1980s and 1990s focused mainly on inmate subcultures, inmate rights, and sociological interpretations of inmate and guard adaptations to their environment, with qualitative studies and ethnographic methods the norm. In recent years, research has expanded considerably to issues related to inmates' mental health, suicide, managing special types of offenders, risk assessment, and evidence-based treatment programs. The Oxford Handbook of Prisons and Imprisonment provides the only single source that bridges social scientific and behavioral perspectives, providing graduate students with a more comprehensive understanding of the topic, academics with a body of knowledge that will more effectively inform their own research, and practitioners with an overview of evidence-based best practices. Across thirty chapters, leading contributors offer new ideas, critical treatments of substantive topics with theoretical and policy implications, and comprehensive literature reviews that reflect cumulative knowledge on what works and what doesn't. The Handbook covers critical topics in the field, some of which include recent trends in imprisonment, prison gangs, inmate victimization, the use and impact of restrictive housing, unique problems faced by women in prison, special offender populations, risk assessment and treatment effectiveness, prisoner re-entry, and privatization. The Oxford Handbook of Prisons and Imprisonment offers a rich source of information on the current state of institutional corrections around the world, on issues facing both inmates and prison staff, and on how those issues may impede or facilitate the various goals of incarceration.

## **Life Imprisonment from Young Adulthood**

The Andromeda Strain meets The Stand in this startling and stunning thriller that brings to life a unique vision of the apocalypse and plays brilliantly with vampire mythology, revealing what becomes of human society when a top-secret government experiment spins wildly out of control. At an army research station in Colorado, an experiment is being conducted by the U.S. Government: twelve men are exposed to a virus meant to weaponize the human form by super-charging the immune system. But when the experiment goes terribly wrong, terror is unleashed. Amy, a young girl abandoned by her mother and set to be the thirteenth test subject, is rescued by Brad Wolgast, the FBI agent who has been tasked with handing her over, and together they escape to the mountains of Oregon. As civilization crumbles around them, Brad and Amy struggle to keep each other alive, clinging to hope and unable to comprehend the nightmare that approaches with great speed and no mercy. . . NEW YORK TIMES BESTSELLER • Pierce Brown's relentlessly entertaining debut channels the excitement of *The Hunger Games* by Suzanne Collins and *Ender's Game* by Orson Scott Card. "Red Rising ascends above a crowded dystopian field."—USA Today NAMED ONE OF THE BEST BOOKS OF THE YEAR

BY ENTERTAINMENT WEEKLY, BUZZFEED, AND SHELF AWARENESS “I live for the dream that my children will be born free,” she says. “That they will be what they like. That they will own the land their father gave them.” “I live for you,” I say sadly. Eo kisses my cheek. “Then you must live for more.” Darrow is a Red, a member of the lowest caste in the color-coded society of the future. Like his fellow Reds, he works all day, believing that he and his people are making the surface of Mars livable for future generations. Yet he toils willingly, trusting that his blood and sweat will one day result in a better world for his children. But Darrow and his kind have been betrayed. Soon he discovers that humanity reached the surface generations ago. Vast cities and lush wilds spread across the planet. Darrow—and Reds like him—are nothing more than slaves to a decadent ruling class. Inspired by a longing for justice, and driven by the memory of lost love, Darrow sacrifices everything to infiltrate the legendary Institute, a proving ground for the dominant Gold caste, where the next generation of humanity’s overlords struggle for power. He will be forced to compete for his life and the very future of civilization against the best and most brutal of Society’s ruling class. There, he will stop at nothing to bring down his enemies . . . even if it means he has to become one of them to do so. Praise for Red Rising “[A] spectacular adventure . . . one heart-pounding ride . . . Pierce Brown’s dizzyingly good debut novel evokes The Hunger Games, Lord of the Flies, and Ender’s Game. . . . ## **The Lucifer Effect**

