Scrambles Amongst the Alps

Dr. Alice Anderson doesn't believe in love, no matter how much the small community of Smugglers Cove tries to persuade her otherwise. That is until she meets the doctor she will be working with the charming Sicilian, Dr. Giovanni Moretti.

The Sicilian Doctor's Proposal

"The south west face of Everest has never yet been conquered. The greatest unclimbed challenge in the world remains to test the limits of man's courage, skill and audacity. In the autumn of 1972, cutting manpower and equipment to a minimum, Chris Bonington led an all-British team, including Hamish MacInnes and Dougal Haston, in an attempt to climb the south west face. After overcoming seemingly impossible conditions and circumstances, they established five camps and were almost within reach of the summit when they were forced to abandon the attempt because of the intense cold and jet-stream winds. Day-by-day tape-recorded and written diaries give a true picture of the ebb and flow of emotions and the complex interplay of problems. This is the authentic and frank record of what Lord Hunt in his foreword calls 'one of the great stories of our time'" -- Back cover.

Alaska: A Climbing Guide

Book 3 in de Giovanni's bestselling "Bastards of Pizzofalcone" series is set in contemporary Naples during season of cold winds, political hijinks, and murder. A heinous, double murder in a squalid apartment on the wrong side of town pits Inspector Lojacono, Di Nardo and the rest of the motley collection of cops known as the "bastards" of the Pizzofalcone precinct against their superiors, the press, and the local political hierarchy. Only by bringing the killer to justice can they save their reputations and the department. De Giovanni is one of the most versatile, prolific, and successful European mystery in Europe. His award-winning and bestselling novels, all set in Naples, offer a brilliant vision of the criminal underworld and the lives of the cops in Europe's most fabled, atmospheric, dangerous, and lustful city.

Free Spirit, Revised Edition

In 1970, Chris Bonington and his now-legendary team of mountaineers were the first climbers to tackle a big wall at extreme altitude. Their target was the south face of Nepal's Annapurna: 12,000 feet of steep rock and ice leading to a 26,454-ft. summit. As serious armchair climbers will tell you, Annapurna South Face is better than all but a handful of equally gripping classics. One could also argue that all that has happened in the big mountains in the past 30 years has come out of this expedition and out of this book. Bonington and his team—most of whom subsequently died in the mountains—represented a kind of "greatest generation" of modern mountaineers. They pioneered a new, bolder approach

to high altitude climbing, and this book is about how they hit the big time.

Aconcagua

Bernina and Bregaglia

* A mountaineering classic re-released in the Legends and Lore series * Two new chapters In Free Spirit Reinhold Messner describes the forces and events that have shaped him as a climber as famous for his discipline as for his innovative spirit. Messner evolved his philosophy of the single free-climbing line with its uncompromising purity of style in the Dolomites and, as equipment and technique developed, he was in the forefront of the transference of fast lightweight alpine methods to the great ranges. Here, he takes us from the days of his first climb (at the age of five) with his father to his brother's tragic

death on Nanga Parbat in 1970 to his later move away from the overcrowded Alps and 8000-meter peaks. He sought fulfillment, instead, in new challenges in lesser known parts of the world, such as crossing the expanse of Antarctica. Free Spirit is an exciting account of the career of a mountain pioneer.

Everest South West Face

The Singing Cowboys is a nostalgic, back-in-the-saddle examination of the musical B-Western films of the 1930s, 1940s, and 1950s and the singing cowboys that made them so popular. The author, David Rothel, spent a fondly remembered portion of his youth sitting in the Lincoln Theatre in Elyria, Ohio, where the singing cowboys-Gene Autry, Roy Rogers, Tex Ritter, and all the rest-played out their adventures and yodeled their songs on the silver screen. Thousands, perhaps millions, of youngsters from that era shared this common experience during their formative years. First published in 1978, The Singing Cowboys has been out of print for many years. Now, Riverwood Press in association with The Lone Pine Museum of Western Film History has republished the book in an updated, expanded, and repackaged edition. We hope you enjoy!

A Climber's Guide to the St. Elias Mountains

'A book grows rather like a snow crystal. One doesn't write it from start to finish but, in greater or less degree, all at the same time that is why my book is not in chronological order; for everything is of the present, held in the moment when thought captures it.' Kurt Diemberger's *Summits and Secrets* is a mountaineering autobiography like no other. Writing anecdotally, Diemberger provides an abstract look into his life and climbing career that is both fascinating and awe-inspiring to navigate. Known for surviving the 1986 K2 disaster – an account described in harrowing detail in his award-winning book *The Endless Knot* – Diemberger provides a captivating insight into his earlier climbs in *Summits and Secrets*. From climbing his first peak in the Tyrol mountains of Austria, to the epoch-making first ascent of Broad Peak with Hermann Buhl in 1957, and then summiting Dhaulagiri in 1960, where he became one of only two people to have made first ascents of two mountains over 8,000 metres, Diemberger recounts his experiences with wit, honesty and an infectious enthusiasm: 'Every climber knows the thrill the unique inexplicable tension, which the regular shapes of the mountain world awake in him: huge pyramids, enormous rectangular slabs, piled-up triangles of rock, white circles, immense squares – the thrill of simplicity of shape and outline and the excitement of mastering them, to an unbelievable extent, by his own efforts, his own power' *Summits and Secrets* is a must-read for those wanting an insight into the life and achievements of one of the toughest high-altitude climbers the world has ever known.
