The Physics GRE plays a significant role in deciding admissions to nearly all US physics Ph.D. programs, yet few exam-prep books focus on the test's actual content and unique structure. Recognized as one of the best student resources available, this tailored guide has been thoroughly updated for the current Physics GRE. It contains carefully selected review material matched to all of the topics covered, as well as tips and tricks to help solve problems under time pressure. It features three full-length practice exams, revised to accurately reflect the difficulty of the current test, with fully worked solutions so that students can simulate taking the test, review their preparedness, and identify areas in which further study is needed. Written by working physicists who took the Physics GRE for their own graduate admissions to the Massachusetts Institute of Technology, this self-contained reference guide will help students achieve their best score.

## Conquering the Physics GRE

" is a four-skills course designed to build both fluency and accuracy in tertiary students enrolled in science and engineering programs."--Page 4 of cover.

While Morganville, Texas, is often a troubled town, Claire Danvers and her friends are looking forward to coming home. But the Morganville they return to isn't the one they know; it's become a different place—a deadly one… Something drastic has happened in Morganville while Claire and her friends were away. The town looks cleaner and happier than they've ever seen it before, but when their incoming group is arrested and separated—vampires from humans—they realize that the changes definitely aren't for the better. It seems that an organization called the Daylight Foundation has offered the population of Morganville something they've never had: hope of a vampire-free future. And while it sounds like salvation—even for the vampires themselves—the truth is far more sinister and deadly. Now, Claire, Shane and Eve need to find a way to break their friends out of Daylighter custody, before the vampires of Morganville meet their untimely end… Includes a teaser from Prince of Shadows: A Novel of Romeo and Juliet!

## MKTG 4

Do you believe in the power of dreams? Way down south on Marigny Street in the heart of New Orleans, the land of Catholic intercessions, purgatory, and supernatural superstitions, young Evangeline Chenier dreams of a radiant boy who saves her from a storm. She takes the dream seriously - in her family, dreams are sometimes more than dreams. Sometimes they foretell the future. Sometimes they create it. Years later, Eva is no longer the same wistful girl but a hardened woman who no longer believes in dreams. Losing faith in her gift, she becomes lost in a nightmare of emotion, mourning her son, separating from her husband, and stewing in a dead-end job. And then fate brings her an unlikely surprise: one of the most famous movie stars in the world, Gabriel Roberts. Caught by something in his eyes, Eva agrees to show him the real Big Easy on his last night in New Orleans-an evening that turns into four dreamy days spent recapturing lost faith and discovering a love neither expected. Realizing Gabriel is the boy from her childhood dream, Eva must leave everything behind-her husband, her family, her history, and the beautiful city she calls home-and gamble it all for the dream that has saved her on MARIGNY STREET.
