A revolutionary process based on the four chambers of the heart and rooted in Toltec wisdom that brings emotional clarity, healing, and freedom The Warrior Heart Practice is a powerful new method to reconnect with our sense of authenticity and inner-knowing and realign with our true nature. Author of the bestselling book Warrior Goddess Training, HeatherAsh Amara has trained extensively in the Toltec tradition under the tutelage of don Miguel Ruiz, author of The Four Agreements. The Warrior Heart Practice is a revolutionary system based on the four chambered structure of the human heart. Walking through each of the four chambers—Feeling, Story, Truth, and Intent—readers learn to take stock of their current emotional and mental state and reframe their situation in a new healing light. The process begins in the Feeling chamber as readers accept the emotions they are currently experiencing without fighting or

judging them. It then continues into the next chamber as readers witness the Story that they are telling themselves. In the Truth chamber, they learn to thoughtfully and objectively evaluate the reality of the situation. In the final chamber, they learn to define and focus their Intent. The last phase of the practice is the most profound—taking the knowledge they have gathered from the four chambers, readers then walk backwards through each of the four chambers, refocusing their Intent, Truth, Story, and Feelings based on what they've learned during the process. The Warrior Heart Practice leads to deep insights as readers learn to step outside of their preconceptions to realign with their true purposes and goals.

What is the relationship between democracy and technology? And what should that relationship be? This book explores these questions, drawing upon a wide range of philosophical, historical and sociological

points of view. In stark contrast to technology's promise as a wellspring of equality, freedom and self-government, its development now poses a host of problems for political society: an alarming concentration of power over global production, a widening gap between rich and poor, multiple environmental crises, trivialization of politics in the mass media, decline of citizen competence in decision making, and the disproportionate influence of scientific and technical elites. As the writers discuss these issues, they investigate new avenues for democratic politics, possibilities that emerge as modernist ideas about progress, justice and the common good lose their ability to guide contemporary thought and action. This book will be of interest to philosophers, political scientists, those doing research on technology and society, engineers studying human factors, environmental scientists, sociologists.

Most people have prayed for something or someone in earnest, seeking God's will, only to be left confused by God's response. Sometimes we ask, "Why would a good God allow bad things to happen to good people?" In *Amazed and Confused*, Heather Zempel tackles this question head-on by exploring the book of Habakkuk. When the prophet Habakkuk prayed that God would bring change to the backsliding nation of Israel, this issue came to the forefront. Habakkuk begged God for revival and that He would turn the hearts of faithless people back to Him. God's answer to Habakkuk was, "Take a look at the nations and

watch what happens! You will be shocked and amazed” (1:5, The Voice). The vision God gave Habakkuk was one of warfare and exile. How do you respond when God answers your prayers in a way that seems out of line with his character and promises? Amazed and Confused proceeds systematically through the book of Habakkuk, exploring the prophet’s prayer, God’s response, and the prophet’s journey from confusion to worship. This interactive Bible study is the perfect choice for those who are hurting and confused about God’s responses to their prayers. Features include: Helpful guidance on a question without an easy answer Practical tools for studying the Minor Prophets Easy-to-understand, accessible language

The ultimate insider's guide to Los Angeles Features interesting and unusual places not found in traditional travel guides 'In Los Angeles, everyone is a star.' - Denzel Washington For more than a century, seekers of sun and celebrity from around the world have flocked to this sprawling metropolis on the Pacific, which Dorothy Parker once described as '72 suburbs in search of a city.' But beyond the red-carpet reputation and Tinseltown trappings is a west coast wonderland teeming with unexpected cultural experiences, iconic architecture, gorgeous open spaces, quirky museums, hidden vistas, unconventional art, and obscure stories about the starlets, moguls, personalities, and players who have made Los Angeles their playground. This unusual guidebook explores 111 of the city's most interesting and unknown places and experiences: wander a serpentine path in a spiritual quest of your own making; channel your inner cowboy at a tried and true honky tonk bar; pay homage to the Dude at the bungalow where the big Lebowski lived; turn your car tires into musical instruments on the country's only 'musical' road; sleep with the ghosts of Marilyn Monroe and Charlie Chaplin; view a constellation of stars more vivid than anything Hollywood Boulevard has to offer. From the San Gabriel Mountains to the Pacific Ocean, Angelenos and visitors will fall in love with the real Los Angeles. Adventures beckon. Surprises await. Just imagine how much more scintillating your dinner-party storytelling will be »In Los Angeles, everyone is a star.« - Denzel Washington
