Lost Continents

Reveals the Pacific Ur-culture that seeded the ancient civilizations of China, Egypt, India, Mexico, and Peru • Shows how the Pan diaspora explains the similarities between Gobekli Tepe and Toltec carvings and stone towers in Japan and on Easter Island • Reveals the mother tongue of Pan hidden in shared word roots in vastly different languages, including Quechua, Sanskrit, Japanese, Greek, and Sumerian • Explains the red-haired Caucasian mummies of China, the Ainu of Japan, the presence of “white” humans in early Native American legend, and other light-skinned peoples found in Southeast Asia and the Middle East The destruction of the vast continent of Pan--also known as Lemuria or Mu--in the Pacific Ocean 24,000 years ago was the greatest catastrophe that ever befell humanity. Yet it resulted in a prehistoric Golden Age of arts and technology thanks to the Sons of Noah, who, forewarned and prepared for the disaster, escaped in 5 organized fleets. Theirs was the masterful Ur-culture that seeded China, Egypt, India, Mexico, and Peru, explaining the sudden injection of the same advanced knowledge and sophisticated arts into those widely separated lands. Examining the diaspora from the sunken continent of Pan, Susan B. Martinez finds traces of the oceanic Pan civilization in arts and technologies from canal-works, masonry, and agriculture to writing, weaving, and pottery, but most importantly in the art of navigation, the hallmark of the survivors of the catastrophe. Using archaeo-linguistic analysis, she reveals the mother tongue of Pan hidden in strikingly similar words for royalty, deities, and important places in vastly different languages, including Quechua, Maori, Sanskrit, Japanese, Chinese, Greek, and Sumerian, as well as English through the prefix “pan” which denotes “all-encompassing.” The author reveals how the Pan diaspora explains the mound builders on each continent, the presence of “white” humans in Native American legend, the red-haired mummies found in China, and the Ainu of Japan. She shares recent genetic studies that reveal Polynesian DNA in central Europeans, Mesopotamians, South Americans, and the 9000-year-old Kennewick man and shows how Pan provides the missing link. She

reveals why carvings at Gobekli Tepe are similar to Toltec artistry, why stone towers in Japan and Easter Island are identical, and how the Pacific Ring of Fire was activated. Moving the Garden of Eden from the Fertile Crescent to the South Seas, Martinez strikes down the pervasive view of Atlantis as the source of ancient knowledge and exposes the original unity of mankind on the ancient Pacific continent of Pan.

The Story Of Atlantis

Lemuria

A beautiful hardback edition of the classic Discworld novel 'Anything you do in the past changes the future. The tiniest little actions have huge consequences. You might tread on an ant now and it might entirely prevent someone from being born in the future.' There's nothing like the issue of evolution to get under the skin of academics. Even if their field of expertise is magic rather than biology. With the best and most interfering minds of Unseen University somehow left in charge at a critical evolutionary turning point, the Discworld's last continent needs a saviour. Who is this hero striding across the red desert? Sheep shearer, beer drinker, bush ranger, and someone who'll even eat a Meat Pie Floater when he's sober. In fact, it's Rincewind, a wizard so inept he can't even spell wizard. He's the only hero left. Still no worries, eh?

Lost Tribes & Sunken Continents

A re-issue of the 1926 classic by James Churchward, *The Lost Continent of Mu: Motherland of Men* supplemented with fresh research and new material by the author's great-grandson. In the 1920s, James Churchward wrote a series of groundbreaking books about the lost continent of Lemuria which he called the land of Mu. The basic premises are these: • The Garden of Eden was not in Asia, but on a sunken continent in the Pacific Ocean. • The Biblical story of creation came not from the peoples of the Nile, but from this now submerged continent of Mu—the Motherland of Men. • Mu was an advanced civilization of 64 million inhabitants... He obtained the information by living with monks and translating unknown manuscripts. Over the years, his books have come to be considered occult classics. Now his great-grandson, Jack Churchward, has resurrected this valuable work and added his own research. Included: • *The Lost Continent* • *The Land of Man's Advent on Earth* • *Egyptian Sacred Volume, Book of the Dead* • *Symbols of Mu* • *North American's Place Among the Ancient Civilizations* • *The Geological History of Mu* • *Ancient Religious Conceptions* • *Ancient Sacred Mysteries, Rites and Ceremonies*

