The High Fat Diet

"Pulls you into the depths of a secret world from the first page. Ian Smith's novel is unmissable." —Harlan Coben, author of Missing You Spencer Collins thinks his life at Harvard will be all about basketball and pre-med; hard workouts and grinding work in class. The friends he's made when he hits the storied ivy-clad campus from a very different life in urban Chicago are a happy bonus. But Spencer is about to be introduced to the most mysterious inner sanctum of the inner sanctum: to his surprise, he's in the running to be "punched" for one of Harvard's elite final clubs. The Delphic Club is known as "the Gas" for its crest of three gas-lit flames, and as Spencer is considered for membership, he's plunged not only into the secret world of male privilege that the Gas represents, but also into a century-old club mystery. Because at the heart of the

Delphic, secured deep inside its guarded mansion club, is another secret society: a shadowy group of powerful men known as The Ancient Nine. Who are The Ancient Nine? And why is Spencer—along with his best friend Dalton Winthrop—summoned to the deathbed of Dalton's uncle just as Spencer is being punched for the club? What does the lore about a missing page from one of Harvard's most historic books mean? And how does it connect to religion, murder, and to the King James Bible, if not to King James himself? The Ancient Nine is both a coming of age novel and a swiftly plotted story that lets readers into the ultimate of closed worlds with all of its dark historical secrets and unyielding power.

The Shred Power Cleanse

The Hilton Head Metabolism Diet

The potato hack was modeled after an 1849 diet plan for people that were becoming fat and "dyspeptic" from living too luxuriously. This potato diet simply called for one to eat nothing but potatoes for a few days at a time, promising that fat men become as "lean as they ought to be." One hundred and sixty-seven years later, we are fatter and sicker than ever, but the potato diet still works. Potatoes contains natural drug-like agents that affect inflammation, hunger, insulin, sleep, dreams, mood, and body weight. The potato is the best diet pill ever invented. The potato hack is a short-term intervention (3-5 days) where one eats nothing but potatoes. This short mono-food experiment will strengthen your immune system and provide you with all of the nutrition you need to remain energetic, sleep great, and, as a side-effect, lose weight. The potato hack will help you develop a new relationship with food, hunger, taste, and yourself. The potato hack is not just for the overweight. As noted in 1849, anyone with digestive complaints who follows an all-potato diet for a few days at a time will find their digestion improves greatly. Modern science shows that simple diets high in fiber create an intestinal microbiome that is highly diverse and stable. This diversity and stability is lacking in most people and leads to digestive complaints like Gastroesophageal reflux disease (GERD), Irritable bowel syndrome (IBS), Inflammatory bowel disease (IBD), and Small intestinal bacterial overgrowths (SIBO). The "modern dyspeptic gut" affects millions of people and costs billions of dollars

annually. The answer might be as simple as 3-5 days of potatoes. You don't need this book to do the potato hack. Just eat potatoes until full every day for 3-5 days. It really is that simple! This book explains the science behind the potato hack, some variations on the basic hack, recipes, and what to do if it does not work as advertised. Also found in The Potato Hack is a comprehensive review of resistant starch, gut health, potato history, and a growing guide for those that want to grow their own. Most of the photography throughout the book was done by award-winning photographer, Ann Overhulse. The artfully photographed potatoes found on the cover and on 30 pages within are well worth the full price of the book. Guaranteed that after reading The Potato Hack, you will never look at potatoes the same.

It's a fact: the low-carb craze is everywhere. Another fact: two-thirds of Americans are still overweight and no one is getting thinner. Although low-carb diets produce short term weight loss, the results are not sustainable in the long term. Dieticians, fitness experts, and medical publications are slowly awakening to the fact that the low-carb diet isn't the answer to weight loss nor a solution to the obesity epidemic. What is the solution? Jorge Cruise's THE 3-HOUR DIET reveals that timing is the revolutionary weight loss element that has been kept secret until now. By eating small, balanced meals every three hours you reset your body's metabolism and achieve amazing results. Eating every three hours turns off your "starvation protection mechanism" ensuring that fat is released and fat-burning muscle preserved. So get ready to lose 2 pounds each week! All with no calorie counting, no starvation, and no deprivation. Bottom line, timing will sculpt your body slim. With his now trademark easy-to-follow instructions, accessibility, and client success stories, Jorge Cruise's THE 3-HOUR DIET is a fluid combination of proven success and categorical innovation. Weight loss has never been easier!

EAT

New York Times bestseller From the New York Times bestselling author of SHRED and Blast the Sugar Out, the ultimate guide to clean eating! What is clean eating? In his newest diet book, Dr. Ian K. Smith teaches readers the benefits of clean eating and how to implement it in their own lives. He tells readers how to easily reduce unhealthy processed foods in their diets, a key to weight loss, disease prevention, and overall health. The Clean 20 focuses on twenty clean foods--from avocado to whole wheat pasta and everything in between--that readers can easily find, prepare, and incorporate into their diets. The Clean 20 includes a complete clean eating program with a daily meal plan, 60 recipes and substitutions, as well as 20 minute easy-to-work-in workouts. Dr. Ian knows what works: it's not eliminating food groups, but choosing foods within each group wisely to satisfy the palate and the body's nutritional demands. The Clean 20 isn't just vegetables. Grains are in. And so is fruit, fat, meat and fish. When palate and nutrition are in sync, weight loss not only follows, it sticks. The Clean 20 is a life and body changer.
