Away to war! This has been and is the cry and experience of thousands from the loyal Northern States for the past few months. It is also mine. I am going to do what I can for the interests of my bleeding country. So wrote Louis N. Beaudry on February 16, 1863, as he departed to join the Union Army. From the time of his departure until he returned home on July 18, 1865, Beaudry kept a detailed diary of the day-to-day events of the Fifth New York Cavalry. The unit was a participant in the Battle of Gettysburg, and Beaudry writes of it in great detail. As the unit's chaplain, Beaudry was very observant of those factors that influenced morale, such as fighting, disease, boredom, hunger and weather conditions; his diary is thus uniquely focused on the daily routine of the Fifth New York.

This book illustrates how religion and ideology were used by Robert Mugabe to ward off opposition within his own party, in Zimbabwe and from the West. An interdisciplinary line up of contributors argue that Mugabe used a calculated narrative of deification – presenting himself as a divine figure who had the task of delivering land, freedom and confidence to black people across the world – to remain in power in Zimbabwe. The chapters highlight the appropriation and deployment of religious themes in Mugabe's domestic and international politics, reflect on the contestation around the deification of Mugabe in Zimbabwean politics across different forms of religious expression, including African Traditional Religions and various strands of Christianity and initiate further reflections on the interface between religion and politics in Africa and globally. Politics and Religion in Zimbabwe will be of interest to scholar of religion and politics, Southern Africa and African politics.

A compelling intellectual and literary history of midcentury America In a midcentury American cultural episode forgotten today, intellectuals of all schools shared a belief that human nature was under threat. The immediate result was a glut of dense, abstract books on the "nature of man." But the dawning "age of the crisis of man," as Mark Greif calls it, was far more than a historical curiosity. In this ambitious intellectual and literary history, Greif recovers this lost line of thought to show how it influenced society, politics, and culture before, during, and long after World War II. During the 1930s and 1940s, fears of the barbarization of humanity energized New York intellectuals, Chicago protoconservatives, European Jewish émigrés, and native-born bohemians to seek "re-enlightenment," a new philosophical account of human nature and history. After the war this effort diffused, leading to a rebirth of modern human rights and a new power for the literary arts.

Critics' predictions of a "death of the novel" challenged writers to invest bloodless questions of human nature with flesh and detail. Hemingway, Faulkner, and Richard Wright wrote flawed novels of abstract man. Succeeding them, Ralph Ellison, Saul Bellow, Flannery O'Connor, and Thomas Pynchon constituted a new guard who tested philosophical questions against social realities—race, religious faith, and the rise of technology—that kept difference and diversity alive. By the 1960s, the idea of "universal man" gave way to moral antihumanism, as new sensibilities and social movements transformed what had come before. Greif's reframing of a foundational debate takes us beyond old antagonisms into a new future, and gives a prehistory to the fractures of our own era.

Nine tight, off-beat stories of love, life, and death. This is fiction for readers who like strong characters wrestling strong problems. A unique musical thread weaves through neoclassic narratives, some with a touch of caprice. Anthony J. DeBlasi does not shy from taking on the tragic side of life. He taps a deep well to conjure utterly dissimilar tales that warm or chill, bring nostalgia or shock. The chilling/shocking side of the range stems from the author's spiritual kinship to Edgar Allan Poe. The warm/nostalgic side comes from holding fast to human constants in a world disordered by self-interest and "progress." Even when he drives to the edge of belief, the author breathes reality into his stories. DeBlasi uses words to capture life, not color it, lasso it, bury it in symbols, or make it hostage to a political line. Two powerful tools keep his characters on track through life, even when chance deals a terrible hand or death casts a shadow: a vigorous mind and a fearless heart. Making the two-heart and mind-work together instead of fighting calls for strong character. Such is the type called in DeBlasi's penetrating tales of love, life and death. The book begins with a peek at the author, whose life has itself been a good story: never seeing a Christmas tree till the age of six bouncing from orchestra to war zone to computers . . . falling in love with words and with a girl from Scotland . . .

One of our most eminent Lincoln scholars, winner of a Lincoln Prize for his Lincoln at Cooper Union, examines the four months between Lincoln's election and inauguration, when the president-elect made the most important decision of his coming presidency -- there would be no compromise on slavery or secession of the slaveholding states, even at the cost of civil war. Abraham Lincoln first demonstrated his determination and leadership in the Great Secession Winter -- the four

months between his election in November 1860 and his inauguration in March 1861 -- when he rejected compromises urged on him by Republicans and Democrats, Northerners and Southerners, that might have preserved the Union a little longer but would have enshrined slavery for generations. Though Lincoln has been criticized by many historians for failing to appreciate the severity of the secession crisis that greeted his victory, Harold Holzer shows that the president-elect waged a shrewd and complex campaign to prevent the expansion of slavery while vainly trying to limit secession to a few Deep South states. During this most dangerous White House transition in American history, the country had two presidents: one powerless (the president-elect, possessing no constitutional authority), the other paralyzed (the incumbent who refused to act). Through limited, brilliantly timed and crafted public statements, determined private letters, tough political pressure, and personal persuasion, Lincoln guaranteed the integrity of the American political process of majority rule, sounded the death knell of slavery, and transformed not only his own image but that of the presidency, even while making inevitable the war that would be necessary to make these achievements permanent. Lincoln President-Elect is the first book to concentrate on Lincoln's public stance and private agony during these months and on the momentous consequences when he first demonstrated his determination and leadership. Holzer recasts Lincoln from an isolated prairie politician yet to establish his greatness, to a skillful shaper of men and opinion and an immovable friend of freedom at a decisive moment when allegiance to the founding credo "all men are created equal" might well have been sacrificed.
