Sunset on Ramree

Unsealing the hatch of a rusty old WWII tank will unleash a demonic nightmare in this novel by “the master of modern horror” (Library Journal). Thirty-five years have passed since the Allied invasion of Normandy on D-Day turned the tide of World War II against Adolf Hitler and the Nazi Reich, and it’s been more than three decades since the residents of the tiny French village of Le Vey witnessed the horrific slaughter of hundreds of German soldiers by thirteen black tanks. One of the tanks remains on the outskirts of town—its hatch mysteriously sealed, trapping its controller inside—only to be discovered by American surveyor and cartographer Dan McCook. Driven by curiosity and an inexplicable compulsion, McCook is about to do the unthinkable and release what lives within the tank upon an unsuspecting world. And once the monstrous occupant reunites with others of its demonic kind, a new world war will begin, one that threatens to wash the earth in blood and drag every man, woman, and child through the fiery gates of hell. A chilling and ingeniously original tale of demonic possession and apocalyptic possibilities, *The Devils of D-Day* is classic horror at its best, from the award-winning author of *The Manitou*.

Journal of the Royal Horticultural Society

The epic fantasy that's taking the world by storm--a bewitching story about a revenge killing, a mysterious scroll box that has survived centuries of fires, and the book that changed everything "Majestic, brain-bending . . . Each time I thought the book was done surprising me, Knox . . . opened another gate and flung me through it." --Dan Kois, *Slate* Taryn Cornick believes that the past--her sister's violent death, and her own ill-conceived revenge--is behind her, and she can get on with her life. She has written a successful book about the things that threaten libraries: insects, damp, light, fire, carelessness and uncaring . . . but not all of the attention it brings her is good. A policeman, Jacob Berger, questions her about a cold case. Then there are questions about a fire in the library at her grandparents' house and an ancient scroll box known as the Firestarter, as well as threatening phone calls and a mysterious illness. Finally a shadowy young man named Shift appears, forcing Taryn and Jacob toward a reckoning felt in more than one world. *The Absolute Book* is epic, action-packed fantasy in which hidden treasures are recovered, wicked things resurface, birds can talk, and dead sisters are a living force. It is a book of journeys and returns, from contemporary England to Auckland, New Zealand; from a magical fairyland to Purgatory. Above all, it is a declaration of love for stories and the ways in which they shape our worlds and create gods out of morals.

The Century Dictionary and Cyclopedia

Thirteen-year-old Ava Bigtree has lived her entire life at Swamplandia!, her family's island home and gator-wrestling theme park in the Florida Everglades. But when illness fells Ava's mother, the park's indomitable headliner, the family is plunged into chaos; her father withdraws, her sister falls in love with a spooky character known as the Dredgeman, and her brilliant big brother, Kiwi, defects to a rival park called *The World of Darkness*. As Ava sets out on a mission through the magical

swamps to save them all, we are drawn into a lush and bravely imagined debut that takes us to the shimmering edge of reality.

Brunch and Other Obligations

Historian and Bram Stoker Award Nominee W. Scott Poole traces the confluence of military history, technology, and art that gave us modern horror films and literature. From Nosferatu to Frankenstein's monster, from Fritz Lang to James Whale, the touchstones of horror can all trace their roots to the bloodshed of the First World War. Bram Stoker Award nominee W. Scott Poole traces the confluence of military history, technology, and art in the wake of World War I to show how overwhelming carnage gave birth to a wholly new art form: modern horror films and literature. "Thoroughly engrossing cultural study . . . Poole persuasively argues that the birth of horror as a genre is rooted in the unprecedented destruction and carnage of WWI." —Publishers Weekly (starred review)

A Giant Problem

The Absolute Book

The Century Dictionary and Cyclopedia: The Century dictionary. 1889

Swamplandia!

From New York Times bestselling author Millie Marotta comes this gorgeous celebration of the animal kingdom. A Wild Child's Guide to Endangered Animals highlights the plight of 43 endangered species from around the world, including rare and well-known animals living in freshwater, oceans, forests, mountains, tundras, deserts, grasslands, and wetlands. Vivid illustrations bring caribous, axolotls, giraffes, agami herons, and many more to life on these rich and varied pages. Illuminating text relays the story of each species, from how they live and why they are endangered to what is being done about it. Complete with a map detailing where each species can still be found, this visually rich, timely, informative book raises awareness in the most spectacular way.

