The solution is shown on page 239. Rest of the book is a step-by-step logical progression to the solution. Why? Last century has seen many crisis unfold, but the learning from them had not been applied to make our system, safer and secured. According to the author, the prevailing Financial Crisis resulted from a poor quality of information, running the global financial system. The author uses the

'information asymmetry' and 'information lifecycle' to put forth his argument. As this book extracts learning from this crisis, it explains how financial sector and other businesses can apply the concept of 'High Quality of Information' to run a 'crisis-proof- business. In this book, the author constructs the global financial architecture, that can resist crises in future. So, are we more wiser, living through the current crisis? What can the non-financial sector learn from this crisis? Make an assessment for yourself, using the C(X)O checklist at the end of the book.

The Indian rural market till long had been thought of as an inaccessible, unsubstantial market with limited purchasing power. This belief has prompted the marketers to blatantly evade the call of the rural markets. The truth of the matter is that all rural consumers are not poor. As revealed by a study conducted by NCAER, 'there are as many middle income and above households in the rural areas as there are in the urban areas'. The catch is that a sizeable portion of the rural consumer does not prefer to buy in bulk but have a propensity to buy in small amounts as and when required. This presses on the need for some change in the products, services and packaging and opens up a strong case in favour of innovation for the rural markets. Moreover the scattered and fragmented nature of the Indian rural markets makes distribution a cumbersome process. Unlike that in the urban areas, a member of the distribution channel in the rural area would end

up catering to significantly lesser number of consumers in an area of comparable size. Establishing an intensively wide and deep distribution channel may not always be economically viable and profitable. This presents another scope for innovation for the marketer intending to penetrate into the rural markets. Other pertinent questions which may be answered through innovation are: how to sell profitably to the rural poor, how to reduce the cost of marketing communication and yet communicate more effectively with the rural masses, how to deliver an enhanced value to the consumers, what type of business models to develop for the rural markets, how to lower the price of the products and services for the rural consumers, how to make the products more cost effective and many more. The book attempts to give a brief account of the Indian rural market, explore the possibility of using innovation for penetrating into this market and point to and justify the suitability of some specific types of innovations for the rural market of India.

An MBA from Kellogg, a six-figure salary teasing toward seven, and a career trajectory in international banking that challenged gravity. Whether in Boston or Moscow, Carson Neshek led a charmed existence filled with fast cars, lucrative business deals and beautiful women. With Russia now open for private investment

and the world knocking on the door, Carson only had time for business. A personal life -- or at least its encumbrances -- would have to wait. That included the exotic beauty Sasha and her daughter Vika, for whom Carson was "daddy" only as an occasional patron. Russia was a land of adventure and opportunity that demanded taming. And gambling with it was an intoxicating game until the stakes escalated too far too fast - threatening his career and maybe his life. Carson stood at the dangerous intersection of corrupt politics and mafia-controlled business in Russia. As murders began to pile up he found himself squeezed between the terrifying Russian criminal underworld, all-reaching Russian political power, and even U.S. law. Carson would have to learn whom he could trust and what he could save and then make a choice -- before it was too late.
