Sociology: A Down to Earth Approach

"Kimmel has made a career out of being what you might call a man-translator."-The Atlantic The white American male voter is alive and well--and angry as hell. Sociologist Michael Kimmel, one of the leading writers on men and masculinity, has spent hundreds of hours in the company of America's angry white men--from white supremacists to men's rights activists to young students--in pursuit of a comprehensive diagnosis of their fears, anxieties, and rage. Kimmel locates this increase in anger in the seismic economic, social, and political shifts that have transformed the American landscape: Downward mobility, increased racial and gender equality, and tenaciously clinging to an anachronistic ideology of masculinity has left many men feeling betrayed and bewildered. Raised to expect unparalleled social and economic privilege, white men are suffering today from what Kimmel calls "aggrieved entitlement": a sense that those benefits that white men believed were their due have been snatched away from them. The election of Donald Trump proved that angry white men can still change the course of history. Here, Kimmel argues that we must consider the rage of this "forgotten" group and create solutions that address the concerns of all Americans.

The fourteenth edition's exceptional new readings include selections on the role of sympathy in everyday life, mistaken perceptions of the American family, the effects of a criminal record on getting a job, and the major social trends affecting our future. Together with these essential new articles, the selections by Peter Berger, Herbert Gans, Erving Goffman, Donna Eder, Zella Luria, C. Wright Mills, Deborah Tannen, Barrie Thorne, Sidney Katz, Philip Zimbardo, and many others provide firsthand reporting that gives students a sense of "being there." Henslin also explains basic methods of social research, providing insight into how sociologists explore the social world. The selections in Down to Earth Sociology highlight the most significant themes of contemporary sociology, ranging from the sociology of gender, power, politics, and religion to the contemporary crises of racial tension, crime, rape, poverty, and homelessness.