Wasteland

Robert E. Howard is the creator of Conan the Barbarian, one of the most unforgettable fantasy characters of all time. In this novel, one of the last of the Conan tales to be published before the author's untimely demise, Conan's reign as king of Aquilonia is threatened by a group that is plotting to depose him with the help of an ancient wizard who has been resurrected through dark magic.

The Dragon and the Unicorn

This book explores conditions, events, problems and trends of the Asian region and its individual nations. Using a cross disciplinary approach, the author discusses evolving physical and cultural landscapes. Nature-society relations will provide the foundation for social, economic, political and environmental problems. Updated edition includes two new interludes on China and Japan.

Illustrations of the Holy Scriptures

Talk about out of the frying pan, into the fire! I was pretty sure that my freaky stepsister and that freaky field guide of hers would ruin my life. But now it looks like they're going to ruin all of Florida, too! Okay, maybe that's not fair. Maybe all these stupid giants would be waking up anyway, but if it wasn't for her and that book, I'd be home playing video games and this would be someone else's giant problem!

A Wild Child's Guide to Endangered Animals

WINNER OF THE 2017 NASW SCIENCE IN SOCIETY JOURNALISM AWARD A FINALIST FOR THE 2017 PEN/E. O. WILSON LITERARY SCIENCE WRITING AWARD LONGLISTED FOR THE ANDREW CARNEGIE MEDAL FOR EXCELLENCE A LIBRARY JOURNAL BEST SCIENCE BOOK OF THE YEAR “[A] curiously edifying book.” —The New York Times Book Review “With the taut suspense of a spy novel, Voigt paints a vivid world of murder, black market deals, and habitat destruction surrounding a fish that's considered, ironically, to be a good-luck charm.” —Discover “[An] immensely satisfying story, full of surprises and suspense. Things get weird fast.” —The Wall Street Journal An intrepid journalist's quest to find a wild Asian arowana—the world's most expensive aquarium fish—takes her on a global tour in this “engaging tale of obsession and perseverance...and an enthralling look at the intersection of science, commercialism, and conservationism” (Publishers Weekly, starred review). A young man is murdered for his pet fish. An Asian tycoon buys a single specimen for \$150,000. Meanwhile, a pet detective chases smugglers through the streets of New York. With “the taut suspense of a spy novel” (Discover) *The Dragon Behind the Glass* tells the story of a fish like none other. Treasured as a status symbol believed to bring good luck, the Asian arowana, or “dragon fish,” is a dramatic example of a modern paradox: the mass-produced endangered species. While hundreds of thousands are bred in captivity, the wild fish has become a near-mythical creature. From the South Bronx to Borneo and beyond, journalist Emily Voigt follows the trail of the arowana to learn its fate in nature. “A fresh, lively look at an obsessive desire to own a piece of the wild” (Kirkus Reviews), *The Dragon Behind the Glass* traces our fascination with aquarium fish back to the era of exploration when naturalists stood on the cutting edge of modern science. In an

age when freshwater fish now comprise one of the most rapidly vanishing groups of animals, Voigt unearths a surprising truth behind the arowana's rise to fame—one that calls into question how we protect the world's rarest species. "Not since Candace Millard published *The River of Doubt* has the world of the Amazon, Borneo, Myanmar, and other exotic locations been so colorfully portrayed as it is now in Emily Voigt's *The Dragon Behind the Glass*...a must-read" (Library Journal, starred review).

Black Literature Criticism

Burning Sky

Life of Pi is a masterful and utterly original novel that is at once the story of a young castaway who faces immeasurable hardships on the high seas, and a meditation on religion, faith, art and life that is as witty as it is profound. Using the threads of all of our best stories, Yann Martel has woven a glorious spiritual adventure that makes us question what it means to be alive, and to believe.

The Dragon and the Unicorn

The Century Dictionary and Cyclopedia: The Century dictionary prepared under the superintendence of W. D. Whitney

