## **Play Games with English 3**

Winner - British Council Innovation in English Language Teaching Award 2006 This book was written for language teachers by language teachers, with a view to encouraging readers to use more tasks in their lessons, and to explore for themselves various aspects of task-based teaching and learning. It gives insights into ways in which tasks can be designed, adapted and implemented in a range of teaching contexts and illustrates ways in which tasks and task-based learning can be

investigated as a research activity. Practising language teachers and student professionals on MA TESOL/Applied Linguistics courses will find this a rich resource of varied experience in the classroom and a stimulus to their own qualitative studies.

### **Way Ahead**

This book equips pre-service language teachers with research and inquiry skills which they can use in the course of their classroom teaching. Research is presented not as an additional burden in teachers' busy lives but as an integrated tool for satisfying their curiosity, developing an investigative stance, and strengthening the links between theory and practice. Over the course of the book, the authors introduce and encourage the use of pedagogically exploitable pedagogic-research activities (PEPRAs) to develop a deeper understanding of pedagogic issues in an engaging, supportive, and collaborative way. This book will be of interest to students and instructors on TESOL and related courses, as well as practitioners working in the teacher training sector.

## **Breakthrough Plus**

Every lesson in Macmillan English 3 has two pages of resources in the Teacher's Guide to assist the teacher. The first page shows the pupils' material in facsimile and the brief notes on each step of the lesson related by pointers to the facsimile. This allows teachers to conduct the lesson with the stimulus material and main teaching points together. The second page contains the lesson summary, including the aim, specific targets, key words and language, materials needed and advance preparation required. It also contains a chart showing the proportion of time recommended for each lesson section, a warm-up to begin the lesson, detailed notes for aspects of each lesson which teachers may wish to use, tapescripts for listening activities and extension activities.

## **Teacher's Guide**

This flexible and easy-to-use Teacher's Guide fully supports the programme, giving you all the guidance you need to help your class work through the pupil Books

## **Macmillan English Practice Book**

## **Teaching English Grammar**

This edited volume brings together diverse thinkers and practitioners from the field of teaching and teacher education as it pertains to educational development in South Asia. In this volume, authors draw from their research, practice, and field experiences, showcasing how teaching and teacher education are currently being carried out, understood, theorized, debated, and implemented for the education of children and teachers alike in South Asia. The volume also includes practitioner voices, which are often marginalized in academic discourse. This book acts as a key reference text for academics and practitioners interested in the intersection of education and development in the region, and in particular what it takes to pull off ambitious teaching and teacher education in South Asia.

## **English World 3**

Bridges the gap between mainstream curriculum teaching and CLIL/English-medium teaching with a course that can be used with confidence by different teachers.

## **About Language**

## **Motivate!, Level 2**

“This book gives a voice to English language teachers faced with the challenges posed by English language curriculum change. As a core component of national state system curricula in virtually every country in the world, there has nevertheless been little research exploring how the millions of English teachers worldwide navigate the challenges posed by such curriculum changes. This volume includes eleven stories from teachers based across every continent, providing a global glimpse of how national English curriculum change projects have been experienced by classroom teachers who are commonly (if erroneously) viewed as mostly responsible for its implementation success or failure. The final chapter synthesises these experiences and suggests wider implications for the development of curriculum change planning processes, and how they might better support teachers’ attempts to achieve curriculum goals. Edited and authored by leading experts in the field, this ground-breaking collection will be of interest to students and scholars of English language teaching, teacher education, curriculum change and education policy.”
