The Philippine Review of Economics

This survey gives an indication of how best to address the teaching of economics and personal finance in our nation. It must be state-by-state, because that is where curriculum decisions are made. The federal government must encourage states to place economic and personal finance education not only into state standards, but into the core curriculum. This report looks at the national picture and sees where we are succeeding and where we need more attention. Tables and maps.

Information on the educational systems of Israel and the Occupied Territories (West Bank and the Gaza Strip) and guidelines on placing students from this region in U.S. high schools and colleges are presented. After describing the country and territories, attention is directed to preschool, primary, and intermediate education; secondary education; teacher training and the education profession; nursing and other health professions; overseas student programs in Israel; technological education; higher education; and the United Nations Relief and Works Agency for Palestine Refugees in the Near East. Profiles of technical and higher education institutions in Israel and the Occupied Territories cover degrees/diplomas, admission requirements, college programs, and school characteristics. General information on Israeli higher education includes: college organization and administration, the grading and credit systems, examinations, and degree programs. Guidelines for admissions officers focus on the admissibility and appropriate level of placement of students from Israel and the territories in U.S. schools. A glossary and list of postsecondary technological/vocational schools are appended. (SW)