Cosmic Forces As They Were Taught in Mu

A compelling new portrait of the lost realm of Lemuria, the original motherland of humanity • Contains the most extensive and up-to-date archaeological research on Lemuria • Reveals a lost, ancient technology in some respects more advanced than modern science • Provides evidence that the perennial philosophies have their origin in Lemurian culture Before the Indonesian tsunami or Hurricane Katrina's destruction of New Orleans, there was the destruction of Lemuria. Oral tradition in Polynesia recounts the story of a splendid kingdom that was carried to the bottom of the sea by a mighty "warrior wave"--a tsunami. This lost realm has been cited in numerous other indigenous traditions, spanning the globe from Australia to Asia to the coasts of both South and North America. It was known as Lemuria or Mu, a vast realm of islands and archipelagoes that once sprawled

across the Pacific Ocean. Relying on 10 years of research and extensive travel, Frank Joseph offers a compelling picture of this motherland of humanity, which he suggests was the original Garden of Eden. Using recent deep-sea archaeological finds, enigmatic glyphs and symbols, and ancient records shared by cultures divided by great distances that document the story of this sunken world, Joseph painstakingly re-creates a picture of this civilization in which people lived in rare harmony and possessed a sophisticated technology that allowed them to harness the weather, defy gravity, and conduct genetic investigations far beyond what is possible today. When disaster struck Lemuria, the survivors made their way to other parts of the world, incorporating their scientific and mystical skills into the existing cultures of Asia, Polynesia, and the Americas. Totem poles of the Pacific Northwest, architecture in China, the colossal stone statues on Easter Island, and even the perennial philosophies all reveal their kinship to this now-vanished civilization.

The Children of Mu

In this final entry of Hugo Pratt's epic series, the master graphic novelist returns to the theme he first explored in the initial episode--the search for the lost continent of Mu, the mythical Atlantis. A premonition hovers over the entire dreamlike story, as if fate had decided in advance that this would be Corto Maltese's last adventure. The feeling is underscored by the return of most of the major characters seen throughout the long-running saga, like actors giving their final curtain call: Gold Mouth, Morgana, Tristan Bantam, Levi Colombia, Professor Steiner, "the Monk," Cain Groovesnore, Soledad, and (of course) Rasputineach with their own reason to find the mythical realm. Thus, the circle closes. This EuroComics edition features new translations from Pratt's original Italian scripts by Dean Mullaney, the Eisner and Harvey Award-winning editor of the Library of American Comics, and Simone Castaldi, Associate Professor of Romance Languages and Literatures at Hofstra, and the author of *Drawn and Dangerous: Italian Comics of the 1970s and 1980s* (University Press of Mississippi).

The Lost Continent of Mu

Exploring an overlooked era of Italian history roiled by domestic terrorism, political assassination, and student protests, this book shines a new light on what was a dark decade, but an unexpectedly prolific and innovative period among artists of comics intended for adults. Blurring the lines between high art and popular consumption, artists of the Italian comics scene went beyond passively documenting history and began actively shaping it through the creation of fictional worlds where history, cultural data, and pop-realism interacted freely.

The Last Continent

According to Churchward, the lost Pacific continent of Mu "extended from somewhere north of Hawaii to the south as far as the Fijis and Easter Island." He claimed Mu was the site of the Garden of Eden and the home of 64,000,000 inhabitants known as the Naacals. Its civilization, which flourished 50,000 years before Churchward's day, was technologically more advanced than his own, and the ancient civilizations of India, Babylon, Persia, Egypt and the Mayas were merely the decayed remnants of its colonies. In this, his second book, first published in 1931, Churchward tells the story of the colonial expansion of Mu and the influence of the highly developed Mu culture on the rest of the world. Her first colonies were in North America and the Orient, while other colonies had been started in India, Egypt and Yucatan. Churchward claimed to have gained his knowledge from fragments of text written by the Naacals in a dead language taught to him by an Indian priest. Chapters include: The Origin of Man; The Eastern Lines; Ancient North America; Stone tablets from the Valley of Mexico; South America; Atlantis; Western Europe; The Greeks; Egypt; The Western Lines; India; Southern India; The Great Uighur Empire; Babylonia; Intimate Hours with the Rishi; more. A fascinating book on the diffusion of mankind around the world--originating in a now lost continent in the Pacific! Tons of illustrations!

Cosmic Forces of Mu

Sixty thousand years ago, Earth had two more continents than it does today, each larger than what we now know as Australia. Why are they no longer there? One of these additional continents, Atlantis, was located in the Atlantic Ocean between North America and Africa. The other, Lemuria, was located in the Pacific Ocean. In this book, you'll learn all about these huge continents and the great civilizations who called them home. What did they look like? What was daily life like for them? What happened to them? Tom asks these intriguing questions and many more. The answers revealed on the pages within dig into the mysteries surrounding the continents of Atlantis and Lemuria and their eventual destructions.

