Issa Shivji's book, first published in 1990 provided the first detailed analysis of the fundamental legal foundations of the union in 1964 between Tanganyika and Zanzibar which led to the birth of the United Republic of Tanzania. Used by students of law, politics and the Tanzania union as a basic reference work the book is a product of wide ranging scholarship and close analysis of legal texts that constitute the primary sources of the Union-and the author's long engagement with the morality of constitutional politics that bear on Zanzibar's status in the Union. Out of print for over a decade this second expanded edition includes a few minor revisions, comments and references have been put in square brackets to distinguish them from the original text.

Kitabu hiki ni toleo la pili la kitabu cha 'Uchaguzi Mkuu Tanzania 2015: Magufuli vs Lowassa,'ambacho kilijadili kwa kina kuhusu uchaguzi mkuu wa Rais, wabunge na madiwani nchini Tanzania, uliofanyika Oktoba 25 mwaka 2015. Kilichonisukuma kuandikia toleo hili la pili ni pamoja na ukweli kwamba toleo la kwanza lilitoka takriban wiki mbili kabla ya Uchaguzi Mkuu na hivyo kuwanyima fursa wasomaji wengi watarajiwa. Kadhalika, nimeonelea kuna haja ya kufanya tathmini ya uchaguzi huo ulioshuhudia mgombea wa chama tawala, CCM, Dkt John Pombe Magufuli akiibuka mshindi. Kadhalika, mimi ni mwanafunzi wa stadi za siasa, na mara zote nimekuwa nikiamini kwamba njia mwafaka zaidi ya kuitumia elimu yangu ipasavyo ni kuitumikia nchi

yangu kwa njia ya maongezi, aidha kupitia maandishi ya kwenye makala gazetini au bloguni au kwa makala za sauti ninazozitoa mara kwa mara. Ninasema 'maongezi' kwa vile mimi si mwandishi kitaaluma, na ninajitambulisha kama mfanyamaongezi (conversationalist) kuliko mwandishi. Kwahiyo, kitabu hiki ni sehemu na mwendelezo wa maongezi hayo. Vilevile, kwa muda mrefu nimekuwa nikihubiri umuhimu wa wananchi kutambua fursa yao katika uongozi wa taifa. Kwa bahati nzuri, kila miaka mitano wananchi wanapata fursa ya kushirikia katika uongozi huo kwa njia ya kura kwa Rais, wabunge na madiwani, sambamba na chaguzi za serikali za mitaa zinazojiri katikati ya kipindi hicho. Kwa vile sasa uchaguzi umepita na tumeshapata viongozi wetu, ninaamini kuwa wananchi wana fursa muhimu ya ushiriki wa uongozi wa kiraia ili kuwezesha matakwa yao na ya taifa kwa ujumla kutimia. Licha ya kuwa mwanafunzi wa stadi za siasa, kitabu hiki, kama zilivyo makala zangu gazetini na bloguni, sio cha kitaaluma. Ni maongezi kati yangu na Mtanzania wa kawaida, awe mwenye shahada ya uzamifu kutoka chuo kikuu au mhitimu wa elimu ya msingi. Hii isitafsiriwe kama kukosa imani katika kujadili masuala mbalimbali kitaaluma bali nimeonelea kuwa ndio njia mwafaka ya kuongea na watu wengi pasi kuwepo kwa vikwazo vinavyoweza kuwanyima fursa wenzetu ambao hawakubahatika kielimu. Kitabu hili ni kwa ajili ya kila Mtanzania wa rika lolote, jinsia yoyote na wa kada yoyote - mwanasiasa au raia anayeichukia siasa, 'mama ntilie' au mwanasheria, mwanafunzi au mwalimu, nk

Despite the outpouring of works on constitutional theory in the past several decades, no general introduction to the field has been available. Stephen Griffin provides here an original contribution to American constitutional theory in the form of a short, lucid introduction to the subject for scholars and an informed lay audience. He surveys in an unpolemical way the theoretical issues raised by judicial practice in the United States over the past three centuries, particularly since the Warren Court, and locates both theory and practices that have inspired dispute among jurists and scholars in historical context. At the same time he advances an argument about the distinctive nature of our American constitutionalism, regarding it as an instance of the interpenetration of law and politics. American Constitutionalism is unique in considering the perspectives of both law and political science in relation to constitutional theory. Constitutional theories produced by legal scholars do not usually discuss state-centered theories of

