Reading Romans in Pompeii

Who was the real founder of Christianity as it is known today--Jesus or Paul? What, if any, was the connection between them? These and other questions about the two historical figures have occupied biblical scholars and the Christian church for many years up to the present time. This book proposes new ways of framing the questions as well as new approaches to answering them. Neither Jesus nor Paul spoke of a new world religion, separate from Judaism, that would envelop the planet and last for millennia. This study seeks to locate both figures in their respective places in the first century, in Jewish contexts and within the larger Greco-Roman society. The aim is to transcend the language and thought patterns of later generations of theologians in order to hear more clearly the prophetic voices of Jesus and Paul on their terms and in their social locations. By so doing, Shillington lays the groundwork for a more authentic translation of their vision and mission into modern alternatives, including better Jewish-Christian relations.

UnCorinthian Leadership

In this new volume, renowned scholar Jerome Murphy-O'Connor does for Ephesus what he did for Corinth in his award-winning *St. Paul's Corinth*. He combs the works of twenty-six ancient authors for information about ancient Ephesus, from its beginnings to the end of the biblical era. Readers can now picture for themselves this second of the two major centers of Paul's missionary work, with its houses, shops, and monuments, and above all the world-renowned temple of Artemis. After presenting the textual and archaeological evidence, Murphy-O'Connor leads the reader on a walk through St. Paul's Ephesus and describes the history of Paul's years in the city. Although Ephesus has been a ruin for many hundreds of years, readers of this book will find themselves transported back to the days of its flourishing.

An Introduction to the Study of Paul

Remain in Your Calling explores the way the Apostle Paul negotiates and transforms existing social identities of the Corinthian Christ-followers in order to extend his gentile mission. Building on the findings of Tucker's first monograph, *You Belong to Christ: Paul and the Formation of Social Identity in 1 Corinthians 1-4*, this work expands the focus to the rest of 1 Corinthians. The study addresses the

way Paul forms Christ-movement identity and the kind of identity that emerges from his kinship formation. It examines the way previous Jewish and gentile social identities continue but are also transformed "in Christ." It then provides case studies from 1 Corinthians that show the way social-scientific criticism and ancient source material provide insights concerning Paul's formational goals. The first looks at the way Roman water practices and patronage influence baptismal practices in Corinth. The next uncovers the challenges associated with the transformation of the Roman household when it functions as sacred space within the ekklesia. The final study investigates the way Paul uses apocalyptic discourse to recontextualize the Corinthians' identity in order to remind them that God, rather than the Roman Empire, is in control of history.

Twenty-four scholars join their efforts to congratulate David Lee Balch for a long career of dedication to scholarship and teaching. Topics range from the life of early Christian house churches to the kinds of challenges that early Christians needed to negotiate in their artistic and literary worlds as they established their own identity.

Theology of the New Testament

In *The Games People Play*, Robert Ellis constructs a theology around the global cultural phenomenon of modern sport, paying particular attention to its British and American manifestations. Using historical narrative and social analysis to enter the debate on sport as religion, Ellis shows that modern sport may be said to have taken on some of the functions previously vested in organized religion. Through biblical and theological reflection, he presents a practical theology of sport's appeal and value, with special attention to the theological concept of transcendence. Throughout, he draws on original empirical work with sports participants and spectators. *The Games People Play* addresses issues often considered problematic in theological discussions of sport such as gender, race,

consumerism, and the role of the modern media, as well as problems associated with excessive competition and performance-enhancing substances. As Ellis explains, "Sporting journalists often use religious language in covering sports events. Salvation features in many a headline, and talk of moments of redemption is not uncommon. Perhaps, somewhere beyond the cliched hyperbole, there is some theological truth in all this after all."