The Lost Continent of Pan

A reexamination of Immanuel Velikovsky's controversial Venus theories in light of new astronomical and archaeological findings • Provides new evidence from recent space probe missions to support Velikovsky's theories on the formation of Venus • Presents recently translated ancient texts from China, Korea, and Japan that uphold the cometlike descriptions of Venus cited by Velikovsky • Examines evidence of major geomagnetic events in 1500 BCE and 750 BCE that correspond with close passes of the comet Venus and its impact with Mars • Offers scientific explanations for many disputed aspects of Velikovsky's theories, such as how Venus could have transformed from a comet into an orbiting planet Surrounded by controversy even before its publication in 1950, Immanuel Velikovsky's *Worlds in Collision* introduced the provocative theory that Venus began as a brilliant comet ejected by Jupiter around 1600 BCE, wreaking chaos on Mars and Earth as it roamed through our solar system prior to settling into its current orbit. Immediately dismissed without any investigation and subject to vicious attacks, Velikovsky's theory is now poised for reexamination in light of recent astronomical and archaeological findings. Exploring the key points of Velikovsky's theories, Laird Scranton presents evidence from recent space probe missions to show that Venus still exhibits cometlike properties, such as its atmospheric composition, and could be a young planet. Reviewing the widespread cometlike descriptions of Venus from 1500 BCE to 750 BCE as well as Velikovsky's observation that no records of Venus exist prior to 1600 BCE, Scranton reveals recently translated ancient texts from China, Korea, and Japan that further uphold Velikovsky's theories. Examining evidence of major geomagnetic and climate-change events around 1500 BCE and 750 BCE, corresponding with close passes of the comet Venus and its impact with Mars, the author offers scientific explanations for many disputed aspects of Velikovsky's theories, such as how Venus transformed from a comet into an orbiting planet. By updating this unresolved controversy with new scientific evidence, Scranton helps us to understand how it was that *Worlds in Collision* was the one book found open on Albert Einstein's desk at the time of his death.

Book Of Earths

The Lost Civilization of Lemuria

The book, "America is the True Old World," is destined to rewrite the history books, because this book demonstrates that the Americas is the Far East, the land of the Bible, and the oldest landmass. This Book discusses the discovery of Mu, Atlantis found, Hyperborea, Ancient India, and Ancient Sumer.

Forgotten Worlds

Contributes to American Indian ethnography by combining traditional creation stories of American Indian tribes with human origin theories from Darwin to Leaky to establish an Indian point of view toward creation

Drawn and Dangerous

Occultist James Churchward was obsessed with the lost continent of Mu, home to the original human civilization, after learning of this mysterious and forgotten paradise from an Indian priest, who shared several ancient tablets written by the Naacals, the inhabitants of Mu. Or so Churchward claimed. Here, in this work first published in 1933, Churchward discusses his contention that all religions from across Earth share a common origin in Mu. In particular, he explores how symbols of Mu-gleaned, supposedly, from the ancient tablets-bear startling resemblances to everything from the Egyptian ankh and Chinese pictograms to Native American calendar glyphs. The reality of Mu aside, students of comparative mythology and fans of esoterica will find this a fascinating book. British inventor, engineer, and author COLONEL JAMES CHURCHWARD (1851-1936), the elder brother of mystic author Albert Churchward, also wrote *The Lost Continent of Mu Motherland of Man* (1926), *The Children of Mu* (1931), *The Lost Continent of Mu* (1931), *Cosmic Forces of Mu* (1934), and *Second Book of Cosmic Forces of Mu* (1935).

The Lost Lands

AT THE time of my parting with the Rishi, after seven years of study under him, and when I thought I knew it all, he, placing his hand on my shoulder said: 'Go forth, my son, into nature's schoolhouse and learn, for at present you know nothing except how to learn. Every old rock with its wrinkled and gnarled face is speaking a tale of the past if you will but listen, every leaf on tree or bush and every flower and blade of grass growing out of the ground, has a whisper for listening ears. Nature is the great schoolhouse of knowledge, from which man is taught. Nature is God speaking.' In my previous books I endeavored to show the high state attained by the Earth's First Civilization, the state they had arrived at after 200,000 years of study and experience: and, how man then learnt his lessons from nature, a study which brought him into a closer touch with his Heavenly Father. I showed that his sciences were mere copies of nature. Even his geometry and geometrical figures were taken from flowers. He carried these flower symbols into his art so that, today, we find his ancient statuary and structures based on regular, progressive, geometrical lines. The same geometrical figures were used in explaining and teaching religion. In this work I have tried to show the ancient sciences in their grander and more sublime form, taking a step nearer to the Creator himself. Yet told in childlike simplicity, as was the custom of the ancients, unencumbered with

technology and hard words to understand.—James Churchward

Thousands of books have already been written on Atlantis since its reality was first disclosed by the great philosopher Plato, some two and a half millennia ago. Hence, one may well wonder whether a new book on the subject is really needed. Can anything new actually be said about Atlantis? The answer is a most categorical yes. After all, the riddle of Atlantis has never been satisfactorily solved so far. The present book is an attempt by a reputed scientist, to scientifically compare and refute ? perhaps for the first time ever ? the various existing theories on Atlantis? location and reality. The author also expounds his own theory which definitively locates Atlantis in Indonesia. In his research, Prof. Santos marries the most recent results and techniques of Modern Science to the sacred and folk lore of all the peoples of the world, knitting humanity together in a solution to the riddle of Atlantis that neatly ties together the vast scientific and traditional evidence which was always there but never before seen by other researchers. The reader, whether a scientist with an open mind or a lay person, is led to conclude that Plato could well have been telling the truth, after all, since the information provided by the great philosopher is so uncannily confirmed by the recent scientific finds of all sorts.