American politics, the importance of institutions, behaviorist research on judicial decision making, or questions of constitutional reform, but this book takes into account the political science literature on these and other topics. The work also devotes substantial attention to judicial review and its relationship to American democracy and theories of constitutional interpretation.

produces 88 percent of the nation's favorite berry. Yet the industry is often criticized for its backbreaking labor conditions and dependence on highly toxic soil fumigants used to control fungal pathogens and other soilborne pests. In *Wilted*, Julie Guthman tells the story of how the strawberry industry came to rely on soil fumigants, and how that reliance reverberated throughout the rest of the fruit's production system. The particular conditions of plants, soils, chemicals, climate, and laboring bodies that once made strawberry production so lucrative in the Golden State have now changed and become a set of related threats that jeopardize the future of the industry.

### **From Goatherd to Governor. The Autobiography of Edwin Mtei**

The debate over genetically modified organisms: health and safety concerns, environmental impact, and scientific opinions. Since they were introduced to the market in the late 1990s, GMOs (genetically modified organisms, including genetically modified crops), have been subject to a barrage of criticism. Agriculture has welcomed this new technology, but public opposition has been loud and scientific opinion mixed. In *GMOs Decoded*, Sheldon Krinsky examines the controversies over GMOs—health and safety concerns, environmental issues, the implications for world hunger, and the scientific consensus (or lack of one). He explores the viewpoints of a range of GMO skeptics, from public advocacy groups and nongovernmental organizations to scientists with differing views on risk and environmental impact.

Krimsky explains the differences between traditional plant breeding and “molecular breeding” through genetic engineering (GE); describes early GMO products, including the infamous Flavr Savr tomato; and discusses herbicide-, disease-, and insect-resistant GE plants. He considers the different American and European approaches to risk assessment, dueling scientific interpretations of plant genetics, and the controversy over labeling GMO products. He analyzes a key 2016 report from the National Academies of Sciences on GMO health effects and considers the controversy over biofortified rice (Golden Rice)—which some saw as a humanitarian project and others as an exercise in public relations. Do GMO crops hold promise or peril? By offering an accessible review of the risks and benefits of GMO crops, and a guide to the controversies over them, Krimsky helps readers judge for themselves.

During his lifetime, Okot pBitek was concerned that African nations, including his native Uganda, be built on African and not European foundations. Traditional African songs became a regular feature in his work, including this pair of poems, originally written in Acholi and translated into English. Lawinos words in the first poem are not fancy, but their creative patterns convey compelling images that reveal her dismay over encroaching Western traditions and her Westernized husbands behavior. Ocols poem underlines Lawinos points and confirms her view of him as a demeaning and arrogant person whose political energies and obsession with wasting time are destructive to his family and his community. The gripping poems of Lawino and Ocol capture two opposing approaches to the cultural future of Africa at the time and paint a picture that belongs in every modern readers cognitive gallery.

Despite great progress around the world in getting more kids into schools, too many leave without even the most basic skills. In India's rural Andhra Pradesh, for instance, only about one in twenty children in fifth grade can perform basic arithmetic. The problem is that schooling is not the same as learning. In *The Rebirth of Education*, Lant Pritchett uses two metaphors from nature to explain why. The first draws on Ori Brafman and Rod Beckstrom's book about the difference between centralized and decentralized organizations, *The Starfish and the Spider*. Schools systems tend to be centralized and

suffer from the limitations inherent in top-down designs. The second metaphor is the concept of isomorphic mimicry. Pritchett argues that many developing countries superficially imitate systems that were successful in other nations— much as a nonpoisonous snake mimics the look of a poisonous one. Pritchett argues that the solution is to allow functional systems to evolve locally out of an environment pressured for success. Such an ecosystem needs to be open to variety and experimentation, locally operated, and flexibly financed. The only main cost is ceding control; the reward would be the rebirth of education suited for today's world.

A challenging collection of 25 prophetic sermons preached between 1975 and 1994 by Bishop David Gitari. Throughout these sermons Gitari is at pains to apply the biblical message to the complex, contemporary scene in Kenya, influenced by the example of such preachers as Martin Luther King and John Stott, unafraid to speak out on social and political issues and against corruption, and justice. Where appropriate, the setting and background to the preaching of the sermon is provided, as well as events which followed the preaching.

