside our own solar system with a brief tour of the sun, the planets and their moons, asteroids, comets, and dwarf planets. We then accelerate into deep space, traveling from our interstellar neighborhood, through our own galaxy, the Milky Way, to the far reaches of the cosmos. With Schilling as our guide, we explore the birth of stars and stellar nurseries, such as the Orion and Carina Nebulae; the death of stars, from red giants to catastrophic supernova explosions; and galaxies and galaxy clusters beyond our own including spiral galaxies, elliptical galaxies, and

lenticular galaxies. We learn about supermassive black holes, which astronomers now believe exist at the center of every galaxy including our own, and exoplanets, billions of which are believed to be orbiting stars in the Milky Way and beyond. The book concludes at the edge of the cosmological horizon with a look at dark matter, dark energy, and theories of extraterrestrial life and the Multiverse. Including hundreds of photographs and custom illustrations, as well as a star atlas that shows the full celestial sky, *Deep Space* is the perfect book for astronomy buffs, students, and anyone fascinated with the mystery and beauty of the cosmos.

### **The Space Beyond**

On Avilon not Even the Truth will Set You Free . . . The Real Enemy is Within Omnius has been hiding a lot from the people of Avilon. The war with the Sythians is not what we thought, but that raises the question: if not the Sythians, then what did Omnius go to fight in the Getties Cluster? Humanity is Being Held Prisoner Omnius knows what people will do before they do it. He predicts citizens' behavior, and some suspect, he even makes those predictions come true. For those who wish to be free of his influence, Avilon's lowermost city, the crime-ridden, shadow-filled Null Zone is the only option, but it is becoming increasingly apparent that not even the Nulls are free, and there is a more sinister reason behind The Choosing than the one Omnius gave. As Omnius's predictions begin to come true, Ethan Ortane realizes he could lose the one thing that matters most to him

in the universe--his family. There is a Rebellion Stirring Far from Aylon, the Sythians are hiding out in the neighboring Getties Cluster. Out there they discover something that wasn't supposed to exist: a group of human rebels that escaped from Aylon. Their leader, Therius, seems to raise more questions than he answers, but he has a plan to defeat Omnius that just might work. And the End is Drawing Near As Therius's plan unfolds, people realize the terrible truth: he can't win by conventional means, and he knows it. The alternative is called the Armageddon Protocol, but it could mean the end of everything, not just Omnius. . . .

### **Dark Space (Book 6): Armageddon**

A STANDALONE SEQUEL TO THE BEST-SELLING DARK SPACE SERIES THE UNIVERSE IS DARKER THAN WE THOUGHT Lucien Ortane is a Paragon in the Etherian Empire. His job is to explore the universe and spread Etherian doctrines of peace, justice, and immortality to sentient beings everywhere. Like all Paragons, and most citizens, Lucien believes that Etherus, the benevolent ruler of the Empire, is exactly who he claims to be: the one true God and creator of the universe. But not everyone is a believer. The Academy of Science circulates a petition to send a mission to the cosmic horizon and learn the true nature of the universe. Over a billion people sign it, and Etherus grants their request, but with a dire warning: evil is lurking in the dark. Undaunted by this warning, three hundred million scientists from the Academy prepare to leave the Empire on what will be

the longest and most incredible journey in history. A small group of Paragons also join the mission, each of them for their own reasons. Lucien Ortane tells himself that he's going in order to settle other people's doubts, and to keep a bunch of hapless scientists safe. After all, he's a Paragon, one of Etherus's most faithful servants. Yet even the faithful have doubts. Is the universe infinite? Does it have an edge? Is it shaped like a sphere, or connected like a torus? Did it need a creator, or does it cycle endlessly, god unto itself? These are the questions that the Academy is trying to answer, but the answers they get could be their undoing. God or not, Etherus was telling the truth about one thing: evil is lurking in the dark.

### **Deep Space**

In 1988, Alan Moore and Brian Bolland's *BATMAN: THE KILLING JOKE* offered a violent, literate, and controversial take on the Joker's origins and his relationship with Batman. Now, Dr. Julian Darius examines it in the context of the high-art ambitions of 1980s super-hero comics, exposing the narrative's ambiguities and secrets. From Sequart Organization. ## **Rogue Hunter**

New Adult Paranormal Romance \*\* Mature Content \*\*  
Recommended for ages 16+ due to sexual situations

and language This book includes realistic scenes of domestic violence that are not gratuitously graphic, but may be disturbing to sensitive readers. Hearts break. Souls shatter. Love lies in The Space Beyond. As members of the Phoenix, Jeric and Leni are thrust into their new lives, expected to lead Earth's Guardians. But Leni struggles with trusting her own soul, and Jeric is more concerned about keeping Leni safe than meeting others' demands. When Darkness swarms Lake Haven, they embark on their first mission with little preparation and no idea which soul the Dark hunts. Born and raised in Lake Haven, Bex hopes to escape her small-town life, ideally in the arms of her soul mate. She knows he exists, and her heart aches with the need to find him. When her long-lost mama calls to announce she's knockin' on death's door, Bex reluctantly makes the trip to see the uncaring bitch (bless her heart), only to be knocked off her feet by the sexy and charming Dr. Mason Hayes. Is he really The One? Leni's soul felt an instant connection to Bex, but if Bex found her soul mate, she isn't their mission. So who is, and why does Leni instinctively feel drawn to her? Can Leni even trust her intuition? And will Jeric step up and lead when the time comes or continue to hold them back? If they don't learn to trust themselves and each other quickly, Darkness will claim them all along with the rest of Earth's souls.