From the New York Times bestselling author of the Legend series I am tired of being used, hurt, and cast aside. Adelina Amouteru is a survivor of the blood fever. A decade ago, the deadly illness swept through her nation. Most of the infected perished, while many of the children who survived were left with strange markings. Adelina’s black hair turned silver, her lashes went pale, and now she has only a jagged scar where her left eye once was. Her cruel father believes she is a malfetto, an abomination, ruining their family’s good name and standing in the way of their fortune. But some of the fever’s survivors are rumored to possess more than just scars—they are believed to have mysterious and powerful gifts, and though their identities remain secret, they have come to be called the Young Elites. Teren Santoro works for the king. As Leader of the Inquisition Axis, it is his job to seek out the Young Elites, to destroy them before they destroy the nation. He believes the Young Elites to be dangerous and vengeful, but it’s Teren who may possess the darkest secret of all. Enzo Valenciano is a member of the Dagger Society. This secret sect of Young Elites seeks out others like them before the Inquisition Axis can. But when the Daggers find Adelina, they discover someone with powers like they’ve never seen. Adelina wants to believe Enzo is

on her side, and that Teren is the true enemy. But the lives of these three will collide in unexpected ways, as each fights a very different and personal battle. But of one thing they are all certain: Adelina has abilities that shouldn't belong in this world. A vengeful blackness in her heart. And a desire to destroy all who dare to cross her. It is my turn to use. My turn to hurt.

## **FRANKENSTEIN (The Original 1818 Edition)**

The past 25 years have seen a major paradigm shift in the field of violence prevention, from the assumption that violence is inevitable to the recognition that violence is preventable. Part of this shift has occurred in thinking about why violence occurs, and where intervention points might lie. In exploring the occurrence of violence, researchers have recognized the tendency for violent acts to cluster, to spread from place to place, and to mutate from one type to another. Furthermore, violent acts are often preceded or followed by other violent acts. In the field of public health, such a process has also been seen in the infectious disease model, in which an agent or vector initiates a specific biological pathway leading to symptoms of disease and infectivity. The agent transmits from individual to individual, and levels of the disease in the population above the baseline constitute an epidemic. Although violence does not have a readily observable biological agent as an initiator, it can follow similar epidemiological pathways. On April 30-May 1, 2012, the Institute of Medicine (IOM) Forum on Global

Violence Prevention convened a workshop to explore the contagious nature of violence. Part of the Forum's mandate is to engage in multisectoral, multidirectional dialogue that explores crosscutting, evidence-based approaches to violence prevention, and the Forum has convened four workshops to this point exploring various elements of violence prevention. The workshops are designed to examine such approaches from multiple perspectives and at multiple levels of society. In particular, the workshop on the contagion of violence focused on exploring the epidemiology of the contagion, describing possible processes and mechanisms by which violence is transmitted, examining how contextual factors mitigate or exacerbate the issue. Contagion of Violence: Workshop Summary covers the major topics that arose during the 2-day workshop. It is organized by important elements of the infectious disease model so as to present the contagion of violence in a larger context and in a more compelling and comprehensive way.

### **In the Penal Colony**

This prize-winning novel of a fugitive priest in Mexico is quite simply “Graham Greene’s masterpiece” (John Updike, *The New York Review of Books*). In the Mexican state of Tabasco in the 1930s, all vestiges of Catholicism are being outlawed by the government. As churches are razed, icons are banned, and the price of devotion is execution, an unnamed member of the clergy flees. He’s known only as the “whisky priest.” Beset by heretical vices, guilt, and an immoral past, he’s torn between self-destruction and self-preservation. Too modest to be a martyr, too stubborn to follow the law, and too craven to take a bullet, he now travels as one of the hunted—attending, in secret, to the spiritual needs of the faithful. When a peasant begs him to return to Tabasco to hear the confessions of a dying man, the whisky priest knows it’s a trap. But it’s also his

duty—and possibly his salvation. Named by Time magazine as one of the hundred best English-language novels written since 1923, *The Power and the Glory* is “a violent, raw” work on “suffering, strained faith, and ultimate redemption” (The Atlantic).

Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn’t commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinkmanship—and transformed his understanding of

mercy and justice forever. Just Mercy is at once an unforgettable account of an idealistic, gifted young lawyer's coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. The Palgrave Handbook of Prison Ethnography provides an expansive overview of the challenges presented by qualitative, and particularly ethnographic, enquiry. The chapters reflect upon the means by which ethnographers aim to gain understanding, make sense of what they learn and the way they represent their finished work. The Handbook offers urgent insights relevant to current trends in the growth of imprisonment worldwide. In an era of mass incarceration, human-centric ethnography provides an important counter to quantitative analysis and the audit culture on which prisons are frequently judged. The Handbook is divided into four parts. Part I ('About Prison Ethnography') assesses methodological, theoretical and pragmatic issues related to the use of ethnographic and qualitative enquiry in prisons. Part II ('Through Prison Ethnography') considers the significance of ethnographic insights in terms of wider social or political concerns. Part III ('Of Prison Ethnography') analyses different aspects of the roles ethnographers take and how they negotiate their research settings. Part IV ('For Prison Ethnography') includes contributions that convincingly extend the value of prison ethnography beyond the prison itself. Bringing together contributions by some of the world's leading scholars in criminology and prison

studies, this authoritative volume maps out new directions for future research. It will be an indispensable resource for practitioners, students, academics and researchers who use qualitative social research methods to further their understanding of prisons.

Frankenstein; or, The Modern Prometheus is a novel written by Mary Shelley about a creature produced by an unorthodox scientific experiment. Shelley started writing the story when she was nineteen, and the novel was published when she was twenty-one. The first edition was published anonymously in London in 1818. Shelley's name appears on the second edition, published in France in 1823. The original 1818 'Uncensored' Edition of Frankenstein as first published anonymously in 1818. This original version is much more true to the spirit of the author's original intentions than the heavily revised 1831 edition, edited by Shelley, in part, because of pressure to make the story more conservative. Many scholars prefer the 1818 text to the more common 1831 edition. Mary Wollstonecraft Shelley (1797–1851) was an English novelist, short story writer, dramatist, essayist, biographer, and travel writer, best known for her Gothic novel Frankenstein: or, The Modern Prometheus.

## **The Pennsylvania Journal of Prison Discipline and Philanthropy**

Drawing on research in men's long-term, maximum-security prisons, this book examines three interconnected problems: the tendency of the prison to obscure other social problems and conceal its own failings, the pursuit of greater levels of human security through repressive and violent means and the persistence of the belief in the problem of 'evil'.

While the use of imprisonment continues to rise in developed nations, we have little sociological knowledge of the prison's inner world. Based on extensive fieldwork in a medium-security prison in the UK, HMP Wellingborough, *The Prisoner Society: Power, Adaptation and Social Life in an English Prison* provides an in-depth analysis of the prison's social anatomy. It explains how power is exercised by the institution, individualizing the prisoner community and demanding particular forms of compliance and engagement. Drawing on prisoners' life stories, it shows how different prisoners experience and respond to the new range of penal practices and frustrations. It then explains how the prisoner society - its norms, hierarchy and social relationships - is shaped both by these conditions of confinement and by the different backgrounds, values and identities that prisoners bring into the prison environment.

## **Survival In Auschwitz**

This book analyses the experiences of prisoners in England & Wales sentenced when relatively young to very long life sentences (with minimum terms of fifteen years or more). Based on a major study, including almost 150 interviews with men and women at various sentence stages and over 300 surveys, it explores the ways in which long-term prisoners respond to their convictions, adapt to the various challenges that they encounter and re-construct their

lives within and beyond the prison. Focussing on such matters as personal identity, relationships with family and friends, and the management of time, the book argues that long-term imprisonment entails a profound confrontation with the self. It provides detailed insight into how such prisoners deal with the everyday burdens of their situation, feelings of injustice, anger and shame, and the need to find some sense of hope, control and meaning in their lives. In doing so, it exposes the nature and consequences of the life-changing terms of imprisonment that have become increasingly common in recent years.