St. Paul's Corinth

St. Paul's Epistles to the Thessalonians

Studying the theology of the New Testament can be a daunting task, even to the knowledgeable Bible student or pastor. Each of the twenty-seven books, written by various authors, has its own theological emphasis and nuances. How do we elicit a coherent message from such theological diversity, especially given that some of

the theological statements in the New Testament seem to be at odds with one another? Is such an endeavor achievable or even valid? Theology of the New Testament takes a balanced approach in response to these challenges. Frank Thielman presents a theology of the New Testament that is careful to take into account the cultural and historical circumstances surrounding each book and the New Testament as a whole. He not only examines each book's theological content individually, but also in relation to the rest of the New Testament, particularly within each of the three theological units that comprise the New Testament: the gospels and Acts, the Pauline epistles, and the general epistles and Revelation. This canonical and synthetic approach honors both the theological diversity of the various books and the theological connections between the books. In the end, Thielman finds a unified theological vision of the New Testament, anchored in the centrality of Jesus Christ. Frank Thielman's *Theology of the New Testament* is an outstanding achievement. The book is marked by scholarly depth, exegetical rigor, and theological profundity. Both students and professors will profit immensely from this lucid treatment of the theology contained in the New Testament documents.

Saint Paul's Epistle to the Galatians

Whether the Second Epistle of Paul to the Corinthians is a single document or a compilation of two or more, and the question of Paul's relations with the Corinthian church between the despatch of the First and the composition of the Second letter (or letters), have been matters of debate since the eighteenth century. Margaret Thrall's commentary engages with these and all the other issues associated with 2 Corinthians. There follows a detailed verse-by-verse exegesis of chapters 1-7, which attempts to understand the viewpoint of the original readers of the text as well as Paul's own. This volume covers many of Paul's writings which have evoked considerable scholarly interest in recent years. This is an exemplary addition to the ICC series.

New Testament Commentary Survey

“Remain in Your Calling”

In this comprehensive introduction to the apostle Paul, Stanley Porter devotes serious consideration both to the background and major contours of Paul's thought and to the unique contributions of each of his letters. Porter begins by introducing

the Pauline tradition and outlining the basics of Paul's life, the chronology of his ministry, and his several imprisonments. Porter then discusses the background to Paul's thought, examines some of the major themes of his writings, and treats issues concerning the Pauline epistles, such as pseudonymity and canon. Finally, Porter delves into all thirteen of Paul's letters individually, placing them within their historical contexts and examining critical issues relating to the content and interpretation of each letter. The result is a thorough, balanced treatment of one of the most important figures in Christianity.

Emerging Leadership in the Pauline Mission

Where did Paul find leaders for his new churches? How did he instruct and develop them? What processes took place to stabilize the churches and institute their new leadership? This book carves a fresh trail in leadership studies by looking at leadership development from a group-dynamic, social identity perspective. Paul engages the cultural leadership patterns of his key local leaders, publicly affirming, correcting, and improving those patterns to conform to a Christlike pattern of sacrificial service. Paul's own life and ministry offer a motivational and authoritative model for his followers, because he embodies the leadership style he teaches. As a practical theologian *avant la lettre*, Paul contextualizes key theological themes to strengthen community and leadership formation, and equips his church leaders as entrepreneurs of Christian identity. A careful comparison of

the Corinthian and Ephesian churches demonstrates a similar overall pattern of development. This study engages Pauline scholarship on church office in depth and offers alternative readings of five Pauline epistles, generating new insights to enrich dogmatic and practical theological reflection. In a society where many churches reflect on their missional calling, such input from the NT for contemporary Christian leadership formation is direly needed.

The Acts of the Apostles

Paul was the most influential figure in the early Christian church. In this epistle, written to the founders of the church in Rome, he sets out some of his ideas on the importance of faith in overcoming mankind's innate sinfulness and in obtaining redemption. With an introduction by Ruth Rendell