For as long as there have been humans, trees have been central to our existence. They provide us with vital ingredients for life--food, medicine, materials, even the oxygen we breathe. Ecologically they are crucial in controlling pollution and moderating climate, and culturally they are at the center of our religion, folklore, and art. It has also been shown that, as well as greening our lives, they can improve our health and mental well-being. Remarkable Trees tells the unique story of more than sixty species, each selected for their resonance and connection with humankind. In portraits that combine vivid cultural and historical narrative with a firm scientific grounding, Christina Harrison and Tony Kirkham reveal fascinating details of trees from around the world's major zones and ecologies. Some are obvious superstars, like oaks, redwoods, and apple trees, while others are more surprising varieties: We learn of the monkey puzzle, a tree native to Chile that "can grow for 1,000 years," and of the manchineel, a tree that contains sap so toxic to human skin that it's a risk to stand beneath it on a rainy day. In these pages are trees that are healers and killers, trees that serve as foundations of great buildings and grand feasts, and trees that leave us feeling wondrous and worried for their survival. In a tribute to the artists and botanists who have been inspired by trees for centuries, this book is filled with more than two hundred delightful illustrations. The varied and beautiful range of images come from the unrivalled archive at England's Royal Botanic Gardens, Kew, and they bring this enlightening and enchanting volume to life. While trees have supported us for millennia, we have recently lost that direct, deep connection with them. Harrison and Kirkham remind us that we do not have to look far to reestablish that relationship. The stories revealed in Remarkable Trees remind us of why we should take the time to appreciate and care for these quiet giants that will forever be an intimate part of our culture, our past, and our future.

The Hour of the Dragon

In a Tirio village deep in the heart of the Amazon rain forest, the shaman Nahtahlah has a place of honor in his tribe. Young Kamanya wants to learn the healing secrets of the forest plants--he hopes that he, too, will become the tribe's shaman, so that he can cure his people. When the villagers fall sick with an illness

that Nahtahlah cannot cure, many lose faith in the shaman's wisdom--until a foreign woman helps them understand its value while giving Kamanya an opportunity to realize his dream. Lynne Cherry returns to the rain forest with ethnobotanist Mark J. Plotkin to tell an important story about the healing plants of the earth--and why we must protect them.

The Devils of D-Day

The Century Dictionary

At the end of World War II, the 28th Japanese Army is garrisoned on Ramree Island off the coast of Burma.

The Century Dictionary and Cyclopaedia: The Century dictionary, prepared under the superintendence of William Dwight Whitney; rev. & enl. under the superintendence of Benjamin E. Smith

Tucked between the mainland of southwest Florida and the islands of Sanibel and Captiva is a 17-mile-long island accessible by a single drawbridge. A haven for some and a home to others, the community of Pine Island is a rare and lingering remnant of old Florida. The island's shores are home to mangroves teeming with fish instead of crowded beaches, making it a major destination for sport fishing enthusiasts and providing a livelihood for the independent commercial fishing families of the island. The genuine personalities and untouched splendor of Pine Island have attracted numerous artists to the area in recent years, with many praising Pine Island as the new Key West. Strolling the lazy street to Bokeelia's famous fishing pier, or exploring an active Calusa Indian archeological site in Pineland, the crowds and tourist-related glitz common to most of Florida's islands are nowhere to be found, leaving visitors to discover Pine Island's unspoiled beauty at their own pace.

Dragons and Tigers

The many different animals that live in a great kapok tree in the Brazilian rainforest try to convince a man with an ax of the importance of not cutting down their home.

This contains critical excerpts on some 125 internationally-prominent black authors of the 18th, 19th, and 20th centuries.

The Dragon Behind the Glass

“Poignant, funny, and smart, *Brunch and Other Obligations* is a must-have for contemporary women's fiction shelves. Readers will want to watch for what Nugent does next.” —Booklist “A thoroughly upbeat and fully entertaining novel from cover to cover.” —Midwest Book Review “*Brunch and Other Obligations* is women’s fiction at its finest! A tender, witty, heartfelt novel that had me laughing out loud in one chapter and reaching for tissues in the next. With humor, heart, and hope, Nugent reminds us that, once in a lifetime, if we’re very, very lucky, we just might find a friend who knows us better than we know ourselves.” —Lori Nelson Spielman, New York Times best-selling author of *The Life List* The only thing reclusive bookworm Nora, high-powered attorney Christina, and supermom-in-training Leanne ever had in common was their best friend, Molly. When Molly dies, she leaves mysterious gifts and cryptic notes for each of her grieving best friends, along with one final request: that these three mismatched frenemies have brunch together every month for a year. Filled with heartwrenching scenes and witty prose, *Brunch and Other Obligations* explores the intricate dynamics of girlhood acquaintances who are forced to reconnect as women. This upbeat novel reminds readers that there’s hope for getting through the hard times in life—with a lot of patience, humor, and a standing brunch date.

Pine Island

The Great Kapok Tree

An environmental history of the Nashua River, from its discovery by Indians through the polluting years of the Industrial Revolution to the ambitious clean-up that revitalized it.
