### **Travel Dreams Fun-Schooling Journal**

When an old friend asked him to write a weekly dispatch from New Hampshire for the Mail on Sunday's Night and Day magazine, Bill Bryson firmly turned him down. So firm was he, in fact, that gathered here are nineteen months' worth of his

popular columns about the strangest of phenomena -- the American way of life. Whether discussing the dazzling efficiency of the garbage disposal unit, the mind-boggling plethora of methods by which to shop, the exoticism of having your groceries bagged for you, or the jaw-slackening direness of American TV, Bill Bryson brings his inimitable brand of bemused wit to bear on the world's richest and craziest country. From the Trade Paperback edition.

### **Traveller Elementary A1.2**

Ruth was so excited to take a trip in her family's new car! In the early 1950s, few African Americans could afford to buy cars, so this would be an adventure. But she soon found out that black travelers weren't treated very well in some towns. Many hotels and gas stations refused service to black people. Daddy was upset about something called Jim Crow laws . . . Finally, a friendly attendant at a gas station showed Ruth's family The Green Book. It listed all of the places that would welcome black travelers. With this guidebook—and the kindness of strangers—Ruth could finally make a safe journey from Chicago to her grandma's house in Alabama. Ruth's story is fiction, but The Green Book and its role in helping a generation of African American travelers avoid some of the indignities of Jim Crow are historical fact.

Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning.[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the biting satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible,

knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.