The Pauline Epistles

The Apostle Paul's dramatic and much-discussed conversion on the road to Damascus radically changed the course of his life--as well as the Christian religion. Can a new narrative, and a new perspective, be brought to this two-thousand-year-old story and centuries of critical thought and study? Writer and filmmaker Robert Orlando believes it can. Apostle Paul: A Polite Bribe is a dramatic and challenging

book, inspired by his controversial film of the same name. This groundbreaking look at Paul's life draws on extensive research into Paul's letters and the book of Acts to reveal Paul's human attitudes and insecurities. Orlando reconstructs a fresh take on the Apostle Paul's life and proposes that Paul, as one of Christianity's most celebrated converts, may have needed more than faith and fervor to convince the other apostles to accept his vision of Christian ministry. Apostle Paul: A Polite Bribe illustrates how a vision of promise eventually leads to a hopeless prison cell and ultimately, a new religion, challenging the traditional perspective to inspire new thought on one of the best-known founders of the Christian religion.

Text, Image, and Christians in the Graeco-Roman World

This tried and tested introduction to Paul needs little introduction of its own. After considering Paul's importance and influence, and the important sources for the study of Paul, the volume covers the following key topics: the earliest period of Christianity - from Jesus to Paul; Paul's life before and after his 'conversion'; his individual letters; the major elements of his theology; his attitude to Israel and the Jewish law; perspectives on the Pauline assemblies, including their socio-economic location, meeting places, and attitudes towards women; and Paul's legacy in the New Testament and beyond. The volume has been revised throughout and fully updated with respect to bibliography, and to presenting the latest debates surrounding Paul's thought in a manageable format - including those around 'old'

and 'new' perspectives, with a new section on the 'radical' new Jewish perspective, and those related to the socio-economic status and character of the Pauline assemblies. The helpful study questions and reading lists have also been revised.

St. Paul's epistle to the Galatians. A revised text with introduction, notes, and dissertations. By J. B. Lightfoot. Fifth edition

The popular Biblical educator [by J. Blackburn].

How do we live distinctively in communities embedded in the world around us? The Not-Very-Persecuted Church provides church leaders, pastors, and Christians interested in community development with principles for evaluating culture in light of mission. Since we are called to live in community, the processes that build group identity can help us understand how to live together well. Paul addressed some of the problems that can occur in not-very-persecuted groups in the first four chapters of 1 Corinthians, and he shows us the way suffering forms identity in that context. With discussion questions and stories from personal interviews, this book offers both fascinating glimpses into the world of the first century and practical applications for Christians today.

The Epistles to the Corinthians [Gr. text] with notes and dissertations, by A.P. Stanley

Amid the torrent of books on leadership that flood the marketplace of contemporary Christianity, UnCorinthian Leadership takes a fresh, challenging, and biblical approach. David Starling examines the teaching and leadership practices of Paul in 1 Corinthians, and finds both a sharp critique of the "Corinthianized"

practices that are endemic in much modern Western Christianity and a positive, compelling theological vision for how leadership ought to function among the people of Christ. The account of Christian leadership that emerges is grounded in careful, contextual study of 1 Corinthians, and thoughtfully applied to the circumstances and cultural pressures of our own times. Paying close attention to the situation Paul addresses and the shape of his arguments, Starling highlights the vivid relevance and enduring power of the letter. Students of 1 Corinthians will find an illuminating guide to the contemporary application of the letter; Christian leaders and students of leadership will find a refreshingly biblical account of what makes Christian leadership Christian.

Apostle Paul

Corinth, one of the most fascinating centers of the early Christian movement, is explored through both literary and archaeological means. In St. Paul's Corinth the evidence of thirty-three Greek and Latin authors is arranged and presented chronologically from the first century B.C.E. to the second century C.E. This third revised and expanded edition includes new textual and archaeological material based on continuing research on Corinth. The text of previous editions has been thoroughly revised in the interest of greater clarity and accuracy. The edition also includes updated maps and plans of the region. St. Paul's Corinth is divided into four parts. Part 1: The Ancient Texts includes "Pausanias," "Antipater of Sidon,"