### **Lane Changes**

What if the one you call isn't the one who comes?  
When Fortune accepts a housesitting job in

brownstone Brooklyn, she becomes embroiled in the building's grisly history that ensnares the residents and lures back a serial killer with supernatural connections. Patsy, the apartment's owner, is keeping secrets. The apartment also has its own secrets that not even Patsy suspects, revolving around the ex-priest who lived there after a failed exorcism. Both Patsy and the former Father Guenther Ives have invited forces that are not what they think. Soon, Fortune is forced to confront both Father Ives and a larger, nonhuman evil.

### **Seven Secrets of the Universe**

2070 AD-The dire prophecies of the Kessler Syndrome have rendered Low Earth Orbit non-viable for conventional satellites. SpaceCorp has solved the problem with giant ring-shaped space stations that protect their payload instruments while housing a large human crew to affect the continuous repairs needed to keep the stations in orbit. But the people of SpaceCorp dream of one day living among the stars. This is the first of the Galactican Series where SpaceCorp moves from LEO to Cisluna. Future books will take them to Mars, the Main Belt Asteroids, the Trans Neptunian region, and eventually Alpha Centauri. Join them in their quest to develop new, realistic spacecraft capable of achieving half the speed of light. Join them in their quest to genetically alter themselves to become the first people capable of surviving the rigors of interstellar space-Homo galacticus.

## **Space!**

More than two and half thousand years after The Mothership crashed on Earth, mankind is nearing its goal of earning Galactic Citizenship. Sirius Kade, interstellar trader, smuggler and Earth Intelligence Service deep cover agent, learns that rich and powerful leaders from across human Mapped Space are gathering to bid for the right to acquire an alien device they believe is the key to untold riches, unaware they are being deceived. Sirius discovers the device is at the heart of an alien plot to lure mankind into violating the galaxy spanning Access Treaty and make humanity the pariah of the galaxy, ending Earth's access to interstellar space for millennia to come. In his ship, the Silver Lining, accompanied by an alien engineer and his young mercenary copilot, Sirius must face an interstellar conspiracy aimed at a fractious and splintered mankind, balance the love of a headstrong woman and unravel the mystery of The Antaran Codex.

## **Dark Matter**

Answers to science's most enduring questions from "Can I break the light-speed barrier like on Star Trek?" and "Is there life on other planets?" to "What is empty space made of?" This is an indispensable guide to physics that offers readers an overview of the most popular physics topics written in an accessible, irreverent, and engaging manner while still maintaining a tone of wry skepticism. Even the novice will be able to follow along, as the topics are

addressed using plain English and (almost) no equations. Veterans of popular physics will also find their nagging questions addressed, like whether the universe can expand faster than light, and for that matter, what the universe is expanding into anyway. Gives a one-stop tour of all the big questions that capture the public imagination including string theory, quantum mechanics, parallel universes, and the beginning of time Explains serious science in an entertaining, conversational, and easy-to-understand way Includes dozens of delightfully groan-worthy cartoons that explain everything from special relativity to Dark Matter Filled with fascinating information and insights, this book will both deepen and transform your understanding of the universe.

### **Dark Matter and the Dinosaurs**

I waited until the last two years of high school to take Spanish and am now one of only three seniors; Sam and Rob are the others. Every day we have to conjugate verbs and today, the teacher was in a rare mood. Amar: to love That's what I associated with Rob Holland, the newest student at Naylorville High who somehow has the power to make me blush, stammer and trip all at once. Molestar: to annoy That should be Sam Seeley's middle name. Since seventh grade he has annoyed me to the point where I should earn a gold medal for ignoring him. Matar: to kill This is what I want to do to the person putting black origami roses in my locker, writing hateful notes, rude emails and texts and throwing a rock at my bedroom window. Nadar: to swim My one talent. A college scholarship I

desperately need. Something I never thought I wouldn't be able to do until an "accident" cuts my swim season short. Aprender: to learn I have a lot to learn. About Rob and how emotionally stunted a person can be. About Sam and how his life isn't better than anyone else's. About how one friend's mental illness can have lasting effects. About love. About myself Lane Meyers.