## **Shantaram**

The story is set in an unnamed penal colony. Internal clues and the setting on an island suggest Octave Mirbeau's *The Torture Garden* as an influence. As in some of Kafka's other writings, the narrator in this story seems detached from, or perhaps numbed by, events that one would normally expect to be registered with horror. In the Penal Colony describes the last use of an elaborate torture and execution device that carves the sentence of the condemned prisoner on his skin in a script before letting him die, all in the course of twelve hours. As the plot unfolds, the reader learns more and more about the machine, including its origin, and original justification.

## **Things Fall Apart**

William Shakespeare's *The Tempest* retold as *Hag-Seed* Felix is at the top of his game as Artistic Director of the Makesiweg Theatre Festival. His productions have amazed and confounded. Now he's staging a *Tempest* like no other: not only will it boost his reputation, it will heal emotional wounds. Or that was the plan. Instead, after an act of unforeseen treachery, Felix is living in exile in a backwoods hovel, haunted by memories of his beloved lost daughter, Miranda. And also brewing revenge. After twelve years, revenge finally arrives in the shape of a theatre course at a nearby prison. Here, Felix and his inmate actors will put on his *Tempest* and snare the traitors

who destroyed him. It's magic! But will it remake Felix as his enemies fall? Margaret Atwood's novel take on Shakespeare's play of enchantment, retribution, and second chances leads us on an interactive, illusion-ridden journey filled with new surprises and wonders of its own.

## **The Passage**

Little of what we know about prison comes from the mouths of prisoners, and very few academic accounts of prison life manage to convey some of its most profound and important features: its daily pressures and frustrations, the culture of the wings and landings, and the relationships which shape the everyday experience of being imprisoned. The Prisoner aims to redress this by foregrounding prisoners' own accounts of prison life in what is an original and penetrating edited collection. Each of its chapters explores a particular prisoner sub-group or an important aspect of prisoners' lives, and each is divided into two sections: extended extracts from interviews with prisoners, followed by academic commentary and analysis written by a leading scholar or practitioner. This structure allows prisoners' voices to speak for themselves, while situating what they say in a wider discussion of research, policy and practice. The result is a rich and evocative portrayal of the lived reality of imprisonment and a poignant insight into prisoners' lives. The book aims to bring to life key penological issues and to provide an accessible text for anyone interested in prisons, including students, practitioners and a general audience. It seeks to

represent and humanize a group which is often silent in discussions of imprisonment, and to shine a light on a world which is generally hidden from view.

## **Power and Resistance in Prison**

Little attention has been paid to the way in which criminal punishment is interpreted and narrated by offenders. This book uniquely addresses this area, examining the narratives of long-term prisoners with a special focus on the meaning they ascribe to their sentence, its impact on their lives and how it affects their inclination to offend in the future. Through a range of in-depth narrative interviews with male prisoners at different stages of their sentences, Schinkel considers their views on the legitimacy of their sentence, analysing what factors play a role in the shaping of these perspectives including life circumstances and the effects of rehabilitation. Exploring what purposes of punishment prisoners support and perceive as achieved by their sentence, the book argues that the need to survive the prison environment and the need to tell a progressive narrative outweighed the individual characteristics of each case, leading prisoners to accept their sentence even when they had cause to oppose it. *Being Imprisoned* offers new insights into how prisoners perceive their sentences and brings together issues of prison life, the moral performance of prisons, desistance and the purposes and legitimacy of criminal punishment.