"Polystratus," Cicero," "Crinagoras," "Diodorus Siculus," "Strabo," "Livy," "Propertius," "Vitruvius," "Philo," "Inscription Honouring Iunia Theodora," "Petronius Arbiter," "Pliny the Elder," "Epictetus," "Flavius Josephus," "Martial," "Pseudo-Julian," "Dio Chrysostom," "Plutarch," "Juvenal," "Pliny the Younger," "Suetonius," "Appian," "Florus," "Aelius Aristides," "Lucian," "Apuleius," Gellius," "Alciphron," "Dio Cassius," "Philostratus," and "Athenaeus." Part 2: Paul in Corinth includes "The Edict of Claudius," "The Proconsul Gallio," and "After the Founding Visit." Part 3: Archaeology includes "House Churches and the Eucharist," "Temple Banquets and the Body," and "The Workplace and the Apostolate." Part 4: Corinthian Bronze includes "The Passion for Possession," "The Value of Corinthian Bronze," "The Origins of Interest in Corinthian Bronze," "Corinthian Bronze in Rome," "How Was Corinthian Bronze Made?" "Recognizing an Authentic Corinthian Bronze," "Corinthian Bronze Statues and Figurines," "Utilitarian but Beautiful," "Bronze Production in Roman Corinth." Jerome Murphy-O'Connor, OP, teaches at the Ecole Biblique in Jerusalem. "

Jesus and Paul before Christianity

When Paul came to Corinth he found a culture emerging from the ashes of Roman power. As Julius Caesar rebuilt the fallen city he brought Roman culture to this Greek community. Likewise, Paul's message of salvation in Jesus rebuilt the fallen lives of people dominated by a culture of power. This power was displayed in

violence, discrimination, sexuality, and spirituality. As this city emerged from the ashes of humiliation the church emerged, by God's hand, from of the humiliation of Jesus and the cross. Today the church emerges in a culture of power, humiliation, and fear. Paul's challenge for the church is to be mature and practice unconditional love. This love is permanent. This love develops and empowers others. This love causes us to be in relationship with God and others. Through this love God's people see face to face. The church can emerge to radiate love, peace, and empowerment.

Orality and Literacy in Early Christianity

Most Bible commentaries take us on a one-way trip from the twentieth century to the first century. But they leave us there, assuming that we can somehow make the return journey on our own. In other words, they focus on the original meaning of the passage but don't discuss its contemporary application. The information they offer is valuable -- but the job is only half done! The NIV Application Commentary Series helps us with both halves of the interpretive task. This new and unique series shows readers how to bring an ancient message into modern context. It explains not only what the Bible means but also how it can speak powerfully today.

The Holy Bible

The history of the Jesus movement and earliest Christianity requires careful attention to the characteristics and peculiarities of oral and literate traditions. Understanding the distinctive elements of Greco-Roman literacy potentially has profound implications for the historical understanding of the documents and events involved. Concepts such as media criticism, orality, manuscript culture, scribal writing, and performative reading are explored in these chapters. The scene of Greco-Roman literacy is analyzed by investigating writing and reading practices. These aspects are then related to early Christian texts such as the Gospel of Mark and sections from Paul's letters.

St. Paul's Corinth

The Expositor's Greek Testament

Here Jerome Murphy-O'Connor presents a completely new, and much more vivid and dramatic account of the life of Paul than has ever previously been attempted. From his childhood in Tarsus and his years as a student in Jerusalem to the successes and failures of his ministry, this biography has no peer in terms of its detailed reconstructions of Paul's movements and motives. Traditionally, the Acts of the Apostles has provided the framework for the lives of Paul. In recent years, however, the historical value of the Acts has been called into question. Despite the accuracy of many details, they have been linked in ways which reflect the interests of Luke rather than objective reality. Critical assessment is called for if they are to be incorporated into a life of Paul. The prime source for a reconstruction of the

Apostle's life must be his own writings. Recent advances in the study of the letters have brought to light new depths which enables them to be used for biographical purposes. The originality of this book lies in the combination of these two approaches, which are reinforced by close attention to the social and cultural aspects of Paul's ministry as revealed by archaeology and contemporary texts—and it transforms a fountain of theological ideas into a human being.
