How do children learn to spell and what kinds of teaching support them most effectively? Based on a three-year longitudinal study of children's spelling in different primary classrooms, Olivia O'Sullivan, Assistant Director of the Centre for Literacy in Primary Education and Anne Thomas, the former Inset Director of the Centre for Literacy in Primary Education, pose a number of important questions: what kinds of knowledge are involved in spelling? what are the links between learning to read and learning to spell? what kinds of systematic teaching and interventions make a difference to children's progress? Packed with case studies, photographs and examples of children's work, this unique book sets out the most effective approaches to spelling and provides teachers with a broad set of principles on which to base their teaching. This is an invaluable resource for any

Merriam-Webster Children's Dictionary, New Edition

Delighting in the creative misuse of words and celebrating the verbal flubs that

ignore the conventions of standard English, Robert Alden Rubin provides an illustrated dictionary of contemporary malapropisms. Everyone has made the mistake of using a word or phrase that they think sounds sort of right, but isn't. Rubin collects his favorite malapropisms in a gift book that's perfect for bookworms and wordsmiths. Some examples include:- "without further adieu" - Conflation of bidding adieu (saying good-bye) with ado (complicated doings, ceremony) to mean "without saying anything more."-"hair-brained" - Perhaps confuses hare-brained with airheaded. Hare-brained (rash, silly, or stupid) derives from the erratic mating dances of hares, as in the saying "mad as a March hare," though it also follows that someone with hair for brains wouldn't be sharp."-"I was curled up in a feeble position" - Confusing feeble with fetal, but actually makes a bit of sense!-"exercising demons" - I guess even demons need to go to the gym. Found on blogs, the deepest corners of the internet, as well as some of the most esteemed publications, Rubin gently pokes fun at the twists and turns writers put our language through.

The Kingfisher Visual Factfinder

From an early age, Noah Webster was an odd fellow who liked to talk big and loved learning. He thought America needed its own national language and knew he was just the man to create it. He started with a speller, including everyday words like "scab," "grub," and "mop," and moved on to create a small dictionary. He rode around on a horse, selling his books by hand. Then Noah decided to compile a complete and comprehensive dictionary of American English. He thought the book would take him five years to finish. It took twenty, but his dictionary today is the second-most printed book in the English language.

Acclaimed storyteller and Jewish scholar Ellen Frankel has masterfully tailored 53 Bible stories that will both delight and educate today's young readers. Using the 1985 JPS translation (NJPS) of the Hebrew Bible as her foundation, Frankel retains much of the Bible's original wording and simple narrative style as she incorporates her own exceptional storytelling technique, free of personal interpretation or commentary. Included in the volume is an "Author's Notebook," in which Frankel shares with rabbis, parents, and educators the challenges she faced in translating and adapting these stories for children, such as how she deals with adult language in the original Bible text and themes inappropriate for most young readers. With his enticing, full-page color illustrations of each Bible story, award-winning artist Avi Katz ignites readers' imaginations. His brush captures the vivid personalities

and many dramatic moments in this extraordinary collection.