The Lost Land of Lemuria

An examination of the mythological, historical, and archaeological evidence for lost civilizations throughout the world • Explores unexplained mysteries such as the Caucasian mummies of China, the pyramids of Caral in Peru, and the genetically unique X-woman of Siberia • Examines evidence of lost, ancient civilizations in Asia, Europe, and the Americas, including extensive investigation into Atlantis • Shows that Siberia and the Amazon may have been cradles of humanity before Africa Over and over again, mainstream views of early history--which state that the first civilizations arose around 3500 BCE--are plagued by evidence of much older civilizations, evidence ranging from artifacts and inexplicable remains to pyramids and ubiquitous myths that clearly speak of great empires prior to the rise of the Sumerian city states and pharaonic Egypt. Viewing Atlantis and its many related myths as a metaphor for a long-lost global civilization, Patrick Chouinard explores the mythological, cultural, religious, and archaeological evidence for many forgotten civilizations in Europe, Asia, and the Americas. He addresses unexplained mysteries from around the world, such as Caucasian mummies found in China, the pyramids of Caral in Peru, the "hobbit" remains on Flores Island, the giant heads of Easter Island, the lost legacy of Lemuria, the ideology and occult mysticism behind Nazi theory, and the genetically unique X-woman of Siberia. He also examines evidence of ancient alien visits and other supernatural phenomena in the distant past. Using recent archaeological findings, he shows that Siberia and the Amazon may have been cradles of humanity millennia before Africa. Sounding the call to continue searching ancient, remote, and formerly forbidden regions for lost cultures and genetic root races, Chouinard offers a new chronology for the emergence of human life and civilization as well as a new mechanism for how and why societies and species change over time. By finding lost peoples and their forgotten worlds, we can truly begin to understand the human race and learn from

its long history.

LOST CITIES & ANCIENT MYSTERIES OF THE SOUTHWEST

"My purpose was to comply with the desires of the publishers in preparing and presenting an easily readable, enjoyable, and fascinating account of the lost Continent of Lemuria, with all of its past history, effects upon the races of man, and ancient, human incidents of life.() I hope, therefore, that this book will make the subject more popular and arouse further interest in the investigation of the hundreds of available sources of information still untouched by those who have spent their lifetime seeking for positive facts. With this hope and with the further desire that what I have written may contribute to a better understanding of the development of the human individual in all of his physical, mental, spiritual, and so-called psychic qualities, I offer this work." The Sacred Symbols of Mu

There is not much in mythology that has drawn so much interest than the lost continent of Atlantis. In this book the author, W. Scott-Elliot, tries to provide a geographical, historical and ethnological sketch of all that was and might have been. He even includes essays on the Lemurian race, their language and life. This is a treasure chest for anybody interested in Atlantis.

Outside of scientific journals, archaeologists are depicted as searching for lost cities and mystical artifacts in news reports, television, video games, and movies like Indiana Jones or The Mummy. This fantastical image has little to do with day-to-day science, yet it is deeply connected to why people are fascinated by the ancient past. By exploring the development of archaeology, this book helps us understand what archaeology is and why it matters. In Spooky Archaeology author Jeb J. Card follows a trail of clues left by adventurers and professional archaeologists that guides the reader through haunted museums, mysterious hieroglyphic inscriptions, fragments of a lost continent that never existed, and deep into an investigation of magic and murder. Card unveils how and why archaeology continues to mystify and why there is an ongoing fascination with exotic artifacts and eerie practices.

Lifting the Veil on the Lost Continent of Mu, the Motherland of Men

Discusses the theories of time travel and teleportation and examines actual experiments, the claims of time-traveling individuals, and patents for time travel and teleportation devices

Atlantis

Mu was an immense continent covering nearly one-half of the Pacific Ocean. When she sank during volcanic destruction, fifty million square miles of water claimed her place. This vast continent and culture was the center of civilization some 25,000 years ago. This is the story of Churchward's search for the lost continent, from the vaults of an Indian temple to the four corners of the world.

A Dweller on Two Planets

Annotation This is a fascinating study of Lemuria--a mythical continent which was once believed to bridge the land masses of India and Africa millennia ago before ultimately sinking into the Indian sea. Like the lost city of Atlantis, many people--from Theosophists to Tamil nationalists--have considered Lemuria their "lost cradle of civilization."
