Messiah Continuo Part

At long last, a definitive edition providing an authentic and fresh perspective on this time-honored oratorio. Since the page layout remains identical to the old Schirmer/Spicker edition, you can now replace worn copies with this new publication that has been entirely reedited. Based on Handel's autograph and conducting scores, Van Camp corrected over 100 notational and textual errors which appeared in the Spicker edition and also provided fine keyboard accs comfortably under the fingers with the original bass line fully restored. Singers will rejoice now that the music pages are no longer cluttered with editorial footnotes and annotations. Instead, endnotes are used to provide comprehensive and practical information. Other features included the addition of text sources, breath marks, measure numbers, timings, rehearsal and performance suggestions, and much more. The pagination and layout of the vocal score match the old Spicker edition, so you can use the two of them together without confusion.

(Piano Method). The great Baroque master composer Johann Sebastian Bach (1685-1750) wrote music for every combination of instruments and voices. His simplest and purest work are four-part chorale compositions and settings, so perfectly constructed that they evoke meditative spirituality. "Figured bass" was a Baroque system of notating harmony. In addition 371 chorales, this collection includes 69 melodies with figured bass. This classic Schirmer edition, edited by Albert Riemenschneider, has sold over 1,000,000 copies since its release in the early 20th century. Primarily for keyboard, the chorales can also be played by other instruments.
