Town Meeting

When the PRI fell from power in the elections of 2000, scholars looked for an explanation. Some focused on international pressures, while others pointed to

recent electoral reforms. In contrast, Dolores Trevizo argues that a more complete explanation takes much earlier democratizing changes in civil society into account. Her book explores how largely rural protest movements laid the groundwork for liberalization of the electoral arena and the consolidation of support for two opposition parties, the PAN on the right and the PRD on the left, that eventually mounted a serious challenge to the PRI. She shows how youth radicalized by the 1968 showdown between the state and students in Mexico City joined forces with peasant militants in nonviolent rural protest to help bring about needed reform in the political system. In response to this political effervescence in the countryside, agribusinessmen organized in peak associations that functioned like a radical social movement. Their countermovement formulated the ideology of neoliberalism, and they were ultimately successful in mobilizing support for the PAN. Together, social movements and the opposition parties nurtured by them contributed to Mexico's transformation from a one-party state into a real electoral democracy nearly a hundred years after the Revolution.

Political science quarterly

With its fiery crosses and nightriders in pointed hoods and flowing robes, the Ku Klux Klan remains a recurring nightmare in American life. What began in the earliest post-Civil War days as a social group engaging in drunken hijinks at the expense of perceived inferiors soon turned into a murderous paramilitary organization determined to resist the “evils” of radical Reconstruction. For six generations and counting, the Klan has inflicted misery and death on countless victims nationwide and since the early 1920s, has expanded into distant corners of the globe. From the Klan’s post-Civil War lynchings in support of Jim Crow laws, to its bloody stand against desegregation during the 1960s, to its continued violence in the militia movement at the turn of the 21st century, this revealing volume chronicles the complete history of the world’s oldest surviving terrorist organization from 1866 to the present. The story is told without embellishment

because, as this work demonstrates, the truth about the Ku Klux Klan is grim enough.

Communication in Latin America

Mexico Newspak

How has mass communication evolved in Latin America? How has the political climate in that region shaped the role of the mass media? What are the special challenges facing this turbulent area? In *Communication in Latin America*, Richard Cole has assembled a selection of articles that explores these issues, with a special emphasis on journalism, given the traditional strength of the press in Latin America. The twelve essays written exclusively for this publication - examine either an aspect of the mass media in the region or the media in a particular country during a number of stages of its political development. *Communication in Latin America* opens with an overview of the state of mass communication in the entire region. Articles in the first part of the volume focus on topics such as the changing role of women in the media and the usefulness of propaganda in effecting political change. Essays in the second section discuss situations in individual countries, including freedom of the press in Mexico and Chile and the Argentine media's struggle to define their role under the new democratic government. Professor Cole concludes with a forecast of the future of mass communication in Latin America.

News Dictionary 1976

For over a century, deportation and exclusion have defined eligibility for citizenship in the United States and, in turn, have shaped what it means to be American. In this broad analysis of policy from 1882 to present, Deirdre Moloney places current debates about immigration issues in historical context. Focusing on several ethnic

groups, Moloney closely examines how gender and race led to differences in the implementation of U.S. immigration policy as well as how poverty, sexuality, health, and ideologies were regulated at the borders. Emphasizing the perspectives of immigrants and their advocates, Moloney weaves in details from case files that illustrate the impact policy decisions had on individual lives. She explores the role of immigration policy in diplomatic relations between the U.S. and other nations, and shows how federal, state, and local agencies had often conflicting priorities and approaches to immigration control. Throughout, Moloney traces the ways that these policy debates contributed to a modern understanding of citizenship and human rights in the twentieth century and even today.

Rural Protest and the Making of Democracy in Mexico, 1968-2000

Vicente Lombardo Toledano is an outstanding figure in the Mexican Revolution that began in 1910 and in whose name Mexico has been governed ever since. This book stresses his intellectual development and the content of his mature thought. Lombardo has played a major role in Mexican politics, the labor movement, and

intellectual life during the past four decades. This book provides a better understanding of the man. Originally published in 1966. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value.

Text and Talk as Social Practice

This book provides an overview of the big communications problems of the world with an emphasis on the international press. The authors discuss global journalism and mass communication by the regions of the world and by special topics related to each region.

Mexican Painters

The national newspaper about all of Latin America.

Global Journalism

Investigation of Mexican Affairs

This book presents a new explanation of the rise, development and demise of social movements and cycles of protest in autocracies; the conditions under which protest becomes rebellion; and the impact of protest and rebellion on democratization. Focusing on poor indigenous villages in Mexico's authoritarian regime, the book shows that the spread of US Protestant missionaries and the competition for indigenous souls motivated the Catholic Church to become a major promoter of indigenous movements for land redistribution and indigenous rights. The book explains why the outbreak of local rebellions, the transformation of indigenous claims for land into demands for ethnic autonomy and self-determination, and the threat of a generalized social uprising motivated national elites to democratize. Drawing on an original dataset of indigenous collective action and on extensive fieldwork, the empirical analysis of the book combines quantitative evidence with case studies and life histories.

National Insecurities

Mexican Governance is a comprehensive look at the evolution of the transition from single-party rule to divided government in Mexico.

Mexican Marxist, Vicente Lombardo Toledano

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Parody, the Avant-garde, and the Poetics of Subversion in Oliverio Gironde

Mexican News Synopsis

Mexican Governance

Oliverio Gironde is a leading figure of the Spanish American avant-garde. *Parody, the Avant-Garde, and the Poetics of Subversion in Oliverio Gironde* examines the presence and function of parody in Gironde's early poetry and drawings. It illustrates how, through the subversion of both conventional and vanguard poetics, these texts discredit the values imposed upon artistic production by institutionalized models and social codes. This book assesses the extent to which Gironde followed the theories outlined in his critical writings and considers how his works fit into the general trajectory of the historical avant-garde and contemporary Spanish American literature.

Razones, Mexican Spanish-language Newspapers and Weekly Magazine

Peter Dale Scott has written extensively on the Kennedy assassination and other dark corners of the American political scene. His encyclopedic knowledge enables him to connect the dots among the players, the organizations, and the unacknowledged collusions—the deep politics— of our often troubled political system. *Deep Politics on Oswald, Mexico, and Cuba*, originally published in 1995, narrows the focus of Scott's earlier *Deep Politics* and *The Death of JFK*. Scott delivers the most detailed treatment yet of the mysterious sojourn of Lee Harvey Oswald (or someone using his name) to Mexico City in the fall of 1963. Was this trip a key aspect of the framing of Oswald, was it an approved intelligence operation, or was it perhaps both? It is now known that allegations of Communist conspiracy in the wake of the JFK assassination, emanating mostly from Mexico City, caused Lyndon Johnson to put together a “blue ribbon commission” to investigate what happened in Dallas. Scott explains through meticulous research and analysis exactly why LBJ would want the Warren Commission to rush to a conclusion, and the far-reaching political ramifications of the commission's public findings. Scott's analysis suggests the evidence from Mexico City was part of a frame-up, making *Deep Politics on Oswald, Mexico, and Cuba* an essential piece of research and analysis, shedding new light on the Communist conspiracy

allegations behind the JFK assassination.