I saw the Lord delivers me and my parents and brothers and sisters from death. Death came to our door to threaten our lives in the form of 'Rebels' during the civil war in Sierra Leone. It came in the form of heavily armed insurgents dressed up in army uniforms holding guns and machine guns in army trucks never seen in my life by then. Disgust with evil and desperation to kill and to destroy they call aloud for all the occupants in our home to come out and shot rapidly at our gated fence in Sierra Leone. And soon we saw them one after the other jumped out their truck and violently thump the gate. At the face of death when I imagine as already told by some of our friends of young girls that were already raped and brutally killed my heart fainted. The smell of death as

horrible as it smell did not consumed us. With our last hope we cried out to the Lord and sort the face of God to deliver us from death and miraculously these people suddenly left our front gate without any of us been hurt. They shouted as they went “we are coming back” but I tell you this, the Lord never permitted them to ‘come back’. The lord rescued us. Also, lost in sea when all hopes disappeared, were the rumbling thunders and lightens stroke like consuming fire God became the captain and in the mist of hopelessness brought deliverance. The Lord has constantly and continuously been with me up to this hour in my life.

Balancing theory with application and featuring an exciting full-color design and an engaging, student-friendly writing style, Dr. Hauss's COMPARATIVE POLITICS is the best-selling comprehensive text for Introduction to Comparative Politics. The book uses a unique theme--DOMESTIC RESPONSES TO GLOBAL CHALLENGES--to introduce key concepts and examine the growing interdependence among strong and weak states through the discussion of 11 countries and the European Union. In boxed features that are color-coded for easy cross-reference and comparison, the introduction establishes a comparative structure based on five themes explored for each country. The themes are conflict, democratization, economic liberalization, globalization, and challenges. The countries discussed are categorized by economic development, helping students hone their skills of comparison, synthesis, and interpretation by studying

This text states that democratic governments must be accountable to the electorate; but they must also be subject to restraint and oversight by other public agencies. The state must control itself. This text explores how new democracies can achieve this goal.

### **Comparative Constitutionalism and Good Governance in the Commonwealth**

The central role that good, effective and capable governance plays in the economic and social development of a country is now widely recognised. Using the Commonwealth countries of eastern and southern Africa, this book analyses some of the key constitutional issues in the process of developing, strengthening and consolidating the capacity of states to ensure the good governance of their peoples. Utilising comparative material, the book seeks to draw lessons, both positive and negative, about the problems of constitutionalism in the region and, in doing so, critically addresses the legal issues involved in seeking to make constitutions 'work' in practice.

## **Research Methodology**

The rise of Zanzibar was based on two major economic transformations. Firstly slaves became used for producing cloves and grains for export. Previously the slaves themselves were exported. Secondly, there was an increased international demand for luxuries such as ivory. At the same time the price of imported manufactured goods was falling. Zanzibar took advantage of its strategic position to trade as far as the Great Lakes. However this very economic success increasingly subordinated Zanzibar to Britain, with its anti-slavery crusade and its control over the Indian merchant class. Professor Sheriff analyses the early stages of the underdevelopment of East Africa and provides a corrective to the dominance of political and diplomatic factors in the history of the area.

power. Both Left and Right agree on the boundless nature of presidential responsibility. For both sides, it is the president's job to grow the economy, teach our children well, save us from hurricanes, and even to spread democracy abroad. In short, the Imperial Presidency is the price we pay for making the office the focus of our national hopes and dreams.

Combining historical scholarship, legal analysis, and cultural commentary, *The Cult of the Presidency* argues that the presidency needs to be reined in, with its powers checked by Congress and the courts. Only then will we begin to return the presidency to its proper constitutional role.

It gives a clear and logical insight in many of the questions even people who consider themselves nonreligious people now ask. It can best be read with an open Bible and some open daily newspaper. It will give a surprisingly new insight into what it means to live in 'a time like this'."" (From the preface by the Very Rev. Johan Candelin, Director of the Religious Liberty Commission of the World Evangelical Alliance) ""Suffering comes in many forms, but the one that Scripture tells all Christians to expect is persecution for one's faith. As Thomas Schirrmacher's theological study will demonstrate, the Bible has a tremendous amount to teach us about persecution. Without a Biblical understanding, we are unlikely to fully grasp the nature of the spiritual battle. I am delighted, therefore, that his book puts the Bible's teaching on persecution centre stage.""
