An award-winning work of brilliant passion and epic poetry that vividly captures the impossible truth of an entire romance from beginning to end. Jimmy Santiago Baca introduces us to a man and woman before they are acquainted and re-creates their first meeting, falling in love, their decision to make a family, the eventual realization of each other's irreconcilable faults, the resulting conflicts, the breakup and hostility, and, finally, their transcendence of the bitterness and resentment. Throughout the relationship we are privy to the couple's astonishing range of emotions: the anguish of loneliness, the heady rush of new love, the irritations and joys of raising children, the difficulties in truly knowing someone, the doldrums of breakup, and so on. It is impossible not to identify with these characters and to recognize one's own experience in theirs. As he weaves this story, Baca explores many of his traditional themes: the beauty and cruelty of the desert lands where he has spent much of his life, the grace and wisdom of animals, the quiet dignity of life on small Chicano farms. An extraordinary work that "expresses both bliss and heartache with lyric intensity" (Booklist) from one of America's finest poets. "Baca is a force in American poetry . . . His words heal, inspire, and elicit the earthly response of love." —Garrett Hongo "[Baca] writes with unconcealed passion . . . what makes his writing so exciting to me is the way in which it manifests both an intense lyricism and that transformative vision which perceives the mythic and archetypal significance of life-events." —Denise Levertov

Poetry, stories, hymns, prayers, and wisdom texts found exquisite written expression in ancient Egypt while their literary counterparts were still being recited around hearth fires in ancient Greece and Israel. Yet, because of its very antiquity and the centuries during which the language was forgotten, ancient Egyptian literature is a newly discovered country for modern readers. This anthology offers an extensive sampling of all the major genres of ancient Egyptian literature. It includes all the texts from John Foster's previous book *Echoes of Egyptian Voices*, along with selections from his *Love Songs of the New Kingdom and Hymns, Prayers, and Songs: An Anthology of Ancient Egyptian Lyric Poetry*, as well as previously unpublished translations of four longer and two short poems. Foster's translations capture the poetical beauty of the Egyptian language and the spirit that impelled each piece's composition, making these ancient masterworks sing for modern readers. An introduction to ancient Egyptian literature and its translation, as well as brief information about the authorship and date of each selection, completes the volume.

## **Through Time: Exceptional Woman**

Western culture has been moving away from its Christian roots for several centuries but the turn from Christianity accelerated in the 20th century. At the core of this decline is a loss of a sense of our own transcendence. Scientific materialism has so seriously impacted our belief in human transcendence that many people find it difficult to believe in God and the human soul. This anti-transcendent perspective has not only cast its spell on the natural sciences, psychology, philosophy, and literature, it has also negatively impacted popular culture through the writings of Richard Dawkins, Daniel Dennett, and many others. The warning signs of this loss of transcendence have been expressed by thinkers as diverse as Carl Jung (psychiatrist), Mircea Eliade (historian of religion), Gabriel Marcel (philosopher), C.S. Lewis and J.R.R. Tolkien. These warnings were validated by a 2004 study in the American Journal of Psychiatry which showed that the absence of religion alone was responsible for a marked increase in suicide rates, sense of meaninglessness, substance abuse, separation from family, and other psychiatric problems. Thus, the loss of transcendence is negatively affecting not only individuals' sense of happiness, dignity, ideals, virtues, and destiny, but also the culture. Ironically, the evidence for transcendence is greater today than in any other period in history. The problem is – this evidence has not been compiled and propagated. Fr. Spitzer's book provides a bright light in the midst of this cultural darkness by presenting both traditional and

contemporary evidence for God and a transphysical soul from several major sources. He also shows how human consciousness and intelligence is completely special - and cannot be replicated by artificial intelligence or animal consciousness. We are transcendent beings with souls capable of surviving bodily death - self-reflective beings aware of perfect truth, love, goodness, and beauty. We are beings with an unrestricted capacity to know and create science, law, culture, art, music, literature, and so much more. The evidence reveals that we have the dignity of being created in the very image of God, and if we underestimate it, we will undervalue one another, underlive our lives, and underachieve our destiny. This work is the most comprehensive treatment of human transcendence available today.