The Sequel to the #1 Best-Selling Space Opera in the UK, Dark Space. New to the series? Get Dark Space 1 here for a special price: [goo.gl/tdPkU](http://goo.gl/tdPkU) THEIR SHIP IS DAMAGED Ethan Ortane has just met his long lost son, Atton, but the circumstances could have been better. After a devastating bio-attack and the ensuing battle, they've fled Dark Space aboard the Defiant to get away from the crime lord, Alec Brondi, who's just stolen the most powerful vessel left in the Imperial Fleet--the Valiant, a 5-kilometer-long gladiator-class carrier. THEY ARE LOW ON FUEL They need reinforcements to face Brondi, but beyond Dark Space the comm relays are all down, meaning that they must cross Sythian Space to contact the rest of the fleet. Making matters worse, they are low on fuel, so they can't jump straight there. They'll have to travel on the space lanes to save fuel, but the lanes are controlled by Sythians now, and they are fraught with entire fleets of cloaked alien ships. AND THERE IS NO WAY OUT With Brondi behind them, they can't go back, and they can't afford to leave the last human sector in the galaxy to the crime lords, so they must

cross through enemy territory in the Defiant, a damaged, badly undermanned cruiser with no cloaking device. Making matter worse, trouble is brewing aboard the cruiser, dropping their chances of survival from slim . . . to none.

### **The Kid's Book Club**

The Alplai have lived in peace and prosperity for centuries, spreading beyond their homeworld's single continent into floating cities on its vast oceans, and colonizing the planets and moons of their solar system. Now, a massive alien vessel has come, carrying over a million colonists in cryogenic stasis from a devastated world. Ganak, the recently appointed Commissioner for Space Exploration, advocates that the Terai be allowed to settle in the newly prepared Eastern Sector of the planet Totrana. The proposal is approved, and the avian-descended Alplai work with this strange mammalian species to help them build a new home. But not all the Alplai welcome these creatures. Many are concerned about their warlike past, and when a new disease erupts on Totrana, the aliens are quickly blamed. Despite their contributions, the Terai face discrimination and harassment. How far can Ganak use his influence to help, and what leaders will emerge amongst them as they strive to build a new life?

The Forerunners set out from Earth to colonize

neighboring star systems And to search for intelligent life The United Nations of Earth sent out the Forerunner ships to explore and colonize the four most promising star systems within 50 light-years of Earth. Forerunner One left Earth under the command of Captain Clayton Cross, heading for Trappist-1. After a ninety year journey to reach it, the crew encountered not only a habitable world, but alien life already inhabiting it, and dark secrets lurking beneath the surface. The revelation of who these aliens are and what they want proves more terrifying than promising, and Captain Cross is forced to make tough decisions that will affect not only his crew, but the fate of the entire human race.

Spark your child's imagination through science and learning with this captivating astronomy book for toddlers. When it comes to kids books about black holes nothing else can compare to this clever science parody from the #1 science author for kids, Chris Ferrie! PLUS, use a black light to reveal secret, invisible text and artwork that reverses the story from nothing to the scientific creation of everything! Using the familiar rhythm of "There Was an Old Lady Who Swallowed a Fly," follow along as the black hole swallows up the universe and everything that exists in it, from the biggest to the smallest pieces of matter. The silly, vibrant artwork is sure to make stargazers of all ages smile and start a love of science in your baby. There was a black hole that swallowed the universe. I don't know why it swallowed the universe—oh well, it

couldn't get worse. There was a black hole that swallowed a galaxy. It left quite a cavity after swallowing that galaxy. It swallowed the galaxies that filled universe. I don't know why it swallowed the universe—oh well, it couldn't get worse.

THEY WENT TO SLEEP ON EARTH, BUT WHERE DID THEY WAKE UP? Darius Drake is desperate to save his daughter, Cassandra. So desperate he's willing to risk their lives in Cryo-sleep to give her a future. But the dark, freezing vault where he wakes up is nothing like the luxurious Florida hospital he remembers. Everything about this place is alien to him, even the language. Little does he know how alien it really is. Darius and his daughter go exploring their new surroundings with a few others from the cryo pods, and they soon discover frozen, mutilated bodies everywhere. The dead are wearing strange uniforms, and they seem to have used some kind of energy weapons to defend themselves, but it wasn't enough. Adding to the mystery, all the doors of the facility have been ripped open, and there are claw marks around them--but what could shred through reinforced metal like paper? The answer to that question proves more terrifying than any of them could have guessed. There's a war raging, and they've woken up in the middle of it. Broken Worlds: The Awakening takes you on a tense thrill-ride through a frightening future with new mysteries and twists on every page. Fans of Star Wars and Battlestar Galactica will love this new series: a dark, gritty space

opera with unexpected twists, complex characters, and nightmarish antagonists.

### **Dark Space**

Twenty years ago, the first super-powered human made his presence known. Since then, there have been many more. The public at large calls these enhanced people Post-Humans. Finding your place in the world is tough; especially if your world is filled with pissed off superheroes who want to kick your ass. DarkLight is a conflicted supervillain preparing to leave the bad guy business behind. But the disappearance of Drake Weston - criminal mastermind and genius billionaire- results in DarkLight being enlisted for one final job. The search for Weston will take DarkLight on a tour of his own past sins and present strife. It will also bring him into the orbit of The Dominatrix - who's new to the supervillain game, and has an abundantly more carefree approach to playing it. Little do they know that their search for one man will lead them to discover a threat greater than they could imagine. If redemption is to be found for DarkLight, he's going to have to earn it. Even if it's the last thing he does.