Named one of the most important nonfiction books of the 21st century by Entertainment Weekly, Slate, Chronicle of Higher Education, Literary Hub, Book Riot, and Zora A tenth-anniversary edition of the iconic bestseller—“one of the most influential books of the past 20 years,” according to the Chronicle of Higher Education—with a new preface by the author “It is in no small part thanks to Alexander’s account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system.” —Adam Shatz, London Review of Books Seldom does a book have the impact of Michelle Alexander’s *The New Jim Crow*. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander’s unforgettable argument that “we have not ended racial caste in America; we have merely redesigned it.” As the Birmingham News proclaimed, it is “undoubtedly the most important book published in this century about the U.S.” Now, ten years after it was first published, The New Press is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today.

## **KING RAT**

An updated edition of the Sunday Times Bestseller Britain's best-known classicist Mary Beard, is also a committed and vocal feminist. With wry wit, she revisits the gender agenda and shows how history has treated powerful women. Her examples range from the classical world to the modern day, from Medusa and Athena to Theresa May and Hillary Clinton. Beard explores the cultural underpinnings of misogyny, considering the public voice of women, our cultural assumptions about women's relationship with power, and how powerful women resist being packaged into a male template. A year on since the advent of #metoo, Beard looks at how the discussions have moved on during this time, and how that intersects with issues of rape and consent, and the stories men tell themselves to support their actions. In trademark Beardian style, using examples ancient and modern, Beard argues, 'it's time for change - and now!' From the author of international bestseller SPQR: A History of Ancient Rome.

## **The Prisoner**

Billy Pilgrim survives capture by the Germans in World War II, the Dresden bombings, and the struggle for financial success only to be kidnapped in a flying saucer and taken to the planet Tralfamadore.

The Allegory of the Cave, or Plato's Cave, was presented by the Greek philosopher Plato in his work Republic (514a-520a) to compare "the effect of education (παιδεία) and the lack of it on our nature". It is written as a dialogue between Plato's brother Glaucon and his mentor Socrates, narrated by the latter. The allegory is presented after the analogy of the sun (508b-509c) and the analogy of the divided line (509d-511e). All three are characterized in relation to dialectic at the end of Books VII and VIII (531d-534e). Plato has Socrates describe a group of people who have lived chained to the wall of a cave all of their lives, facing a blank wall. The people watch shadows projected on the wall from objects passing in front of a fire behind them, and give names to these shadows. The shadows are the prisoners' reality.

## **The Allegory of the Cave**

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws

teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

### **The Palgrave Handbook of Prison Ethnography**

After decades of stability from the 1920s to the early 1970s, the rate of imprisonment in the United States has increased fivefold during the last four decades. The U.S. penal population of 2.2 million adults is by far the largest in the world. Just under one-quarter of the world's prisoners are held in American prisons. The U.S. rate of incarceration, with nearly 1 out of every 100 adults in prison or jail, is 5 to 10 times higher than the rates in Western Europe and other democracies. The U.S. prison population is largely drawn from the most disadvantaged part of the nation's population: mostly men under age 40, disproportionately minority, and poorly educated. Prisoners often carry additional deficits of drug and alcohol addictions, mental and physical illnesses, and lack of work preparation or experience. The growth of

incarceration in the United States during four decades has prompted numerous critiques and a growing body of scientific knowledge about what prompted the rise and what its consequences have been for the people imprisoned, their families and communities, and for U.S. society. *The Growth of Incarceration in the United States* examines research and analysis of the dramatic rise of incarceration rates and its affects. This study makes the case that the United States has gone far past the point where the numbers of people in prison can be justified by social benefits and has reached a level where these high rates of incarceration themselves constitute a source of injustice and social harm. *The Growth of Incarceration in the United States* examines policy changes that created an increasingly punitive political climate and offers specific policy advice in sentencing policy, prison policy, and social policy. The report also identifies important research questions that must be answered to provide a firmer basis for policy. This report is a call for change in the way society views criminals, punishment, and prison. This landmark study assesses the evidence and its implications for public policy to inform an extensive and thoughtful public debate about and reconsideration of policies.

