Discover the power of industrial Ethernet (or "iE"), an affordable, open, and universal alternative to nearly 230 fieldbus protocols currently available for industrial control! The only book of its kind, The Industrial Ethernet Networking Guide paints an in-depth picture of key iE technologies, components, and functions. Gleaning information from industrial automation and Ethernet technology, the authors show readers how this new technology can be used across the corporate enterprise to enable a wealth of productivity improvements, as well as e-business, supply-chain, and agile/virtual manufacturing solutions. This highly engaging, fast-paced Guide begins by discussing the "Ethernet Communication Revolution" as a new framework for factory-to-business infrastructure, taking into account factors in networking the factory floor, as well as potential benefits and limitations of an iE solution. Subsequent chapters detail how to create an iE control network and enable valuable interconnection solutions, from factory-focused remote monitoring and wireless capabilities to VMI and ERP e-business solutions. This unbiased, factory perspective equips all readers – including plant managers, process control engineers and other IT professionals, senior executives, technical consultants and more – with a common base of

knowledge to draw upon when planning their own iE network and solutions.

Schroeder's Antiques Price Guide

Antique dealers and collectors are quite aware that bargains are getting harder and harder to come by each and every day. Schroeder's Antiques Price Guide is still a real bargain at \$12.95. Collectors, dealers, and our customers continue to ask how we can produce this huge 612-page book each year for such a low price. It's simple -- we do it by numbers. It's no secret with publishing that the more you print, the less expensive each book is. So, thanks to all our loyal customers who continue to buy our #1 bestselling title, we are able to keep the retail price low without sacrificing one bit of quality. That is why you get the best for less. In August 1999 we will begin shipping the 18th edition of America's top antiques price guide. Once again we have included over 50,000 listings, each one from all-new sources and carefully checked by an authority on each particular subject. These 600+ expert advisors make sure only the best and most accurate information remains. No one person could possibly be an authority on the over 600 categories that fill this reference, but Bob and Sharon Huxford and their highly respected team of advisors work year-round to make this the most respected, up-to-date guide in the field of antiques and collectibles. Hundreds of sharp original photographs illustrate not only the rare and unusual, but also the common collectibles -- not postage-stamp photographs, but large, close-up shots that show important details clearly. Each subject is presented with history and other background information. Our editors keep abreast of newly developing trends, often adding several new categories a year. If it merits the interest of today's collector, you'll find it in Schroeder's. You can

feel confident that the information we publish is up to the minute and accurate. Without a doubt, you'll find Schroeder's Antiques Price Guide the one to buy for factual information, quality, and the lowest retail price.

Welcome to ShowSmarts - a one-of-a-kind 'how-to' resource that makes the process of putting on a show 'much easier' than it seems, with results 'more successful' than imagined! "Much easier" because it's an A - Z blueprint of how to organize any kind of show. It's full of checklists, definitions, step-by-step directions, time-saving secrets, show job quick tips, production theme ideas , do's & don'ts, cost-cutting suggestions, and SO much more! "More successful" because of the useful words of advice, help and inspiration (penned especially for ShowSmarts) from special book contributors like former first lady, Barbara Bush; green day drummer, Tre' Cool; comedian George Carlin, and 53 others. ShowSmarts has earned an Editor's Choice Award. It's written in everyday language. It's easy to use. You won't find a lot of 'how-to prose' to read. You will find a lot of 'how-to pointers' to use. Immediately! Now you CAN say with confidence, "I'll do that" when your organization needs a show director. Now you CAN think, "No problem" when your teaching position requires directing the school play. Now your decision "To be part of your school, church or community's theater production team" really will be easier to make. ShowSmarts is dedicated to keeping the performing arts in school, and written for those 'everyday heros' who step forward to direct a show and don't know how. ShowSmarts is perfect for · Schools, churches and communities performances · PTA and PTO sponsored activities · Camp, Fairs, Festivals and Cruise Ship programs · City & Neighborhood Youth organizations · Homeschooling groups · Children's libraries and Museums · Military bases and International schools ShowSmarts Table of Contents Think time Volunteerism Show jobs Writing a Class Play Writing a Variety Show Family Funny Monologues Narration Organizing a Talent Show Show Rules Auditions Script-to-Stage projects Coaching Character Rehearsals Homemade Props and Sound Effects Fund Raising Publicity Tickets Programs Makeup and Costumes Showtime Saying, "Thank you"

A respected resource for decades, the Guide for the Care and Use of Laboratory Animals has been revised by a committee of experts, based on input from scientists and the public. The Guide incorporates recent research on commonly used species, including farm animals, and includes extensive references. It is organized around major components of animal use: Institutional policies and responsibilities. The committee discusses areas that require policy attention: the role and function of the Institutional Animal Care and Use Committee, protocols for animal care and use, occupational health and safety, personnel qualifications, and other areas. Animal environment, husbandry, and management. The committee offers guidelines on how to design and run a management program, addressing environment, nutrition, sanitation, behavioral and social issues, genetics, nomenclature, and more. Veterinary care. The committee discusses animal procurement and transportation, disease and preventive medicine, and surgery. The Guide addresses pain recognition and relief and issues surrounding euthanasia. Physical plant. The committee identifies design and construction issues, providing guidelines for animal-room doors, drainage, noise control, surgery, and other areas. The Guide for the Care and Use of Laboratory Animals provides a framework for the judgments required in the management of animal facilities--a resource of proven value, now updated and expanded. This revision will be important to researchers, animal care technicians, facilities managers, administrators at research institutions, policymakers involved in research issues, and animal welfare advocates.
