### **100 Great Children's Picturebooks**

Almost nothing is known about Louis Charles, whose abandoned handwritten manuscripts were found discovered by Sidewalk Labs in an ornate jewelry box. None of the five manuscripts were dated, but they appear to be late 19th or early 20th century. In the first of these newly discovered classics, a little boy named Aaron travels through a tree in a nonsense fantasy in the style of *The Wizard of Oz*, *Alice in Wonderland*, and *The Phantom Tollbooth*. His dreams and wonders take him through a magical land of creatures - Feathers, Shells, Fins, and others - as he seeks out the dread Magistrate, who seems to be the keeper of the land.

### **The Publishers' Trade List Annual**

This unashamed visual feast celebrates the best designed and illustrated picturebooks from around the world over the past one hundred years. Each book is a creation of genius and inventiveness, and their design and illustration represent such diverse trends as the Russian Constructivists, Italian Futurists, and Postwar Neo-romantics. They are also mirrors of their

times reflecting social concerns from a child's and family's perspectives throughout the twentieth and into the twenty-first century. Fearlessly confronting the frontiers between a child's picturebook and art, this is a collection of books that anyone with an interest in design, illustration, or simply children's literature should know about.

This inspiring picture book retells the story of Nobel Peace Prize nominee Greta Thunberg—the Swedish teenager who has led a global movement to raise awareness about the world’s climate crisis—using allegory to make this important topic accessible to young children. Greta is a little girl who lives in a beautiful forest threatened by Giants. When the Giants first came to the forest, they chopped down trees to make houses. Then they chopped down more trees and made even bigger homes. The houses grew into towns and the towns grew into cities, until now there is hardly any forest left. Greta knows she has to

help the animals who live in the forest, but how? Luckily, Greta has an idea... A section at the back explains that, in reality, the fight against the “giants” isn’t over and explains how you can help Greta in her fight. ### **Get Up, Stand Up**

This book is a compilation of my thoughts-- transformed into poems, quotes, and self notes. At the unseasoned age of 20, I can testify to life taking me through some expected changes and detours. There were many days that I couldn't speak, think, or even write clearly. Through silence, prayer, and this little writing outlet, I've learned so much. I've found inspiration in the most unexpected places. I've learned that it's okay to cry. It's okay to not know all the answers. It's okay to be you-- Unapologetically you. Sometimes, it's even okay to feel lost.. So long as you remember who you are. We're all destined for greatness and success. I pray this book opens minds, encourages smiles, and inspires creativity. Above all, I'm forever grateful to my Heavenly Father for his magnificent plan over my life.

The 3rd Edition of Literacy & Learning in the Content Areas helps readers build the knowledge, motivation, tools, and confidence they need as they integrate literacy into their middle and high school content area classrooms. Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms . Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such

techniques as mapping/webbing, anticipation guides, booktalks, class websites, and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content, communities, and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks.

### **Aaron Robertson's Sycamore**

It is not the destination, but the journey. Inspired by this timeless adage, *You Are a Beautiful Beginning* combines lyrical storytelling and lovely art, blossoming into a celebration of self-love, friendship, and community. With beautiful simplicity and hidden depth, this meditative and magical picture book encourages readers old and young to discover their own endless potential. Kelsey Garrity-Riley's inviting, gently magical art pairs beautifully with a lyrical, deceptively simple text by Nina Laden to create a picture book that is equal parts inspirational story and peaceful lullaby. It is not wishing to be different. It is learning to love being you. It is not the end of your story. It is a beautiful beginning, too. This is another uplifting and original book from bestseller Nina Laden, the creator of *Peek-A-Who* and the author of *If I Had a Little Dream* and *Yellow Kayak*.

### **Winter Suns**

An empowering picture book for all kids that demonstrates to children that they can be real-life superheroes and that all kids have what it takes to be brave. Superheroes seek adventure, never give up, and stay calm when others are afraid. Superheroes are brave. But they aren't the only ones. Kids are brave every day. When they are told they are too little, but accomplish something big. When they check for monsters under the bed, just in case. When they

face something uncertain, whether a thunderstorm or a hospital visit. When they stand up for what's right, even when it means facing consequences. Like superheroes, brave kids can save the world, just by being brave. Thoughtful text from Stacy McAnulty paired with vibrant illustrations from Joanne Lew-Vriethoff encourage kids to be brave in all the ways they can: trying new things, speaking their mind, confronting bullies, and more. This book will inspire kids to follow their hearts and to have courage, no matter the situation.

### **Stand Tall, Molly Lou Melon**

Sixteen-year-old Max and 10-year-old Tessa were fully prepared for another horrible summer vacation. While they always hoped to go somewhere fun like Disney World or Universal Studios, they usually went somewhere weird and cheap that their father, former boy bander Don Masters, found in an ad in a truck stop coupon magazine. But this year was different. Where they went couldn't be found on any map or in any truck stop coupon book. They passed through a portal to a place called Turtle Island, an alternate version of America that diverged from our history before the pilgrims landed at Plymouth Rock. It was there where they met world famous action movie star Jordie Paine -- star of such films as *I Plan to Kill You Now* and the sequel, *I Plan to Kill You Now, Too*, the ninja film, *Chuck Butcher: Sword Wielding Jackal*, as

well as the light-hearted romp, Harry Hinklehoffer and the Giant Dancing Toad of East Nebraska -- who would be their guide in this strange new world. Jordie, they later learned, brought the Masters family to Turtle Island for a very specific reason. Because they look just like the ruthless first family of Turtle Island, the Masters are pawns in a coup to overthrow the dictator. But things don't go as planned and the Masters wind up in the Survival Games, Turtle Island's national pastime/system of justice where criminals competitors, or crimpetitors, compete for their freedom. In this scifi comedy, the stakes are very simple -- if they win, they rule, if they lose, they must suffer the consequences.