Everything can be purchased, everyone can be bought. But, can you make money erase your past? It's the Roaring Twenties, and it is the time of over-indulgence. As far as the eyes can see and the mind can perceive, there are ostentatious displays of wealth and even more lavish displays of decadency. Unapologetic decadency. But, does it ever stop? It's the Roaring Twenties, and the great American Dream has been perverted. It no longer stands for anything profound that resonates with people. But, does the Idealism even attempt to stop the Materialism? As more and more people lose themselves to the lure of money, ironically the only person who remains unaffected is Jay Gatsby, the enigmatic host of the most extravagant parties... In this definitive tale on American culture, Fitzgerald pits a chaste dream against the corrupting influences of wealth and comes up with an epic story that can only be defined as ‘A Great American novel’.

## **The Power and the Glory**

Contrary to the stereotypical images of torture, narcotics and brutal sexual abuse traditionally associated with Ottoman or 'Turkish' prisons, Kent Schull argues that, during the Second Constitutional

Period (1908-1918), they played a crucial role in attempts to transform the empire.

## **The Mysterious Benedict Society and the Prisoner's Dilemma**

"It took me a long time and most of the world to learn what I know about love and fate and the choices we make, but the heart of it came to me in an instant, while I was chained to a wall and being tortured." So begins this epic, mesmerizing first novel by Gregory David Roberts, set in the underworld of contemporary Bombay. Shantaram is narrated by Lin, an escaped convict with a false passport who flees maximum security prison in Australia for the teeming streets of a city where he can disappear. Accompanied by his guide and faithful friend, Prabaker, the two enter Bombay's hidden society of beggars and gangsters, prostitutes and holy men, soldiers and actors, and Indians and exiles from other countries, who seek in this remarkable place what they cannot find elsewhere. As a hunted man without a home, family, or identity, Lin searches for love and meaning while running a clinic in one of the city's poorest slums, and serving his apprenticeship in the dark arts of the Bombay mafia. The search leads him to war, prison torture, murder, and a series of enigmatic and bloody betrayals. The keys to unlock the mysteries and intrigues that bind Lin are held by two people. The first is Khader Khan: mafia godfather, criminal-philosopher-saint, and mentor to Lin in the underworld of the Golden City. The second is Karla: elusive, dangerous, and beautiful, whose passions are

driven by secrets that torment her and yet give her a terrible power. Burning slums and five-star hotels, romantic love and prison agonies, criminal wars and Bollywood films, spiritual gurus and mujaheddin guerrillas---this huge novel has the world of human experience in its reach, and a passionate love for India at its heart. Based on the life of the author, it is by any measure the debut of an extraordinary voice in literature.

## **A Lesson Before Dying**

The growing body of work on imprisonment, desistance and rehabilitation has mainly focused on policies and treatment programmes and how they are delivered. *Experiencing Imprisonment* reflects recent developments in research that focus on the active role of the offender in the process of justice. Bringing together experts from around the world and presenting a range of comparative critical research relating to key themes of the pains of imprisonment, stigma, power and vulnerability, this book explores the various ways in which offenders relate to the justice systems and how these relationships impact the nature and effectiveness of their efforts to reduce offending. *Experiencing Imprisonment* showcases cutting-edge international and comparative critical research on how imprisonment is experienced by those people living and working within imprisonment institutions in North America and Northern, Central and Eastern Europe, as well as Scandinavia. The research explores the subjective experience of imprisonment from the perspective of a variety of

staff and prisoner groups, including juveniles, adult female and male prisoners, older prisoners, sex offenders, wrongfully convicted offenders and newly released prisoners. Offering a unique view of what it is like to be a prisoner or a prison officer, the chapters in this book argue for a prioritisation of understanding the subjective experiences of imprisonment as essential to developing effective and humane systems of punishment. This is essential reading for academics and students involved in the study of criminology, penology and the sociology of imprisonment. It will also be of interest to Criminal Justice practitioners and policymakers around the globe.
